PRESENTATION OF FINANCIAL, INDUSTRY AND MARKET DATA

All references to “India” are to the Republic of India and all references to the “Government” are to the Government of India.

FINANCIAL DATA

Unless stated otherwise, the financial data included in this Draft Prospectus are extracted from the restated financial statements of our Company, prepared in accordance with the applicable provisions of the Companies Act, Indian GAAP and restated in accordance with SEBI (ICDR) Regulations, as stated in the report of our Peer Reviewed Auditor, set out in the section titled “Financial Statements as Restated” beginning on page 218 this Draft Prospectus. The Company expansion Project data are extracted from the TEV report of Mitcon Consultancy & Engineering Services Ltd (MITCON). Our restated financial statements are derived from our audited financial statements prepared in accordance with Indian GAAP and the Companies Act, 2013 and have been restated in accordance with the SEBI (ICDR) Regulations.

Our fiscal year commences on April 1 of each year and ends on March 31 of the next year. All references to a particular fiscal year are to the 12 month period ended March 31st of that year. In this Draft Prospectus, any discrepancies in any table between the total and the sums of the amounts listed are due to rounding-off. All decimals have been rounded off to two decimal points.

There are significant differences between Indian GAAP, IFRS and US GAAP. The Company has not attempted to quantify their impact on the financial data included herein and urges you to consult your own advisors regarding such differences and their impact on the Company's financial data.

Accordingly, to what extent, the financial statements included in this Draft Prospectus will provide meaningful information is entirely dependent on the reader's level of familiarity with Indian accounting practices / Indian GAAP. Any reliance by persons not familiar with Indian Accounting Practices on the financial disclosures presented in this Draft Prospectus should accordingly be limited.

Any percentage amounts, as set forth in “Risk Factors”, “Our Business”, “Management's Discussion and Analysis of Financial Condition and Results of Operations” and elsewhere in this Draft Prospectus unless otherwise indicated, have been calculated on the basis of the Company's restated financial statements prepared in accordance with the applicable provisions of the Companies Act, Indian GAAP and restated in accordance with SEBI (ICDR) Regulations, as stated in the report of our Peer Reviewed Auditor, set out in the section titled “Financial Statements as Restated” beginning on page 218 of this Draft Prospectus.

CURRENCY OF PRESENTATION

In this Draft Prospectus, references to “Rupees” or “Rs.” or “INR” are to Indian Rupees, the official currency of the Republic of India. All references to “\$”, “US\$”, “USD”, “U.S. \$” or “U.S. Dollars” are to United States Dollars, the official currency of the United States of America.

All references to ‘million’/ ‘Million’/ ‘Mn’ refer to one million, which is equivalent to ‘ten lacs’ or ‘ten lakhs’, the word ‘Lacs/ Lakhs/ Lac’ means ‘one hundred thousand’ and ‘Crore’ means ‘ten million’ and ‘billion/ bn./ Billions’ means ‘one hundred crores’.

INDUSTRY AND MARKET DATA

Unless stated otherwise, Industry and Market data and various forecasts used throughout this Draft Prospectus have been obtained from publicly available information, Industry Sources and Government Publications.

Industry Sources as well as Government Publications generally state that the information contained in those publications has been obtained from sources believed to be reliable but their accuracy and completeness and underlying assumptions are not guaranteed and their reliability cannot be assured.

Although we believe that industry data used in this Draft Prospectus is reliable, it has not been independently verified by the Lead Manager or our Company or any of their affiliates or advisors. Such data involves risks, uncertainties and numerous assumptions and is subject to change based on various factors, including those discussed in the section titled “Risk Factors” on page 20 of this Draft Prospectus. Accordingly, investment decisions should not be based solely on such information.

Further, the extent to which the industry and market data presented in this Draft Prospectus is meaningful depends on the reader’s familiarity with and understanding of the methodologies used in compiling such data. There are no standard data gathering methodologies in the industry in which we conduct our business, and methodologies and assumptions may vary widely among different industry sources.

FORWARD LOOKING STATEMENT

This Draft Prospectus contains certain “forward-looking statements”. These forward-looking statements can generally be identified by words or phrases such as “aim”, “anticipate”, “believe”, “expect”, “estimate”, “intend”, “objective”, “plan”, “project”, “shall”, “will”, “will continue”, “will pursue” or other words or phrases of similar meaning. Similarly, statements that describe our strategies, objectives, plans or goals are also forward-looking statements. All forward looking statements are subject to risks, uncertainties and assumptions about us that could cause actual results and property valuations to differ materially from those contemplated by the relevant forward-looking statement.

Important factors that could cause actual results to differ materially from our expectations include, but are not limited to the following: -

- General economic and business conditions in the markets in which we operate and in the local, regional, national and international economies;
- Changes in laws and regulations relating to the sectors/areas in which we operate;
- Increased competition in the sectors/areas in which we operate;
- Factors affecting Textile Industry;
- Our ability to meet our capital expenditure requirements;
- Fluctuations in operating costs;
- Our ability to attract and retain qualified personnel;
- Changes in political and social conditions in India, the monetary and interest rate policies of India and other countries;
- Inflation, deflation, unanticipated turbulence in interest rates, equity prices or other rates or prices;
- The performance of the financial markets in India and globally;
- Any adverse outcome in the legal proceedings in which we are involved;
- Our failure to keep pace with rapid changes in technology;
- The occurrence of natural disasters or calamities;
- Other factors beyond our control;
- Our ability to manage risks that arise from these factors;
- Changes in government policies and regulatory actions that apply to or affect our business.

For a further discussion of factors that could cause our actual results to differ, refer to section titled “Risk Factors” and chapter titled “Management’s Discussion and Analysis of Financial Condition and Results of Operations” beginning on pages 20 and 252 respectively of this Draft Prospectus. By their nature, certain market risk disclosures are only estimates and could be materially different from what actually occurs in the future. As a result, actual future gains or losses could materially differ from those that have been estimated.

Future looking statements speak only as of the date of this Draft Prospectus. Neither we, our Directors, Lead Manager, Underwriters nor any of their respective affiliates have any obligation to update or otherwise revise any statements reflecting circumstances arising after the date hereof or to reflect the occurrence of underlying events, even if the underlying assumptions do not come to fruition. In accordance with SEBI requirements, the LM and our Company will ensure that investors in India are informed of material developments until the grant of listing and trading permission by the Stock Exchange.

SECTION II – RISK FACTORS

An investment in Equity Shares involves a high degree of risk. Prospective investors should carefully consider all the information in this Draft Prospectus, particularly the “Our Business”, “Financial Statements as Restated” and related notes, and “Management’s Discussion and Analysis of Financial Condition and Results of Operation” on page 157, 218 and 252 respectively of this Draft Prospectus and the risks and uncertainties described below, before making a decision to invest in our Equity Shares.

Any of the following risks, individually or together, could adversely affect our business, financial condition, results of operations or prospects, which could result in a decline in the value of our Equity Shares and the loss of all or part of your investment in our Equity Shares. While we have described the risks and uncertainties that our management believes are material, these risks and uncertainties may not be the only risks and uncertainties we face. Additional risks and uncertainties, including those we currently are not aware of or deem immaterial, may also have an adverse effect on our business, results of operations, financial condition and prospects.

This Draft Prospectus contains forward-looking statements that involve risks and uncertainties. Our actual results could differ materially from those anticipated in these forward-looking statements as a result of certain factors, including the considerations described below and elsewhere in this Draft Prospectus.

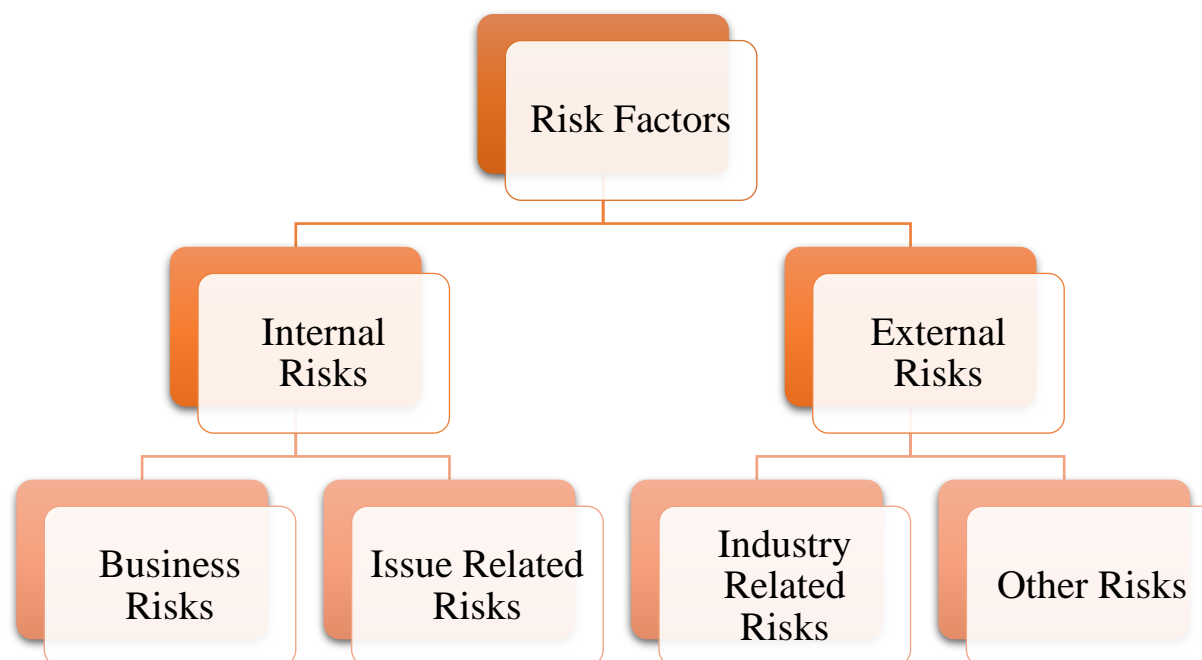

The financial and other related implications of risks concerned, wherever quantifiable, have been disclosed in the risk factors below. However, there are risk factors the potential effects of which are not quantifiable and therefore no quantification has been provided with respect to such risk factors. In making an investment decision, prospective investors must rely on their own examination of our Company and the terms of the offer, including the merits and the risks involved. You should not invest in this offer unless you are prepared to accept the risk of losing all or part of your investment, and you should consult your tax, financial and legal advisors about the particular consequences to you of an investment in our Equity Shares.

Unless otherwise stated, the financial information of our Company used in this section is derived from our audited financial statements under Indian GAAP, as restated.

The Risk Factors have been determined on the basis of their materiality. The following factors have been considered for determining the materiality of Risk Factors:

- Some events may not be material individually but may be found material collectively.*
- Some events may have material impact qualitatively instead of quantitatively.*
- Some events may not be material at present but may be having material impact in future.*

The risk factors are classified as under for the sake of better clarity and increased understanding:

INTERNAL RISK FACTORS

A. Business Specific / Company specific Risk

1. ***There are certain taxation related proceedings, notices and claims pending with relevant statutory authorities at various jurisdictions against Our Company. Any adverse rulings or decisions in such proceedings by such authorities against our Company may render us liable to liabilities and penalties and may have an adverse material impact on our business and results of operations. Our Company and Promoter are involved in certain litigation which is currently pending at various stages. Any adverse decisions in these cases against the Company, Promoter etc. may impact business and operations of the Company.***

Our company is involved in certain tax related proceedings involving Income Tax, TDS, Excise Matters and labour laws.

Our company has filed an appeal with Commissioner of Income Tax (Appeals) for the Assessment Year 2013-2014 against the order of Assistant Commissioner of Income Tax passed u/s 154 of the Income Tax for rejection of company claim for excluding subsidies receivable under technology upgradation fund scheme (TUFS) for calculation of book profits under MAT Provisions of Income Tax Act.

Our company has also filed an appeal with Income Tax Appellate Tribunal for the Assessment Year 2014-15 against the order of Commissioner of Appeals for considering subsidies received under TUFS (Technology Upgradation Fund Scheme) and RIPS (Rajasthan Investment Promotion Scheme) as a part of book profit for the purpose of MAT calculation but exempting from tax under normal tax provisions.

Further there are various TDS related demands aggregating to Rs. 55,590/- appearing in the Traces portal of Income Tax Department for various years against the company towards the short payment of TDS and delayed payment of TDS.

Our Company was issued a show-cause notice dated 28.03.2017 from Dy. Commissioner, Central Excise and Service Tax Division, Bhilwara for wrongly availed CEMVAT Credit of Rs. 24.23 Lacs. The demand is further confirmed by Assistant Commissioner, Central Goods and Service Tax, Bhilwara and penalty of Rs. 24.23 Lacs was levied in additions of demand of Rs. 24.23 lacs. Our company has filed an appeal against the said order.

Further, our Company has received notice from authorities under Employee Provident Fund Act for submission of certain information. The company has provided it however post its submission, our company has not received any communication in this regard.

There are also certain Income Tax and TDS related demand against the promoters of the Company.

A demand of Rs. 31,916 is standing against the name of Mr. Dwarka Prasad Mangal for the Assessment Year 2010-11.

Another promoter of the company Mr. Anand Mangal has filed appeal against the order of CIT for the Assessment Year 2013-14 relating to tax demand of Rs. 2,05,410.

There are various tax demands (Rs. 1,90,530 in total) outstanding against M/s. Lagnam Infotech Solutions Private Ltd. in the Income Tax Act for various assessment years in the Income Tax Portal. The company Statutory Auditor has given a certificate that no such intimation has been received by them for such demand from the Income Tax Department.

Further, there are TDS Demands of Rs. 70,120 for various quarters as against the company for short payment/ delayed payment.

These amounts are a part of aggregate amount involved provided below in table. Also, we cannot assure you that, we, our promoters or our directors may not face legal proceedings in future; any adverse decision in such legal proceedings may impact our business and results of operations.

For further details in relation to legal proceedings involving our Company, Promoters, Directors, Group Company please refer the chapter titled —*Outstanding Litigations and Material Developments* on page 274 of this Draft Prospectus. Except as mentioned above, there are no legal proceedings by or against our Company, Directors and Promoters.

A classification of legal proceedings is mentioned below:

#In respect of two appeal matters, there is no tax demand from Income Tax Department, however, our Company has filed an appeal to claim the benefit of capital subsidies from levying of MAT. In case of matter concerning EPF, there is no amount involved and concerns only procedural matter.

2. The implementation of the project of our company into which the proposed issue proceeds are to be invested is under progress and the company has not placed complete orders for machines and equipment's as mentioned in the object to issue.

Our company is coming up with its Public Issue for part finance its new project for manufacture of yarn. The cost of the project and means of finance for the project are as under.

Particulars	Amount (in lakhs)
A). Details of Project	
Land & Site Development	683
Civil Construction Cost	1,661
Plant & Machinery Cost	8,263
Misc. Fixed Assets	560
Pre-Operating Expense	202
Interest During Construction	322
Contingency Provision	304
Working Capital Margin	545
Total Project Cost	12,540
B). Means of Finance	
Proceeds from IPO	2,200
Internal Accruals	940
Term Loan from Banks under consortium	9,400
Total Means of Finance	12,540

The major part of the project comprises cost of plant and machinery and equipment's. The company has placed orders for plant and machinery and equipment's amounting for Rs 46.20 crore comprising 55.92% for total cost of Plant & Machinery. The orders for balance amount i.e. Rs.36.43 crore (44.08%) are yet to be placed. In delay in placing the orders for

machinery/or supply of plant and machinery or completion of civil work may result in time and cost overruns and may affect our profitability.

Since the part funding for the plant and machinery is from the IPO proceeds, any delay in access to IPO proceeds would eventually delay the process of placing the orders for certain machineries. The purchase of plant and machinery would require us to consider factors including but not limited to pricing, delivery schedule and aftersales maintenance. Our Company is further subject to risks on account of inflation in the price of plant and machinery. There may also be a possibility of delay at the suppliers' end in providing timely delivery of these machineries, which in turn may delay the implementation of our project. For further details, please refer to the chapter titled 'Objects of the Issue' beginning on page no. 117 of this draft Prospectus.

3. The TEV study of the project of the company in which proposed issue proceeds are to be invested is assessed by M/s. MITCON Consultancy and Engineering Services Limited (MITCON) which is further appraised and accepted by our lender bankers.

The MITCON has appraised the project in terms of their engagements with Bank and the company and submitted their report on 26th October, 2017. There has been no changes in the size of the project as envisaged by them in their report however there are some changes inter-se in regard to vendors of the machines, make of the machines and source of machines (Indigenous or import) however cost of the project is same.

The Major weakness and threats in their appraisal report are as under

➤ Weaknesses:

- Exposed to currency fluctuation risk for import of machinery (however, it is an opportunity as well as risk)
- Fluctuation in raw material cost, however, the management will take appropriate & timely measures to address the same by passing the incremental cost to customers by adjusting the selling price accordingly.

➤ Threat

- Competition
- Mitigation: Severe competition in domestic and international markets may lead to pricing pressures on finished goods, volatility in input cost, cotton price, interest rate etc. and consequently the operations of the Company. However, due to quality commitment, established relationship with customers and timely delivery, the company is better equipped to face any competition.

4. Any increase in cost of the project for setting up additional manufacturing facilities will have material impact on our operations.

The cost of expansion project of our company is Rs.125.40 Cr. Any increase in the project size beyond this amount will lead to cost overruns in the project. As per terms of sanction letter of banks who financed the above project, any increase in the size of project (Cost overrun) shall be funded by the company. In case we are unable to raise additional debt or equity in our company to finance, we shall require to fund the project from our internal accruals. Any unplanned use of short term resources to long term purposes will affect working capital of the company which may affect the operations of existing plant of our company. For further details, please refer to the chapter titled 'Objects of the Issue' beginning on page no. 117 of this draft Prospectus

5. Our company may face time overrun issues in setting up of the proposed unit located at Bhilwara, which is proposed to be made operational by part financing through the IPO proceeds.

As per TEV Report, the commercial operations for the new proposed manufacturing unit were expected to begin March 2019. The COD was to be finalized by the lenders which was determined as September 2019. Accordingly, and in line with the COD, the company is expected to commence commercial production from September 2019. In case of any future event which may lead to any change in the proposed project, there may be delay in the implementation of the project further leading to cost overrun issues or in case of occurrence of such events, it may affect our growth plans and financial performance.

6. *Our business is subject to seasonal volatility, which may contribute to fluctuations in our results of operations and financial condition.*

The major raw material used in our manufacturing operations is Cotton. Due to the seasonal availability of the Cotton, our business is seasonal in nature. The period during which our business may experience higher revenues varies from season to season depending upon the availability of Cotton. During the crop season, we are able to procure the cotton at reasonable terms and in large quantities. Whereas during the off season the availability of the cotton is less and also there are price variations. Accordingly, our revenue in one quarter may not accurately reflect the revenue trend for the whole Financial Year. The seasonality of our Cotton industry and its impacts may cause fluctuations in our results of operations and financial conditions.

7. *Our cost of production is exposed to fluctuations in the prices of raw material like Cotton bales.*

We are exposed to fluctuations in the prices of raw material like Cotton bales. Thus, we may be unable to control factors affecting the price at which we procure our raw material. We also face the risks associated with compensating for or passing on such increase in our cost of production on account of such fluctuations in prices to our customers. Particularly, we face the risk of our products becoming unaffordable for a segment of the demography, if we pass on the increase in the cost of production to our customers through a corresponding increase in the price of our products in order to maintain our historical margins. Upward fluctuations in the prices of raw material may thereby affect our margins and profitability, resulting in a material adverse effect on our business, financial condition and results of operations. For further details of our procurement operations and our cost of production, refer chapters titled “Our Business” and “Financial Statements as restated” beginning on page 157 and 218 of this Draft Prospectus.

8. *Cotton is a highly flammable commodity. Any fire, or such mishaps or accidents at the Company’s facilities could lead to property damages, property loss and accident claims.*

Cotton being a highly flammable commodity, every stage from procurement, processing, storage and transportation to trading is fraught with an imminent danger of an instant fire. The risk of fire hazard is increased due to increased automation and use of large volume of air for material handling. Blow room and carding area are more prone to such hazard. Any spark generated at these places can not only generate fire but also the same could propagate to other machines through cotton conveying. Though we have taken insurance policy to cover damage caused by fire however, the cover may not be adequate to the loss suffered.

9. *Our Company has Export Obligations under the Export Promotion Capital Goods (EPCG) Scheme; which are outstanding as on date. Failure to meet export obligation would entail payment of the amount of duty saved together with interest.*

Our Company is engaged in manufacturing of combed and semi combed cotton yarns. Further, our Company has availed benefits and saved Custom duty on import of Capital goods for which we have certain obligations to export under the Export Promotion Capital Goods (EPCG) Scheme. Export Obligations under EPCG Scheme is required to be fulfilled

in 6-8 years reckoned from authorization issue date by export of goods manufactured by us in proportion of the total duty saved on import of capital goods. Any failure to comply with export Obligations will affect the financial position of our Company. For further details please refer to the chapter titled “*Our Business*” and “Government and other Statutory Approvals” beginning on page 157 and 282 respectively of this Draft Prospectus.

10. Our Company is dependent on third party transportation providers for the delivery of finished Products and any disruption in their operations or a decrease in the quality of their services could affect our Company's reputation and results of operations.

Our Company uses third party transportation providers for delivery of finished goods. Though our business has not experienced any disruptions due to transportation strikes in the past, any future transportation strikes may have an adverse effect on our business. These transportation facilities may not be adequate to support our existing and future operations. In addition, raw materials/ finished products may be lost or damaged in transit for various reasons including occurrence of accidents or natural disasters. There may also be delay in delivery products which may also affect our business and results of operation negatively. An increase in the freight costs or unavailability of freight for transportation of our raw materials may have an adverse effect on our business and results of operations. Further, disruptions of transportation services due to weather-related problems, strikes, lock-outs, inadequacies in the road infrastructure and port facilities, or other events could impair ability to procure raw materials on time. Any such disruptions could materially and adversely affect our business, financial condition and results of operations.

11. Changes in technology may render our current technologies obsolete or require us to make substantial capital investments.

Modernization and technology upgradation is essential to provide better services to customers. Although we strive to keep our technology in line with the latest standards, we may be required to implement new technology or upgrade the existing employed by us. Further, the costs in upgrading our technology could be significant which could substantially affect our finances and operations. Our failure or inability to incorporate any change in technology might place our competitors at an advantage in terms of costs, efficiency and timely delivery of the final products.

12. Our debt financing agreements contain restrictive covenants or lenders' options that may affect our interest.

Some debt financing agreements entered into by our Company, contain restrictive covenants, and/or events of default that limit our ability to undertake certain types of transactions, which may adversely affect our business and financial condition. Further, we have provided bank guarantees to secure obligations under the respective contracts for our projects. If we are unable to provide sufficient collateral to secure the bank guarantees or to perform the conditions of such agreements, our ability to enter into new contracts could be limited. We may not be able to continue obtaining new bank guarantees in sufficient quantities to match our business requirements. Many of our financing agreements also include various conditions and covenants that require us to obtain lender consents prior to carrying out certain activities or entering into certain transactions. These financing agreements also require us to maintain certain financial ratios like debt equity ratio, debt service coverage ratio and asset coverage ratio. Typically, restrictive covenants under our financing documents relate to obtaining prior consent of the lender for, amongst others:

- i. changes in the capital structure and shareholding pattern of our Company;
- ii. amendment of the Articles and Memorandum of Association of our Company;
- iii. take any action of merger, compromise, reconstruction or amalgamation;
- iv. dilute our Promoters' shareholding in our Company; and

v. declare dividend for any year.

If our lenders enforce these restrictive covenants or exercise their options under the relevant debt financing agreements, our operations and use of assets may be significantly hampered. Our Promoters may also lose our majority shareholding interest or lose management control over us. A material breach of any of the covenants or restrictions contained in the loan agreement could also cause us to default under the applicable agreement, which would permit the applicable lenders to declare all amounts outstanding thereunder to be due and payable, together with accrued and unpaid interest and enforce the security provided for such loans. In such an event, we may be unable to incur additional borrowings and we may be unable to repay the amounts due. This may have a material and adverse effect on our financial condition and results of operation and even cause us to become bankrupt or insolvent. For further details of the restrictive covenants under our financing documents, please see the section entitled “*Financial Indebtedness*” on page 263.

In addition, the lenders of our Company have the option to take over management control if we are in default of our respective debt obligations. Our loan agreements contain an option for the lenders to call for repayment of loans on breach of certain covenants. Upon their exercise of such options, the lender has a right to call for repayment of the entire amount as per the terms of the loan agreement.

We cannot assure you that we have complied with all such restrictive covenants in a timely manner or at all or that we will be able to comply with all such restrictive covenants in the future. A failure to observe the restrictive covenants under our financing agreements or to obtain necessary consents required thereunder may lead to the termination of our credit facilities, levy of penal interest, acceleration of all amounts due under such facilities and the enforcement of any security provided. Any acceleration of amounts due under such facilities may also trigger cross default provisions under our other financing agreements. If the obligations under any of our financing agreements are accelerated, we may have to dedicate a substantial portion of our cash flow from operations to make payments under such financing documents, thereby reducing the availability of cash for our working capital requirements and other general corporate purposes.

Further, during any period in which we are in default, we may be unable to raise, or face difficulties raising, further financing. In addition, other third parties may have concerns over our financial position and it may be difficult to market our financial products. Any of these circumstances could adversely affect our business, credit rating, prospects, results of operations and financial condition. Moreover, any such action initiated by our lenders could result in the price of the Equity Shares being adversely affected.

13. As per terms of loan sanction letter of Rs. 94 crores issued by our lender banks for financing our project, our company is required to pledge minimum 50% of promoters shares in favour of consortium of State Bank of India & Punjab National bank and no disbursement will be made until such pledge is created. In the event of any default by us in our repayment obligation under such financing agreements, the lenders may exercise the pledge resulting in dilution of our Promoters shareholding in Our Company.

Our Promoters, Lagnam Infotech Solutions Pvt. Ltd and Mrs. Veena Mangal, member of promoter group, have pledged their 49,29,000 and 9,00,000 equity shares, representing 50% of the Pre-IPO equity share capital in favour of consortium of State Bank of India & Punjab National Bank for securing loan of ` 94 Crores to our Company, for setting up additional manufacturing facility to manufacturer ring-based yarn. Details of same is mentioned in the “*Object of the Issue*” on page no. 117 of this Draft Prospectus.

Consortium of Banks State Bank of India & Punjab National Bank will have various rights including right to register and may transfer the pledged shares to any of its associate or to a third party in the case of a default by our Company. In the event that our Promoters are unable to repay the loans in a timely manner or in the event of a default under the terms of such loan agreements, the financial institutions may exercise the pledge and take control of the Equity Shares, which will result in a dilution of our Promoters' shareholding in our Company. If a significant number of shares are transferred to State Bank of India & Punjab National Bank or a third party, there would be a change in control of our Company, which in turn may result in a change of our management and business operations. Further, the lenders have right to disclose the name of our Company and our Directors to the RBI/CIBIL and publish their names as defaulters in the media of its choice, which may result in our loss of reputation and business opportunities. For further details, please see the section entitled "*Financial Indebtedness*" on page 263.

14. Our Company may have not complied with the provisions of the Payment of Wages Act 1936 and other labour laws and which can be subject to penalties and regulatory actions.

Our Company has not complied with the provision of the Payment of Wages Act 1936. Our Company has made deductions from employee salary at a rate of 5.0% of their CTC contrary to the provisions of Payment of Wages Act 1936. The said deducted amount would be refunded along with agreed additions, upon the termination of service with our Company or only after completion of five years of service. Any severance of service before completion of the five years, will lead to forfeiture of the amount deducted. The deduction of the said amount is a violation of the provisions of Payment of Wages Act 1936 and might attract liability under Section 20 read with other provisions of the said Act.

15. We rely on contract labour for carrying out certain of our operations and we may be held responsible for paying the wages of such workers, if the independent contractors through whom such workers are hired default on their obligations, and such obligations could have an adverse effect on our results of operations and financial condition.

In order to retain flexibility and control costs, we appoint independent contractors who in turn engage on-site contract labour for performance of certain of our operations in each of our business verticals. Although we do not engage these labourer's directly, we may be held responsible for any wage payments to be made to such labourer's in the event of default by such independent contractor. Any requirement to fund their wage requirements may have an adverse impact on our results of operations and financial condition. In addition, under the Contract Labour (Regulation and Abolition) Act, 1970, as amended, we may be required to absorb a number of such contract labourer's as permanent employees. In the event of any non-compliance by contractors with statutory requirements, legal proceedings may be initiated against us. Thus, any such order from a regulatory body or court may have an adverse effect on our business, results of operations and financial condition.

16. Our Company requires significant amounts of working capital for a continued growth. Our inability to meet our working capital requirements may have an adverse effect on our results of operations.

Our business is working capital intensive. A significant portion of our working capital is utilized towards trade receivables and inventory. We intend to continue growing by reaching out to new customers and also increasing sales to the existing customers and thereby reaching to other geographical areas. All these factors may result in increase in the quantum of current assets. Our inability to maintain sufficient cash flow, credit facility and other sources of fund, in a timely manner, or at all, to meet the requirement of working capital or pay out debts, may adversely affect our financial condition and result of our

operations. For further details regarding working capital requirement, please refer to the chapter titled “*Objects of the Issue*” beginning on page 117 of this Prospectus. A brief Summary of our working capital position is given below: -

17. We have certain contingent liabilities that have not been provided for in our Company's financials which if materialize, could affect our financial condition.

As on March 31, 2018, Our Company has following contingent liabilities as per restated financials of the Company:

Particulars Amount (INR in Lakhs)	Amount
Bank guarantee given by Company's Bankers	152.73
Export Bills discounted/ collection	67.83
Excise Demand under Appeal	24.24

In the event any such contingencies mentioned above were to materialize or if our contingent liabilities were to increase in the future, our financial condition could be adversely affected. For further details, see the section entitled “*Financial Statements*” on Page 218 of Draft Prospectus

18. Failure to comply with the conditions applicable under TUFs and Rajasthan Investment Promotion Scheme 2014 being availed by us, may render Our Company ineligible for interest or capital subsidies

Our company is regularly receiving the subsidies in respect of past loans eligible for RIPS and RTUFS. However, we cannot guarantee that we will continue to receive them in the

future due to any changes from the Government. Further, in respect of fresh loans to the extent of Rs. 94.00 crores sanctioned to us for implementation of the new project would be eligible for interest subsidy @ 6% under Rajasthan Investment Promotion Scheme, 2014 and not under TUFS. If we fail to comply with the conditions stipulated under these policies, our Company may be denied the interest or capital subsidy, making its operations less cost effective.

19. Our Company has a negative cash flows from its investing activities as well as financing activities in the past years, details of which are given below. Sustained negative cash flow could impact our growth and business

Our Company had negative cash flows from our investing activities as well as financing activities in the previous year(s) as per the Restated Financial Statements and the same are summarized asunder:

(Amount Rs. In Lakhs)

Particulars	For the Year ended March 31			
	2018	2017	2016	2015
Cash Flow from / (used in) Operating Activities	470.77	841.09	635.55	210.03
Cash Flow from / (used in) Investing Activities	(649.10)	(41.11)	(1587.88)	(1057.93)
Cash Flow from / (used in) Financing Activities	184.89	(805.98)	932.37	742.56

Cash flow of a company is a key indicator to show the extent of cash generated from operations to meet capital expenditure, pay dividends, repay loans and make new investments without raising finance from external resources. If we are not able to generate sufficient cash flows in future, it may adversely affect our business and financial operations. For further details, see "Financial Statements as restated" on page 218 of this Draft Prospectus. We cannot assure you that our net cash flows will be positive in the future.

20. Any penalty or action taken by any regulatory authorities in future for non-compliance with provisions of corporate and other law could impact the financial position of the Company to that extent. Our Company has made delay in certain filings under various Statutory Acts applicable to it in the past years.

Our Company has not strictly complied with certain provisions of the Companies Act, 1956 and the Companies Act, 2013. There have been some delays in filing of some forms such as Form 2, Form 5, MGT-14, ADT-1, CHG-1, Form 23AC, Form 23ACA, Form 66 of the company during the Financial Year 2012-13, 2013-14, 2014-15, 2015-16, 2016-17 & 2017-18. Although no show-cause notice have been issued against the Company till date in respect of above defaults, our company had only paid the additional fees on the filling of the forms in respective years, and in the event of any cognizance being taken by the concerned Registrar of Companies in respect of above, penal actions may be taken against our Company and its directors, in which event the financials of the Company and its directors may be adversely affected.

21. We have applied for the licenses/ approvals required by us to implement the proposed project. Implementation of the proposed project will be adversely affected in case of delayed/ non-receipt of such licenses/ approvals

We have applied for Licenses for the proposed project, however we are yet to receive those licenses. If there is any delay in receiving those license, approvals and/ or the approvals and license are not received, the same could materially affect our ability to implement the

proposed project (for details of licenses/ approvals required please refer chapter of “Government and Other Statutory Approvals”) at page 282 of the Draft Prospectus.

22. We require a number of approvals, NOCs, licenses, registrations and permits in the ordinary course of our business. Also, some of our existing approvals are required to be transferred in the name of “Lagnam Spintex Limited” from “Lagnam Spintex Private Limited” pursuant to name change of Our Company and any failure or delay in obtaining the same in a timely manner may adversely affect our operations.

We require a number of approvals, licenses, registrations and permits in ordinary course of our business. Additionally, we need to apply for renewal of approvals which expire, from time to time, as and when required in the ordinary course. Also, we were a private limited company and some of our present licences are in the name of “Lagnam Spintex Private Limited”. As per Companies Act, 1956/ 2013, a private limited company can be converted into public limited company. After complying with the relevant procedure of Companies Act, 1956/ 2013, the said private limited company was converted into a public limited company in the year 2018. After conversion there was change of name of the company from “Lagnam Spintex Private Limited” to “Lagnam Spintex Limited”. We have initiated necessary steps for transferring the approvals in new name of Our Company. In case we fail to transfer/ obtain the same in name of the company same may adversely affect our business or we may not be able to carry our business. The company has also applied for change of name of these approvals. In case of delay or failure to obtain the same, it could affect our business operations. Any failure to renew the approvals that have expired, or to apply for and obtain the required approvals, licenses, registrations or permits, or any suspension or revocation of any of the approvals, licenses, registrations and permits that have been or may be issued to us, could result in delaying the operations of our business, which may adversely affect our business, financial condition, results of operations and prospects. For more information, see chapter “Government and Other Statutory Approvals” on page 282 of this Prospectus. Further, our Company had not taken the registration under the Rajasthan Shop and Establishment Act, 1958 for its previous Registered Office situated at 29, Kamla Enclave, Chittor Road, Bhilwara. Such non-compliance may render us liable to penalties and other regulatory actions under the Rajasthan Shop and Establishment Act, 1958.

23. Properties occupied by us, including our Registered Office and factory premises, are not owned by us and we have only leasehold rights. In the event we lose or are unable to renew such leasehold rights, our business, financial condition and prospects may be adversely affected.

By way of a lease deeds dated February 14, 2011, our Company obtained the site of its present Registered Office and its factory premises situated at A-53, RIICO Growth Centre, Hamirgarh on lease for a period of 99 years. Our company further by way of transfer letter dt. 10.01.2018 received from RIICO Obtained leasehold rights of property situated at A-51 & 52, RIICO Growth Centre, Hamirgarh for a period of 87 years.

Hence, we do not own the premises in which our registered office and factory premises are situated both existing and proposed additional manufacturing facility. In case we cannot adhere to the terms of the lease such arrangements may be terminated by the lessors, including on account of any actual or alleged breach by us by the terms of such lease. We cannot assure you that we will continue to own, or have the right to occupy, these premises in the future, or that we will be able to continue with the uninterrupted use of these premises, on the same or similar commercial terms. Any significant rent escalation or disturbance in the use of such leased premises may adversely affect our business, financial condition and prospects, or may require us to relocate, perhaps at higher cost.

24. The shortage, non-availability or increase in the cost of power may adversely affect the manufacturing processes and our performance may be affected adversely.

The manufacturing processes of our Company require substantial amount of power. The proposed project is to be set up in Bhilwara which is adjacent to the current manufacturing facility and based on the past experiences there are only limited no. of days when there is power outage lasting for only a few hours. Our Company ensures that during such power outage, maintenance required for machines is undertaken. However, if in case the power outage is for a significant period of time, it shall affect our operations and may have an adverse impact in our profitability. Further, any increase in the cost of power may adversely affect our performance.

25. *We may not be able to realize the amounts, partly or at all, reflected in our Order Book which may materially and adversely affect our business, prospects, reputation, profitability, financial condition and results of operation.*

Future earnings related to the orders in the order book may not be realized and although the orders in the order book represent business that is considered firm, cancellations or scope or schedule adjustments may occur. We may also encounter problems executing the orders or executing it on a timely basis. Moreover, factors beyond our control or the control of our clients may postpone some orders or cause its cancellation, including delays or failure to obtain necessary permits, authorizations, permissions, other types of difficulties or obstructions, in relation to the proposed project. Due to the possibility of cancellations or changes in scope of orders, resulting from our clients' discretion or problems we encounter or reasons outside our control or the control of our clients, we cannot predict with certainty when, if or to what extent orders forming part of our order book will be performed. Delays in delivering orders can lead to clients delaying or refusing to pay the amount, in part or full, that we expect to be paid in respect of such orders.

Any delay, reduction in scope, cancellation, execution difficulty, payment postponement or payment default in regard to our order book projects or any other incomplete orders, or disputes with clients in respect of any of the foregoing, could adversely affect our cash flow position, revenues and earnings.

26. *Our Company faces stiff competition in our business from organized and unorganized players, which may adversely affect our business operation and financial condition.*

Most of the end-users are price conscious. Pricing is one of the factors that play an important role in selection of our products. The market for our products is highly competitive on account of both the organized and unorganized players. Some of our competitors may have longer industry experience and greater financial, technical and other resources, which may enable them to react faster in changing market scenario and remain competitive. Growing competition may result in a decline in our market share and may affect our margins.

27. *Our industry is labour intensive and our business operations may be materially adversely affected by strikes, work stoppages or increased wage demands by our employees or those of our suppliers.*

Our industry being labour intensive is highly dependent on labour force for carrying out its manufacturing operations. Shortage of skilled/ unskilled personnel or work stoppages caused by disagreements with employees could have an adverse effect on our business and results of operations. We have not experienced any major disruptions in our business operations due to disputes or other problems with our work force in the past; however, there can be no assurance that we will not experience such disruptions in the future. Such disruptions may adversely affect our business and results of operations and may also divert the management's attention and result in increased costs.

India has stringent labour legislation that protects the interests of workers, including legislation that sets forth detailed procedures for the establishment of unions, dispute

resolution and employee removal and legislation that imposes certain financial obligations on employers upon retrenchment. We are also subject to laws and regulations governing relationships with employees, in such areas as minimum wage and maximum working hours, overtime, working conditions, hiring and terminating of employees and work permits. Although our employees are not currently unionized, there can be no assurance that they will not unionize in the future. If our employees unionize, it may become difficult for us to maintain flexible labour policies, and we may face the threat of labour unrest, work stoppages and diversion of our management's attention due to union intervention, which may have a material adverse impact on our business, results of operations and financial condition.

Further due to increased competition for skilled employees in India over the last few years, we may need to increase our levels of employee compensation rapidly to remain competitive in attracting the best possible talent which may result in increased costs and affect our profitability.

28. *If we are unable to source business opportunities effectively, we may not achieve our financial objectives.*

Our ability to achieve our financial objectives will depend on our ability to identify, evaluate and accomplish business opportunities. To grow our business, we will need to hire, train, supervise and manage new employees and to implement systems capable of effectively accommodating our growth. However, we cannot assure you that any such employees will contribute to the success of our business or that we will implement such systems effectively. Our failure to source business opportunities effectively could have a material adverse effect on our business, financial condition and results of operations. It is also possible that the strategies used by us in the future may be different from those presently in use. No assurance can be given that our analyses of market and other data or the strategies we use or plans in future to use will be successful under various market conditions.

29. *We may not be successful in implementing our business strategies.*

The success of our business depends substantially on our ability to implement our business strategies effectively. Even though we have successfully executed our business strategies in the past, there is no guarantee that we can implement the same on time and within the estimated budget going forward, or that we will be able to meet the expectations of our targeted clients. Changes in regulations applicable to us may also make it difficult to implement our business strategies. Failure to implement our business strategies would have a material adverse effect on our business and results of operations.

30. *Our Company's failure to maintain the quality standards of the products could adversely impact our business, results of operations and financial condition.*

Our products depend on customer's expectations and choice or demand of the customer and trends in the fashion industry. Any failure to maintain the quality standards of our products may affect our business. Although we have put in place strict quality control procedures, we cannot assure that our products will always be able to satisfy our customers' quality standards. Any negative publicity regarding our Company, or products, including those arising from any deterioration in quality of our products from our vendors, or any other unforeseen events could adversely affect our reputation, our operations and our results from operations.

31. *Our ability to pay dividends will depend upon future earnings, financial condition, cash flows, working capital requirements, capital expenditures and other factors.*

We may retain all our future earnings, if any, for use in the operations and expansion of our business. As a result, we may not declare dividends in the foreseeable future. Any future determination as to the declaration and payment of dividends will be at the discretion of our Board of Directors and will depend on factors that our Board of Directors deem relevant, including among others, our results of operations, financial condition, cash requirements, business prospects and any other financing arrangements. Additionally, under some of our loan agreements, we may not be permitted to declare any dividends, if there is a default under such loan agreements or unless our company has paid all the dues to the lender up to the date on which the dividend is declared or paid or has made satisfactory provisions thereof. Accordingly, realization of a gain on shareholders investments may largely depend upon the appreciation of the price of our Equity Shares. There can be no assurance that our Equity Shares will appreciate in value. For details of our dividend history, see “Dividend Policy” on page 217 of this Draft Prospectus.

32. *We could be harmed by employee misconduct or errors that are difficult to detect and any such incidences could adversely affect our financial condition, results of operations and reputation.*

Employee misconduct or errors could expose us to business risks or losses, including regulatory sanctions and serious harm to our reputation. There can be no assurance that we will be able to detect or deter such misconduct. Moreover, the precautions we take to prevent and detect such activity may not be effective in all cases. Our employees and agents may also commit errors that could subject us to claims and proceedings for alleged negligence, as well as regulatory actions on account of which our business, financial condition, results of operations and goodwill could be adversely affected.

33. *Our Promoters and members of the Promoter Group will continue jointly to retain majority control over our Company after the Issue, which will allow them to determine the outcome of matters submitted to shareholders for approval.*

After completion of the Issue, our Promoters and Promoter Group will collectively own 65.97% of the Equity Shares. As a result, our Promoters together with the members of the Promoter Group will be able to exercise a significant degree of influence over us and will be able to control the outcome of any proposal that can be approved by a majority shareholder vote, including, the election of members to our Board, in accordance with the Companies Act and our Articles of Association. Such a concentration of ownership may also have the effect of delaying, preventing or deterring a change in control of Our Company.

In addition, our Promoters will continue to have the ability to cause us to take actions that are not in, or may conflict with, our interests or the interests of some or all of our creditors or minority shareholders, and we cannot assure you that such actions will not have an adverse effect on our future financial performance or the price of our Equity Shares.

34. *Our Promoters have provided personal guarantees to certain loan facilities availed by us, which if revoked may require alternative guarantees, repayment of amounts due or termination of the facilities.*

Our Promoters have provided personal guarantees to the extent of Rs.54.51 crores as on March 31, 2018 in relation to certain loan facilities availed of by us. In the event that any of these guarantees are revoked, the lenders for such facilities may require alternate guarantees, repayment of amounts outstanding under such facilities, or may even terminate such facilities. We may not be successful in procuring alternative guarantees satisfactory to the lenders, and as a result may need to repay outstanding amounts under such facilities or seek additional sources of capital, which may not be available on acceptable terms or at all and any such failure to raise additional capital could affect our operations and our financial condition.

35. *Our Company is venturing into ring-spinning manufacturing facility.*

Our Company is well experienced and is involved for about half-decades in open-end cotton yarn spinning activity. Our Company is engaged in the manufacturing of open-end cotton yarns and is venturing into ring spinning. Our Promoters are well versed in the spinning activities of ring-spinning yarns but they may face challenges in running the venture successfully and such absence of expertise may affect our cash flows, revenue from operations and which may adversely affect our business, financial condition and results of operations. In order to mitigate the risk, we are equipped with high quality machineries, trained staff and quality control systems.

36. *We generate our major portion of sales from our operations in certain geographical regions especially in Gujarat, Rajasthan, Punjab and Maharashtra and any adverse developments affecting our operations in these regions could have an adverse impact on our revenue and results of operations.*

A major portion of our total sales are made in certain regions in the State of Gujarat, Rajasthan, Punjab and Maharashtra. Such geographical concentration of our business in these regions heightens our exposure to adverse developments related to competition, as well as economic and demographic changes in these regions which may adversely affect our business prospects, financial conditions and results of operations.

Factors such as competition, culture, regulatory regimes, business practices and customs, industry needs, transportation, in other markets where we may expand our operations may differ from those in which we are currently offering. In addition, as we enter new markets and geographical areas, we are likely to compete not only with national players, but also local players who might have an established local presence, are more familiar with local regulations, business practices and industry needs, have stronger relationships with local distributors, dealers, relevant government authorities, and are in a stronger financial position than us, all of which may give them a competitive advantage over us. Our inability to expand into areas outside Rajasthan, Gujarat, Punjab and Maharashtra market may adversely affect our business prospects, financial conditions and results of operations.

37. *We may be unable to attract and retain employees with the requisite skills, expertise and experience, which would adversely affect our operations, business growth and financial results*

We rely on the skills, expertise and experience of our employees to provide quality services to our customers. Our employees may terminate their employment with us prematurely and we may not be able to retain them. Experienced and skilled workers in the textile industry are highly sought after, and competition for talent is intense. If we experience any failure to attract and retain competent personnel's or any material increase in labour costs as a result of the shortage of skilled labour, our competitiveness and business would be damaged, thereby adversely affecting our financial condition and operating results. Further, if we fail to identify suitable replacements of our departed staff, our business and operation could be adversely affected and our future growth and expansions may be inhibited.

38. *Our top 10 customers contribute 55.64% of our revenues for the period ended March 31, 2018. Any loss of business from one or more of them may adversely affect our revenues and profitability.*

Our top 10 customers contribute majority of our revenues for the period ended March 31, 2018. Further these customers are generally manufacturer who consume our products as raw materials for manufacture for their end products. However, the composition and revenue generated from these clients might change as we continue to add new customers in normal course of business. Any decline in our quality standards, growing competition and any change in the demand for our services by these customers may adversely affect our ability to retain them. We believe that we have maintained good and long-term relationships with our customers. However, there can be no assurance that we will continue to have such

long-term relationship with them also any delay or default in payment by these customers may adversely affect our business, financial condition and results of operations. We cannot assure that we shall generate the same quantum of business, or any business at all, from these customers, and loss of business from one or more of them may adversely affect our revenues and profitability.

39. *Our lenders have charge over our movable and immovable properties in respect of the finance availed by us.*

We have secured our lenders by creating a charge over our movable and immovable properties in respect of loans / facilities availed by us from banks and financial institutions. The total amounts outstanding and payable by us as secured loans were Rs. 4870.75 Lakhs as on March 31, 2018 as per our restated financial statements. Further our company has secured additional loan facilities of Rs.9400 Lakhs for setting up additional manufacturing facilities. In the event we default in repayment of the loans/ facilities availed by us and any interest thereof, our properties may be forfeited by lenders, which in turn could have significant adverse effect on business, financial condition or results of operations. For further information on the “*Financial Indebtedness*” please refer to page no. 263 of this Draft Prospectus.

40. *Our success depends largely upon the services of our Promoter Directors and other Key Managerial Personnel and our ability to attract and retain them. Demand for Key Managerial Personnel in the industry is intense and our inability to attract and retain Key Managerial Personnel may affect the operations of our Company*

Our Directors and key managerial personnel have built relations with clients and other persons who are connected with our business. Our success is substantially dependent on the expertise and services of our Directors and our Key Managerial Personnel. They provide expertise which enables us to make well informed decisions in relation to our business and our future prospects. Our future performance will depend upon the continued services of these persons. We cannot assure you that we will be able to retain any or all, or that our succession planning will help to replace, the key members of our management. The loss of the services of such key members of our management team and the failure of any succession plans to replace such key members could have an adverse effect on our business and the results of our operations.

41. *We have entered into certain related party transactions and may continue to do so.*

We have entered into related party transactions with our Promoters and Directors. While we believe that all such transactions have been conducted on the arm’s length basis, however it is difficult to ascertain whether more favourable terms would have been achieved had such transactions been entered with unrelated parties. Furthermore, it is likely that we will enter into related party transactions in the future. For details of these transactions, please refer to section titled “*Related Party Transactions*” at page 216 of this Draft Prospectus.

42. *Our company has no insurance policies to cover all risks, specifically risks like product defect, losses due to terrorism. In the event of the occurrence of such events, our company may be subject to possible risk of loss.*

Our Company has obtained insurance coverage in respect of fire and other general risks however risks in respect of loss of profit due to product defect, losses due to terrorism etc. are not covered. If we suffer a significant uninsured loss against such risks, our business, financial condition and results of operations may be materially and adversely affected.

43. *Our future funds requirements, in the form of fresh issue of capital or securities and/ or loans taken by us, may be prejudicial to the interest of the shareholders depending upon the terms on which they are eventually raised.*

We may require additional capital from time to time depending on our business needs. Any fresh issue of shares or convertible securities would dilute the shareholding of the existing shareholders and such issuance may be done on terms and conditions, which may not be favourable to the then existing shareholders. If such funds are raised in the form of loans or debt, then it may substantially increase our interest burden and decrease our cash flows, thus prejudicially affecting our profitability and ability to pay dividends to our shareholders.

44. *There is no requirement to appoint monitoring agency by Our Company and the deployment of funds are at the discretion of our Management and our Board of Directors, though it shall be monitored by the Audit Committee.*

As per SEBI (ICDR) Regulations, 2009 appointment of monitoring agency is required only for Issue size above Rs. 10,000 Lakhs. Hence, we have not appointed a monitoring agency to monitor the utilization of Issue proceeds. However, the audit committee of our Board will monitor the utilization of Issue proceeds. Further, our Company shall inform about material deviations in the utilization of Issue proceeds to the National Stock Exchange of India Limited and shall also simultaneously make the material deviations / adverse comments of the audit committee public.

45. *We may not be able to maintain similar level of pricing with our customer which may significantly impact our financials and future growth ability*

We may not be able to keep the price at similar level impacting our customer acquisition, financials and future growth materially. It is important in our business to be very cost competitive to attract customer and our inability to cope with increasing competition from global as well as local players may impact our ability to pass similar level of pricing. Also, pricing may be an important business strategy and we may reduce more than the fall in input cost impacting our business profitability.

46. *In addition to normal remuneration or benefits and reimbursement of expenses, some of our Directors and key managerial personnel are interested in our Company to the extent of their shareholding and dividend entitlement, if any loan availed by our Company, as Creditors of the Company.*

Our Directors and Key Managerial Personnel (“KMPs”) are interested in our Company to the extent of remuneration paid to them for services rendered and reimbursement of expenses payable to them. In addition, some of our Directors and key managerial personnel may also be interested to the extent of their shareholding and dividend entitlement, if any, loan availed from them by our Company and Credit balance due to them if any as Creditors of the Company etc. For further information, see “*Capital Structure*”, “*Our Management*” and “*Related Party Transactions*” on pages 84, 189 and 216, respectively, of this Draft Prospectus.

47. *Negative publicity could adversely affect our revenue model and profitability.*

Our business is dependent on the trust our customers have reposed in the quality of our products and services. Any negative publicity regarding our Company, brand, or our products due to any other unforeseen events could affect our reputation and our results from operations. Further, our business may also be affected if there is any negative publicity associated with the products and services which are being rendered by our Company which may indirectly result in erosion of our reputation and goodwill.

48. *The requirements of being a public listed company may strain our resources and impose additional requirements.*

With the increased scrutiny of the affairs of a public listed company by shareholders, regulators and the public at large, we will incur significant legal, accounting, corporate governance and other expenses that we did not incur in the past. We will also be subject to the provisions of the listing agreements signed with the Stock Exchanges which require us to file unaudited financial results on a half yearly basis. In order to meet our financial control and disclosure obligations, significant resources and management supervision will be required. As a result, management's attention may be diverted from other business concerns, which could have an adverse effect on our business and operations. There can be no assurance that we will be able to satisfy our reporting obligations and/or readily determine and report any changes to our results of operations in a timely manner as other listed company. In addition, we will need to increase the strength of our management team and hire additional legal and accounting staff with appropriate public company experience and accounting knowledge and we cannot assure that we will be able to do so in a timely manner.

49. *The average cost of acquisition of Equity Shares by our Promoters is lower than the issue price.*

Our Promoters' average cost of acquisition of Equity Shares in our Company is lower than the offer Price as decided by the Company in consultation with the Lead Managers. For further details regarding average cost of acquisition of Equity Shares by our Promoters in our Company and build-up of Equity Shares by our Promoters in our Company, please refer chapter title "Capital Structure" beginning on page 84 of this Draft Prospectus

B. Risk relating to the Issue

50. *There are restrictions on daily/ weekly/ monthly movements in the price of the Equity Shares, which may adversely affect a shareholder's ability to sell, or the price at which it can sell, Equity Shares at a particular point in time.*

Once listed, we would be subject to circuit breakers imposed by all stock exchanges in India, which does not allow transactions beyond specified increases or decreases in the price of the Equity Shares. This circuit breaker operates independently of the index-based market-wide circuit breakers generally imposed by SEBI on Indian stock exchanges. The percentage limit on circuit breakers is set by the stock exchanges based on the historical volatility in the price and trading volume of the Equity Shares. The stock exchanges do not inform us of the percentage limit of the circuit breaker in effect from time to time and may change it without our knowledge. This circuit breaker limits the upward and downward movements in the price of the Equity Shares. As a result of this circuit breaker, no assurance may be given regarding your ability to sell your Equity Shares or the price at which you may be able to sell your Equity Shares at any particular time.

51. *After this Issue, the price of the Equity Shares may be highly volatile, or an active trading market for the Equity Shares may not develop.*

The price of the Equity Shares on the Stock Exchanges may fluctuate as a result of the factors, including:

- Volatility in the Indian and global capital market;
- Company's results of operations and financial performance;
- Performance of Company's competitors;
- Adverse media reports on Company or pertaining to the cloud computing Industry;
- Changes in our estimates of performance or recommendations by financial analysts;

- Significant developments in India's economic and fiscal policies; and
- Significant developments in India's environmental regulations.

Current valuations may not be sustainable in the future and may also not be reflective of future valuations for our industry and our Company. There has been no public market for the Equity Shares and the prices of the Equity Shares may fluctuate after this Issue. There can be no assurance that an active trading market for the Equity Shares will develop or be sustained after this Issue or that the price at which the Equity Shares are initially traded will correspond to the price at which the Equity Shares will trade in the market subsequent to this Issue.

52. The Issue price of our Equity Shares may not be indicative of the market price of our Equity Shares after the Issue and the market price of our Equity Shares may decline below the issue price and you may not be able to sell your Equity Shares at or above the Issue Price.

The Issue Price of our Equity Shares has been determined by Fixed Price Method. This price is based on numerous factors (For further information, please refer chapter titled "Basis for Issue Price" beginning on page 133 of this Draft Prospectus and may not be indicative of the market price of our Equity Shares after the Issue. The market price of our Equity Shares could be subject to significant fluctuations after the Issue and may decline below the Issue Price. We cannot assure you that you will be able to sell your Equity Shares at or above the Issue Price. Among the factors that could affect our share price include without limitation. The following:

- Half yearly variations in the rate of growth of our financial indicators, such as earnings per share, net income and revenues;
- Changes in revenue or earnings estimates or publication of research reports by analysts;
- Speculation in the press or investment community;
- General market conditions; and
- Domestic and international economic, legal and regulatory factors unrelated to our performance.

53. You will not be able to sell immediately on Stock Exchange any of the Equity Shares you purchase in the offer until the Issue receives appropriate trading permissions.

The Equity Shares will be listed on the Stock Exchange. Pursuant to Indian regulations, certain actions must be completed before the Equity Shares can be listed and trading may commence. We cannot assure you that the Equity Shares will be credited to investor's demat accounts, or that trading in the Equity Shares will commence, within the time periods specified in the Draft Prospectus. Any failure or delay in obtaining the approval would restrict your ability to dispose of the Equity Shares. In accordance with section 40 of the Companies Act, 2013, in the event that the permission of listing the Equity Shares is denied by the stock exchanges, we are required to refund all monies collected to investors.

54. Sale of Equity Shares by our Promoter or other significant shareholder(s) may adversely affect the trading price of the Equity Shares.

Any instance of disinvestments of equity shares by our Promoter or by other significant shareholder(s) may significantly affect the trading price of our Equity Shares. Further, our market price may also be adversely affected even if there is a perception or belief that such sales of Equity Shares might occur.

EXTERNAL RISK FACTORS

Industry Related Risks

55. Changes in government regulations or their implementation could disrupt our operations and adversely affect our business and results of operations.

Our business and industry are regulated by different laws, rules and regulations framed by the Central and State Government. These regulations can be amended/ changed on a short notice at the discretion of the Government. If we fail to comply with all applicable regulations or if the regulations governing our business or their implementation change adversely, we may incur increased costs or be subject to penalties, which could disrupt our operations and adversely affect our business and results of operations.

Other Risks

56. The Companies Act, 2013 has effected significant changes to the existing Indian company law framework, which may subject us to higher compliance requirements and increase our compliance costs.

A majority of the provisions and rules under the Companies Act, 2013 have recently been notified and have come into effect from the date of their respective notification, resulting in the corresponding provisions of the Companies Act, 1956 ceasing to have effect. The Companies Act, 2013 has brought into effect significant changes to the Indian company law framework, such as in the provisions related to issue of capital, disclosures in draft prospectus, corporate governance norms, audit matters, related party transactions, introduction of a provision allowing the initiation of class action suits in India against companies by shareholders or depositors, a restriction on investment by an Indian company through more than two layers of subsidiary investment companies (subject to certain permitted exceptions), prohibitions on loans to directors and insider trading and restrictions on directors and key managerial personnel from engaging in forward dealing. To ensure compliance with the requirements of the Companies Act, 2013, we may need to allocate additional resources, which may increase our regulatory compliance costs and divert management attention.

The Companies Act, 2013 introduced certain additional requirements which do not have corresponding equivalents under the Companies Act, 1956. Accordingly, we may face challenges in interpreting and complying with such provisions due to limited jurisprudence on them. In the event, our interpretation of such provisions of the Companies Act, 2013 differs from, or contradicts with, any judicial pronouncements or clarifications issued by the Government in the future, we may face regulatory actions or we may be required to undertake remedial steps. We may face difficulties in complying with any such overlapping requirements. Further, we cannot currently determine the impact of provisions of the Companies Act, 2013 which are yet to come in force. Any increase in our compliance requirements or in our compliance costs may have an adverse effect on our business and results of operations.

57. You may be subject to Indian taxes arising out of capital gains on the sale of the Equity Shares.

Under current Indian tax laws and regulations, capital gains arising from the sale of equity shares in an Indian company are generally taxable in India. Any gain realized on the sale of shares on a stock exchange held for more than 12 months will not be subject to capital gains tax in India if the securities transaction tax ("STT") has been paid on the transaction. The STT will be levied on and collected by an Indian stock exchange on which equity shares are sold. Further, any gain realized on the sale of listed equity shares held for a period of 12 months or less will be subject to short term capital gains tax in India, if securities transaction tax has been paid on the transaction. Any gain realized on the sale of

shares held for more than 36 months to an Indian resident, which are sold other than on a recognized stock exchange and as a result of which no STT has been paid, will be subject to long term capital gains tax in India. Further, any gain realized on the sale of equity shares held for a period of 36 months or less which are sold other than on a recognized stock exchange and on which no STT has been paid, may be subject to short term capital gains tax at a relatively higher rate as compared to the transaction where STT has been paid in India.

58. *Significant differences exist between Indian GAAP and other accounting principles, such as U.S. GAAP and IFRS, which may be material to the financial statements prepared and presented in accordance with SEBI ICDR Regulations contained in this Draft Prospectus*

As stated in the reports of the Auditor included in this Draft Prospectus under chapter “*Financial Statements as restated*” beginning on page 213, the financial statements included in this Draft Prospectus are based on financial information that is based on the audited financial statements that are prepared and presented in conformity with Indian GAAP and restated in accordance with the SEBI ICDR Regulations, and no attempt has been made to reconcile any of the information given in this Draft Prospectus to any other principles or to base it on any other standards. Indian GAAP differs from accounting principles and auditing standards with which prospective investors may be familiar in other countries, such as U.S. GAAP and IFRS. Significant differences exist between Indian GAAP and U.S. GAAP and IFRS, which may be material to the financial information prepared and presented in accordance with Indian GAAP contained in this Draft Prospectus. Accordingly, the degree to which the financial information included in this Draft Prospectus will provide meaningful information is dependent on familiarity with Indian GAAP, the Companies Act and the SEBI ICDR Regulations. Any reliance by persons not familiar with Indian GAAP on the financial disclosures presented in this Draft Prospectus should accordingly be limited.

59. *Taxes and other levies imposed by the Government of India or other State Governments, as well as other financial policies and regulations, may have a material adverse effect on our business, financial condition and results of operations.*

Taxes and other levies imposed by the Central or State Governments in India that affect our industry include:

- Custom duties on imports of computers, servers and other accessories.
- Goods and Service Tax (GST) on certain raw materials and components; and
- Other new or special taxes and surcharges introduced on a permanent or temporary basis from time to time.

These taxes and levies affect the cost and prices of our products and therefore demand for our product. An increase in any of these taxes or levies, or the imposition of new taxes or levies in the future, may have a material adverse effect on our business, profitability and financial condition.

60. *Political instability or a change in economic liberalization and deregulation policies could seriously harm business and economic conditions in India generally and our business in particular.*

The Government of India has traditionally exercised and continues to exercise influence over many aspects of the economy. Our business and the market price and liquidity of our Equity Shares may be affected by interest rates, changes in Government policy, taxation, social and civil unrest and other political, economic or other developments in or affecting India. The rate of economic liberalization could change, and specific laws and policies

affecting the information technology sector, foreign investment and other matters affecting investment in our securities could change as well. Any significant change in such liberalization and de-regulation policies could adversely affect business and economic conditions in India, generally, and our business, prospects, financial condition and results of operations, in particular.

61. *We cannot guarantee the accuracy or completeness of facts and other statistics with respect to India, the Indian economy and industry in which our company operates contained in the Draft Prospectus.*

While facts and other statistics in this Draft Prospectus relating to India, the Indian economy and the industry in which our company operates has been based on various government publications and reports from government agencies that we believe are reliable, we cannot guarantee the quality or reliability of such materials. While we have taken reasonable care in the reproduction of such information, industry facts and other statistics have not been prepared or independently verified by us or any of our respective affiliates or advisors and, therefore we make no representation as to their accuracy or completeness. These facts and other statistics include the facts and statistics included in the chapter titled ‘Our Industry’ beginning on page 126 of the Draft Prospectus. Due to possibly flawed or ineffective data collection methods or discrepancies between published information and market practice and other problems, the statistics herein may be inaccurate or may not be comparable to statistics produced elsewhere and should not be unduly relied upon. Further, there is no assurance that they are stated or compiled on the same basis or with the same degree of accuracy, as the case may be, elsewhere.

62. *Changing laws, rules and regulations and legal uncertainties, including adverse application of tax laws, may adversely affect our business and financial performance.*

Our business and financial performance could be adversely affected by unfavourable changes in or interpretations of existing, or the promulgation of new laws, rules and regulations applicable to us and our business. Please refer to “Key Industry Regulations and Policies” on page 140 for details of the laws currently applicable to us. There can be no assurance that the Government of India may not implement new regulations and policies which will require us to obtain approvals and licenses from the Government of India and other regulatory bodies or impose onerous requirements and conditions on our operations. Any such changes and the related uncertainties with respect to the applicability, interpretation and implementation of any amendment to, or change to governing laws, regulation or policy in the jurisdictions in which we operate may have a material adverse effect on our business, financial condition and results of operations. In addition, we may have to incur expenditures to comply with the requirements of any new regulations, which may also materially harm our results of operations. Any unfavourable changes to the laws and regulations applicable to us could also subject us to additional liabilities.

GST has been implemented with effect from July 1, 2017 and has replaced the indirect taxes on goods and services such as central excise duty, service tax, central sales tax, state VAT and surcharge

Currently being collected by the central and state governments. The GST is expected to increase tax incidence and administrative compliance. Given the limited availability of information in the public domain concerning the GST, we are unable to provide any assurance as to the tax regime following implementation of the GST. The implementation of this new structure may be affected by any disagreement between certain state Governments, which could create uncertainty. Any future amendments may affect our overall tax efficiency and may result in significant additional taxes becoming payable.

Further, the general anti avoidance rules (“GAAR”) provisions have been made effective from assessment year 2018-19 onwards, i.e.; financial Year 2017-18 onwards and the same may get triggered once transactions are undertaken to avoid tax. The consequences of the GAAR provisions being applied to an arrangement could result in denial of tax benefit amongst other consequences. In the absence of any precedents on the subject, the application of these provisions is uncertain.

The application of various Indian tax laws, rules and regulations to our business, currently or in the future, is subject to interpretation by the applicable taxation authorities. If such tax laws, rules and regulations are amended, new adverse laws, rules or regulations are adopted or current laws are interpreted adversely to our interests, the results could increase our tax payments (prospectively or retrospectively) and/or subject us to penalties. Further, changes in capital gains tax or tax on capital market transactions or sale of shares could affect investor returns. As a result, any such changes or interpretations could have an adverse effect on our business and financial performance.

63. *Financial instability in Indian financial markets could adversely affect Our Company’s results of operations and financial condition.*

In this globalized world, the Indian economy and financial markets are significantly influenced by worldwide economic, financial and market conditions. Any financial turmoil, say in the United States of America, Europe, China or other emerging economies, may have a negative impact on the Indian economy. Although economic conditions differ in each country, investors’ reactions to any significant developments in one country can have adverse effects on the financial and market conditions in other countries. A loss in investor confidence in the financial systems, particularly in other emerging markets, may cause increased volatility in Indian financial markets. Indian financial markets have also experienced the contagion effect of the global financial turmoil. Any prolonged financial crisis may have an adverse impact on the Indian economy, thereby resulting in a material and adverse effect on our Company's business, operations, financial condition, profitability and price of its Shares. Stock exchanges in India have in the past experienced substantial fluctuations in the prices of listed securities.

64. *Conditions in the Indian securities market may affect the price or liquidity of our Equity Shares.*

The Indian securities markets are smaller than securities markets in more developed economies and the regulation and monitoring of Indian securities markets and the activities of investors, brokers and other participants differ, in some cases significantly, from those in the more developed economies. Indian stock exchanges have in the past experienced substantial fluctuations in the prices of listed securities. Further, the Indian stock exchanges have experienced volatility in the recent times. The Indian stock exchanges have also experienced problems that have affected the market price and liquidity of the securities of Indian companies, such as temporary exchange closures, broker defaults, settlement delays and strikes by brokers. In addition, the governing bodies of the Indian stock exchanges have from time to time restricted securities from trading and limited price movements. A closure of, or trading stoppage on the SME Platform of NSE could adversely affect the trading price of the Equity Shares.

65. *Global economic, political and social conditions may harm our ability to do business, increase our costs and negatively affect our stock price.*

Global economic and political factors that are beyond our control, influence forecasts and directly affect performance. These factors include interest rates, rates of economic growth, fiscal and monetary policies of governments, inflation, deflation, foreign exchange fluctuations, consumer credit availability, fluctuations in commodities markets, consumer debt levels, unemployment trends and other matters that influence consumer confidence,

spending and tourism. Increasing volatility in financial markets may cause these factors to change with a greater degree of frequency and magnitude, which may negatively affect our stock prices.

66. Foreign investors are subject to foreign investment restrictions under Indian law that limits our ability to attract foreign investors, which may adversely impact the market price of the Equity Shares.

Under the foreign exchange regulations currently in force in India, transfers of shares between non-residents and residents are freely permitted (subject to certain exceptions) if they comply with the pricing guidelines and reporting requirements specified by the RBI. If the transfer of shares, which are sought to be transferred, is not in compliance with such pricing guidelines or reporting requirements or fall under any of the exceptions referred to above, then the prior approval of the RBI will be required. Additionally, shareholders who seek to convert the Rupee proceeds from a sale of shares in India into foreign currency and repatriate that foreign currency from India will require a no objection/ tax clearance certificate from the income tax authority. There can be no assurance that any approval required from the RBI or any other government agency can be obtained on any particular terms or at all.

67. The extent and reliability of Indian infrastructure could adversely affect our Company's results of operations and financial condition.

India's physical infrastructure is in developing phase compared to that of many developed nations. Any congestion or disruption in its port, rail and road networks, electricity grid, communication systems or any other public facility could disrupt our Company's normal business activity. Any deterioration of India's physical infrastructure would harm the national economy; disrupt the transportation of goods and supplies, and costs to doing business in India. These problems could interrupt our Company's business operations, which could have an adverse effect on its results of operations and financial condition.

68. Any downgrading of India's sovereign rating by an independent agency may harm our ability to raise financing.

Any adverse revisions to India's credit ratings for domestic and international debt by international rating agencies may adversely impact our ability to raise additional financing, and the interest rates and other commercial terms at which such additional financing may be available. This could have an adverse effect on our business and future financial performance, our ability to obtain financing for capital expenditures and the trading price of our Equity Shares.

69. Natural calamities could have a negative impact on the Indian economy and cause Our Company's business to suffer.

India has experienced natural calamities such as earthquakes, tsunami, floods etc. In recent years, the extent and severity of these natural disasters determine their impact on the Indian economy. Prolonged spells of abnormal rainfall or other natural calamities could have a negative impact on the Indian economy, which could adversely affect our business, prospects, financial condition and results of operations as well as the price of the Equity Shares.

70. Terrorist attacks, civil unrests and other acts of violence or war involving India or other countries could adversely affect the financial markets, our business, financial condition and the price of our Equity Shares.

Any major hostilities involving India or other acts of violence, including civil unrest or similar events that are beyond our control, could have a material adverse effect on India's economy and our business. Incidents such as the terrorist attacks, other incidents such as those in US, Indonesia, Madrid and London, and other acts of violence may adversely

affect the Indian stock markets where our Equity Shares will trade as well the global equity markets generally. Such acts could negatively impact business sentiment as well as trade between countries, which could adversely affect our Company's business and profitability. Additionally, such events could have a material adverse effect on the market for securities of Indian companies, including the Equity Shares.

SECTION III- INTRODUCTION

SUMMARY OF INDUSTRY

The information in this section includes extracts from publicly available information, data and statistics and has been derived from various government publications and industry sources. Neither we nor any other person connected with the Issue have verified this information. The data may have been re-classified by us for the purposes of presentation. Industry sources and publications generally state that the information contained therein has been obtained from sources generally believed to be reliable, but that their accuracy, completeness and underlying assumptions are not guaranteed and their reliability cannot be assured and, accordingly, investment decisions should not be based on such information.

You should read the entire Draft Prospectus, including the information contained in the sections titled “Risk Factors” and “Financial Statements” and related notes beginning on page 20 and 218 respectively of this Draft Prospectus before deciding to invest in our Equity Shares.

TEXTILE BUSINESS – INDUSTRY OVERVIEW

India's textiles sector is one of the oldest industries in Indian economy dating back several centuries. Even today, textiles sector is one of the largest contributors to India's exports with approximately 13% of total exports. The textiles industry is also labour intensive and is one of the largest employers.

The textile industry has two broad segments. First, the unorganized sector consists of handloom, handicrafts and sericulture, which are operated on a small scale and through traditional tools and methods. The second is the organized sector consisting of spinning, apparel and garments segment which apply modern machinery and techniques such as economies of scale.

The textile and apparel industry can be broadly divided into two segments - yarn and fibre, and processed fabrics and apparel. India accounts for 14% of the world's production of textile fibres and yarns (largest producer of jute, second largest producer of silk and cotton, and third largest in cellulosic fibre). India has the highest loom capacity (including hand looms) with 63% of the world's market share.

Increased penetration of organised retail, favourable demographics, and rising income levels are likely to drive demand for textiles. India is the world's second largest exporter of textiles and clothing.

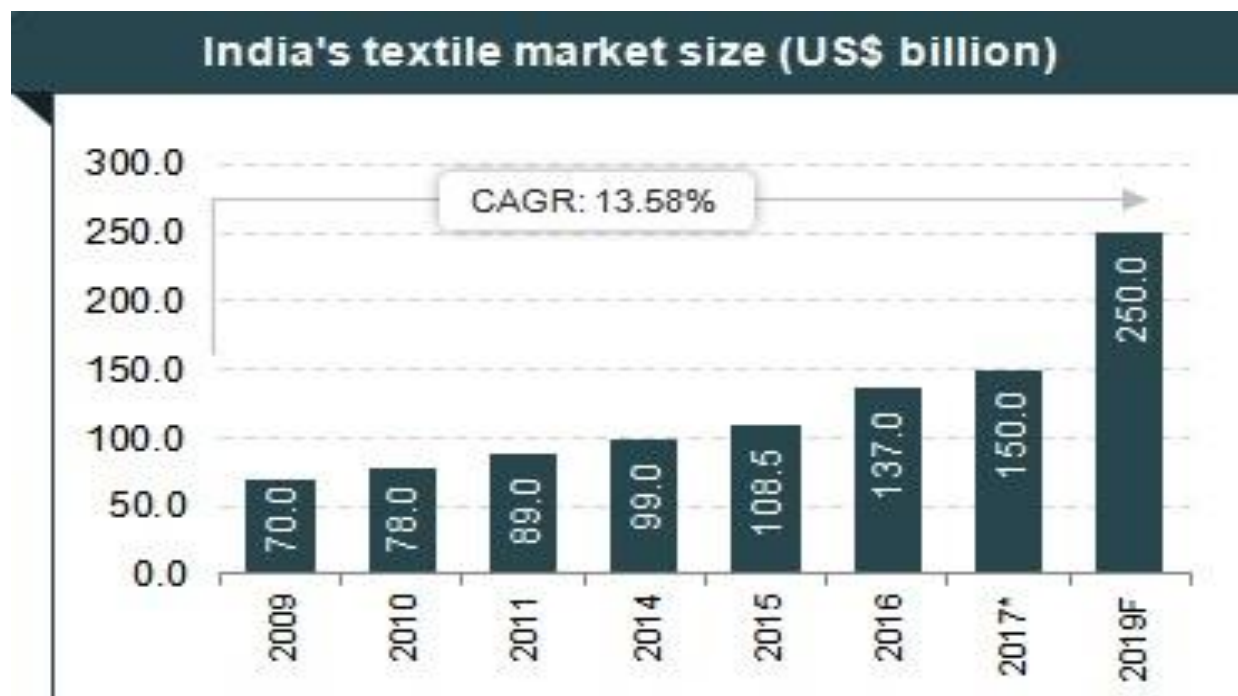

Market Size

The Indian textiles industry, currently estimated at around USD 120 billion, is expected to reach USD 230 billion by 2020. The Indian Textile Industry contributes approximately 2 per cent to India's Gross Domestic Product (GDP), 10% of manufacturing production and 14% to overall Index of Industrial Production (IIP).

Indian khadi products sales increased by 33% year-on-year to Rs 2,005 crore (USD 311.31 million) in 2016-17 and is expected to exceed Rs 5,000 crore (USD 776.33 million) sales target for 2018-19, as per the Khadi and Village Industries Commission (KVIC).

The production of cotton in India is estimated to increase by 9.3% year-on-year to reach 37.7 million bales in FY 2017-18. The total area under cultivation of cotton in India is expected to increase by 7% to 11.3 million hectares in 2017-18, on account of expectations of better returns from rising prices and improved crop yields during the year 2016-17.

Indian exports of locally made retail and lifestyle products grew at a compound annual growth rate (CAGR) of 10% from 2013 to 2016, mainly led by bedding bath and home decor products and textiles.

YARN INDUSTRY-OVERVIEW

a) Raw Material

Cotton accounts for almost 50% of the worldwide consumption of textile fibre. China, the United States, the Russian Federation, India and Japan are the major cotton-consuming countries. Consumption is measured by the amount of raw cotton fibre purchased and used to manufacture textile materials. Worldwide cotton production is annually about 80 to 90 million bales (17.4 to 19.6 billion` kg). China, the United States, India, Pakistan and Uzbekistan are the major cotton-producing countries, accounting for over 70% of world cotton production. The rest is produced by about 75 other countries. Raw cotton is exported from about 57 countries and cotton textiles from about 65 countries. Many countries emphasize domestic production to reduce their reliance on imports.

Global Cotton prices to soften in CS 2017-18

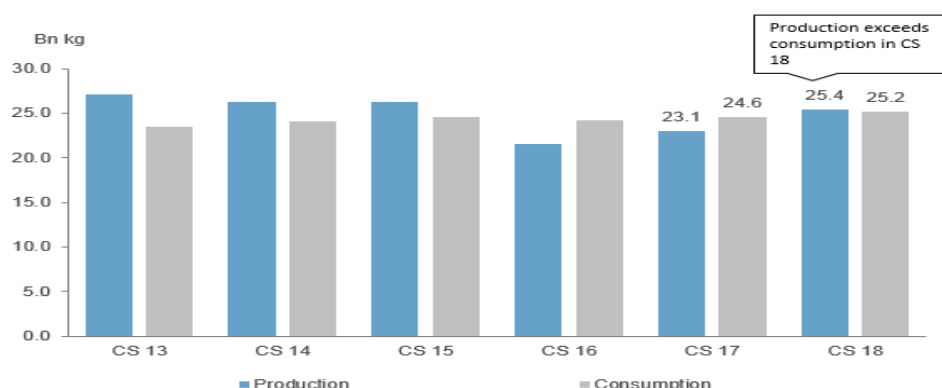

CRISIL Research expects international cotton prices to decline in cotton season (CS) 2017-18, after rising in CS 2016-17. Production is expected to exceed consumption after 2 years of trailing overall demand. Better cotton prices in the previous cotton season compared to other competing crops has resulted in increase in the worldwide cotton acreage. Also, China's policy of continuing with import quotas on cotton, along with steady off-loading of inventory, will continue to act as a dampener on prices (Chinese cotton policy started in CS 14-15 and prior to that China used to account for 30-40% of world imports).

Global Cotton production to Rise

Global cotton production is expected to rise ~10% on-year to 25.4 million tonnes in CS 2017-18.

- Production in India is expected to increase, as estimates indicate ~19% rise in sowing area (~122 lakh hectares). However, we expect yield to decline by ~4% to 534 kg/hectare due to erratic monsoon rains and pressure from pests. Hence, we expect overall production to grow ~14% to ~6.5 million tonnes.
- Among the major cotton-producing nations, the US is expected to account for the highest growth production, up ~23% to 4.6 million tonnes.
- Also, high prices in CS 2016-17 are expected to lead to rise in production in other cotton-producing countries/regions such as Pakistan (by 17% to 2.0 million tonnes), China (by 7% to 5.3 million tonnes) and Brazil (by ~3% to 1.6 million tonnes).

Trends in world cotton production and consumption

Overall, global consumption is also expected to increase 2-3% to ~25 million tonnes, owing to much stronger growth in the global economy in 2017 and 2018. Higher mill use is anticipated in China, India and Pakistan. Bangladesh, and Vietnam, are also expected to see moderate growth, which will fuel consumption.

Note: The years represent international cotton season (August-July).

In 2016, ~2.7 million tonnes of cotton were sold in China's state reserve sales. The government's cotton reserve sale in 2017 began on March 6 and was initially scheduled to be suspended temporarily at the end of August. However, the government had extended sales to continue until the end of September 2017 in order to further reduce reserve stocks. With the current offloading continuing in the next cotton season, we believe ending stocks in China could reach ~8.9 million tonnes. However, ending stocks (at ~13 months of consumption) would still

be higher than 4-5 months of consumption, which was the case before China's state support purchase programme started, and led to huge inventory build-up. Hence, with increase in global production and offloading of Chinese cotton, we expect international cotton prices to correct, after the sharp rise witnessed in CS 2016-17.

b) Process

Yarn manufacturing is a sequence of processes that convert raw cotton fibres into yarn suitable for use in various end-products. A number of processes are required to obtain the clean, strong, uniform yarns required in modern textile markets. Beginning with a dense package of tangled fibres (cotton bale) containing varying amounts of non-lint materials and unusable fibre (foreign matter, plant trash, motes and so on), continuous operations of opening, blending, mixing, cleaning, carding, drawing, roving and spinning are performed to transform the cotton fibres into yarn.

Yarn manufacturing produces yarns for various woven or knitted end-products (e.g., apparel or industrial fabrics) and for sewing thread and cordage. Yarns are produced with different diameters and different weights per unit length. While the basic yarn manufacturing process has remained unchanged for a number of years, processing speeds, control technology and package sizes have increased. Yarn properties and processing efficiency are related to the properties of the cotton fibre.

c) Methods-Spinning

Spinning is the twisting together of drawn-out strands of fibres to form yarn and is a major part of the textile industry. The yarn is then used to create textiles, which are then used to make clothing and many other products. There are several industrial processes available to spin yarn, as well as hand-spinning techniques where the fibre is drawn out, twisted, and wound onto a bobbin.

Ring spinning is one of the most common spinning methods in the world. Other systems include air-jet and open-end spinning, a technique where the staple fibre is blown by air into a rotor and attaches to the tail of formed yarn that is continually being drawn out of the chamber. Other methods of break spinning use needles and electrostatic forces.

(Source: [https://en.wikipedia.org/wiki/Spinning_\(textiles\)](https://en.wikipedia.org/wiki/Spinning_(textiles)))

Ring Spinning machine

Open end spinning- (Rotor Spinning)

The processes to make yarn short-staple yarn (typically spun from fibres from 0.75 to 2.0") are blending, opening, carding, pin-drafting, roving, spinning, and—if desired—plying and dyeing. In long staple spinning, the process may start with stretch-break of tow, a continuous "rope" of synthetic fibre. In open-end and air-jet spinning, the roving operation is eliminated. The spinning frame winds yarn around a bobbin. Generally, after this step the yarn is wound to a cone for knitting or weaving.

In a spinning mule, the roving is pulled off bobbins and sequentially fed through rollers operating at several different speeds, thinning the roving at a consistent rate. The yarn is twisted through

the spinning of the bobbin as the carriage moves out and is rolled onto a cop as the carriage returns. Mule spinning produces a finer thread than ring spinning. Spinning by the mule machine is an intermittent process as the frame advances and returns. It is the descendant of a device invented in 1779 by Samuel Crompton, and produces a softer, less twisted thread that is favoured for fines and for weft.

The ring was a descendant of the Arkwright water frame of 1769 and creates yarn in a continuous process. The yarn is coarser, has a greater twist, and is stronger, making it more suitable for warp. Ring spinning is slow due to the distance the thread must pass around the ring. Similar methods have improved on this including flyer and bobbin and cap spinning.

The pre-industrial techniques of hand spinning with spindle or spinning wheel continue to be practiced as a handicraft or hobby, and enable wool or unusual vegetable and animal staples to be used.

Spinning is the single most costly step in converting cotton fibers to yarn. Currently, over 85% of the world's yarn is produced on ring-spinning frames, which are designed to draft the roving into the desired yarn size, or count, and to impart the desired amount of twist. The amount of twist is proportional to the strength of the yarn. The ratio of the length to the length fed can vary on the order of 10 to 50. Bobbins of roving are placed onto holders that allow the roving to feed freely into the drafting roller of the ring-spinning frame. Following the drafting zone, the yarn passes through a "traveler" onto a spinning bobbin. The spindle holding this bobbin rotates at high speed, causing the yarn to balloon as twist is imparted. The lengths of yarn on the bobbins are too short for use in subsequent processes and are doffed into "spinning boxes" and delivered to the next process, which may be spooling or winding.

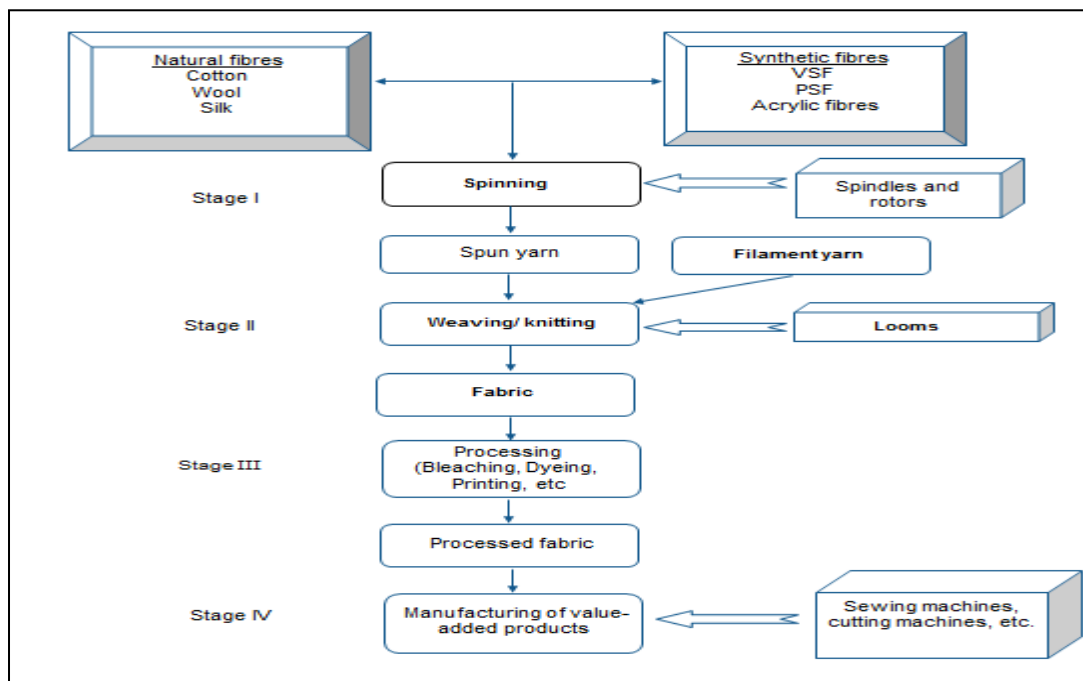

In the modern production of heavier or coarse yarns, open-end spinning is replacing ring spinning. A sliver of fibers is fed into a high-speed rotor. Here the centrifugal force converts the fibers into yarns. There is no need for the bobbin, and the yarn is taken up on the package required by the next step in the process.

Considerable research and development efforts are being devoted to radical new methods of yarn production. A number of new spinning systems currently under development may revolutionize yarn manufacturing and could cause changes in the relative importance of fiber properties as they are now perceived. In general, four of the different approaches used in the new systems appear practical for use on cotton. Core-spun systems are currently in use to produce a variety of specialty yarns and sewing threads. Twistless yarns have been produced commercially on a limited basis by a system that bonds the fibers together with a polyvinyl alcohol or some other bonding agent. The twistless yarn system offers potentially high production rates and very uniform yarns. Knit and other apparel fabrics from twistless yarn have excellent appearance. In air-vortex spinning, currently under study by several machinery manufacturers, drawing sliver is presented to an opening roller, similar to rotor spinning. Air-vortex spinning is capable of very high production speeds, but prototype models are particularly sensitive to fiber length variations and foreign matter content such as trash particles.

INDIAN COTTON YARN INDUSTRY

Indian Scenario of Cotton Prices

Cotton is one of the most important cash crops and accounts for around 25% of the global fibre production. In the raw material consumption basket of the Indian Textile Industry, the proportion of cotton is around 59%. It plays a major role in sustaining the livelihood of an estimated 5.8 million cotton farmers and 40-50 million people engaged in related activities such as cotton processing & trade. The consumption of cotton is more than 300 lakh bales (170 kg each) per year.

Yarn demand to rebound in 2017-18 after a decline observed in 2016-17

Overall yarn demand declined ~1% on-year in 2016-17, as derived demand (yarn used for manufacturing readymade garments and home textiles that are exported) slowed down considerably and direct yarn exports had declined sharply as high domestic cotton prices rendered yarn exports unviable. In 2017-18, we expect direct yarn exports to slightly improve (3-4%) on back of favourable cotton prices. Domestic demand is expected to grow moderately (4-5%) in fiscal 2018 as demand slowed down in H1 FY 18 on account of GST rollout.

Over the long term, yarn demand is expected to slow down at 3-3.5% CAGR, from 5.5% growth in previous five years. While domestic and derived demand will offer respite, exports are expected to slow down in the long term. Exports are expected to slacken as China's domestic yarn production is pegged to become more viable due to market-oriented cotton auctions which reduce the incentive for yarn imports.

Cotton prices to decrease in 2017-18 season

CRISIL Research expects domestic cotton prices to decline from ~117 per kg in cotton season (CS) 2016-17 to ~ 100-105 per kg in CS 2017-18, due to increase in cotton production. Production has risen as farmers have switched back to cotton following price surge in CS 2016-17. Also, demand is expected to increase slightly due to improvement in domestic consumption.

- We expect production to climb up ~14% on-year to ~385 lakh bales of 170 kg each (6,545 million kg) in CS 2017-18, largely on account of growth in cotton acreage across the country, as farmers have reverted to cotton in the current kharif season. Cotton prices rose 13% in CS 2016-17; farmers who cultivated the crop despite government warnings reaped huge profits. Estimates peg ~19% increase in cotton acreage in CS 2017-18 to ~123 lakh hectares. However, overall yield is expected to fall by ~4% to 534 kg/hectare due to erratic monsoon rains and anticipated pest-related losses.
- Domestic consumption is expected to improve to ~315 lakh bales (5,340 million kg), supported by increased mill usage post favorable cotton prices and higher demand from downstream players post initial disruptions after GST roll out. Continued low tax incidence of cotton value chain (5%) as compared to man-made fibers (18%) under GST will also support demand recovery.
- Owing to high production and relatively slower domestic consumption, we expect cotton imports this year to be low at ~20 lakh bales.
- Stock-to-use ratio is expected to increase to 2.6 months in CS 2017-18 from 1.3 months in previous season.

Bumper cotton sowing estimated this kharif season

According to the Ministry of Agriculture, planted area under cotton reached 123 lakh hectares as of September 29, 2017 compared to 103 lakh hectares in CS 2016/17. Planted area is 19% higher than last year; it is also 7% higher than the 5-year average of 115 lakh hectares.

In Gujarat, cotton planted area is higher by 10% from last year. While there has been flooding in northern Gujarat, most of the cotton area remains in a good condition. In Maharashtra, while acreage for cotton has increased by almost 400,000 hectares compared to the previous year, yields are forecast to be lower than last year due to poor rains. Most cotton-growing districts in the eastern region (Vidarbha) of Maharashtra have received inadequate monsoon rains. Cotton acreage is expected to rise in Telangana and Andhra Pradesh as well, but yield forecasts remain low due to inadequate rainfall and pest pressure in major cotton-growing districts.

Yarn consumption to revive in 2017-18

We believe yarn demand to pick up in 2017-18 due to expected revival in direct yarn exports after sharp decline in 2016-17 on account of high cotton prices. Domestic demand is expected to grow moderately in 2017-18 as demand slowed down in H1 2017-18 on account of GST rollout. Derived demand is expected to revive slightly as demand from non-traditional markets recovers, and the US and EU markets show improvement in clothing consumption.

However, strong rupee and reduction in duty drawback rates will ensure that the derived demand growth falls below the five-year average of 3.5-4.0% in 2017-18. Cotton fabric production is estimated to have declined by 4% in H1 FY 18 which serves as an indicator of weak domestic and derived demand. Also, direct yarn exports are estimated to have fallen by ~10% in H1 FY 18. However, we expect the demand to pick up in second half of the year as GST operational issues get streamlined as well as low cotton prices support direct yarn exports. Overall, we expect the yarn demand to post 3.5-4% growth in FY 18. In the long run, improved economic activity and rising disposable income are expected to support domestic demand.

The estimate consumption of cotton yarn to be driven by three factors:

1. Domestic use in clothing and home textiles
2. Derived demand, i.e., cotton yarn used in apparel, home textiles, and exported fabrics
3. Direct exports of yarn

Domestic demand to grow at a moderate pace in fiscal 2018

CRISIL Research projects cotton yarn demand to post a compound annual growth rate (CAGR) of 3-4% between 2016-17 and 2021-22, on expectations of increased economic activity. A steady rise in ready-made garments (RMG) and home-textile sales in an improving economy will spur cotton yarn offtake in the long run. However, substitution towards man-made yarn due to cost competitiveness in the domestic market will cap the long-term demand growth.

Long-term derived demand to fray

We expect derived demand growth to slightly recover in 2017-18, as demand from non-traditional markets recover and apparel consumption in the United States (US) and European Union (EU) improves. However, strong rupee and reduction in duty drawback benefits under GST (from ~7.5% to 2%) will impact price competitive RMG and home textile exports industry. Hence, derived demand is expected to grow at 2-3% in 2017-18, lower than the average growth of 3.5-4.0% witnessed over the past five years.

Minimal impact of declining labour intensity on operating margins

A continuous rise in the employee cost has led to high automation in the industry. As per primary research, the labour cost has increased 7-8% in past five years and is currently at Rs

300/shift. Due to the faster rise in costs and higher government incentives for modernisation through Technology Upgradation Fund Scheme (TUFS), the industry's labour intensity has gradually declined. Compared with 20 employees required per 1000 spindles in 2005-06, the intensity has come down to 17 employees. Even though the current automation is at high levels, some areas such as inter-process material transfer and packaging departments are still highly labour intensive. Hence, with incremental improvements in productivity and a slower rise in spun yarn production, we expect a 25% fall in incremental employee addition over the next five years. However, with relatively lower labour intensity (compared with readymade garments) and an increase in higher-paid skilled labour requirement, the impact on the overall operating profitability would be marginal in the near term. Major gains on this front can be expected only when the overall demand picks up and the industry's utilisation improves significantly.

Bt cotton aims to improve and protect cotton yields

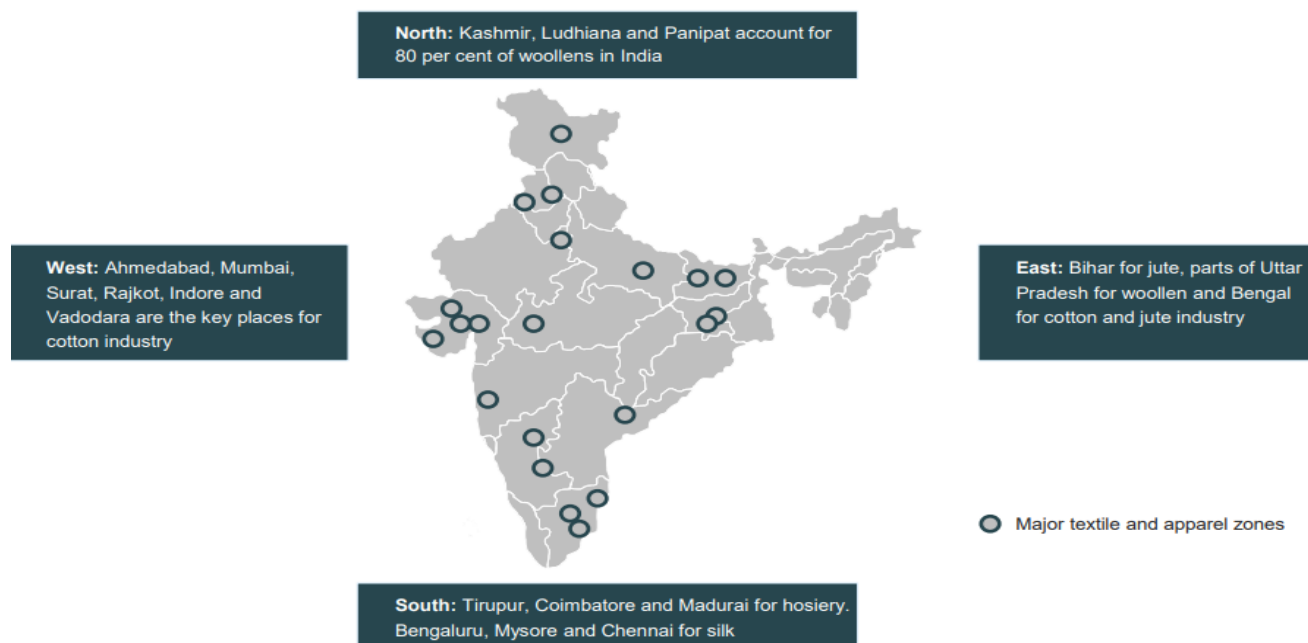

Cotton, the key input in cotton yarn, accounts for 55-60% of the operating income of cotton yarn producers. In India, the cotton season is from October to September, with cotton arrivals peaking during November to February. Most spinning companies purchase cotton during these months. To improve cotton yields, *Bacillus thuringiensis* (Bt) cotton seed was introduced in March 2002. Bt cotton is a genetically engineered cotton seed that protects the yield against pests, such as bollworm and budworms. It is the first and only transgenic crop to be approved by the Genetic Engineering Approval Committee (GEAC). It is used for commercial cultivation in the majority of states and still accounts for more than 90% of area.

Domestic production expected to increase in CS 2017-18

We expect production to climb up ~14% on-year to ~385 lakh bales of 170 kg each (6,545 million kg) in CS 2017-18, largely on account of growth in cotton acreage across the country, as farmers have reverted to cotton in the current kharif season. Estimates peg ~19% increase in cotton acreage in CS 2017-18 to ~123 lakh hectares.

CHALLENGES FACED BY THE INDIAN COTTON YARN INDUSTRY

The problems of Cotton Industry in India:

- Long staple cotton is not well grown in many parts of India.
- Many of the factories are old and, as such, productivity has been lowered. The plants and machinery employed in many of our textile mills are now out of date. They were put to intensive use and have considerably deteriorated.
- High cost of advanced machinery is an unavoidable hindrance for the procurement of new machinery. For this reason, the much-needed replacement had to be deferred for many years.
- The high cost of production is also effectively retarding the growth of this important industry.
- There is competition from synthetic fibres like polyester, etc.
- There is competition in the International Market from Bangladesh, Japan, China, and Britain, etc.
- Great difficulties are being experienced by mill-owners in obtaining the capital needed for modernization.

GOVERNMENT POLICIES

Favourable government policies helped industry

Government policies have a significant impact on the Textile industry. The National Textiles Policy aims to ensure that the industry is internationally competitive in terms of manufacturing practices and exports. The government launched textile packages such as the Technology Upgradation Fund Scheme (TUFS) -introduced in 1999 - to improve productivity and make the industry cost-competitive. Similarly, the EXIM Policy contains export promotion measures such as the Duty Entitlement Pass Book Scheme (DEPB) and duty drawback schemes.

Various schemes

Foreign trade policy for the period 2015 to 2020

The government announced the new foreign trade policy (FTP) on 1st April 2015 for the period 2015 to 2020. This policy provides a framework for increasing exports of goods and services to \$900 billion by 2020. The policy introduced two new schemes vis-a-vis Services Exports from India Scheme (SEIS) and Merchandise Exports from India Scheme (MEIS).

- SEIS in order to boost exports of notified services. The rates of rewards under SEIS will range from 3-5 per cent as compared to 5-10 per cent range earlier.
- MEIS targeting export of specified goods to specified markets. The rates of rewards under MEIS will range from 2-5 per cent as compared to earlier 2-7 per cent range.

The textile sector has been granted duty scrips of 2 per cent for cotton textile products and 5 per cent for handloom, carpet and coir products. However, cotton yarn is not expected to get any benefits under this scheme.

Technology Upgradation Fund Scheme (TUFS)

The textiles industry is capital-intensive and requires huge investments. The investments were hindered as interest rates in India were very high during the 1990s. So, the Union Ministry of Textiles launched TUFS in 1999 to upgrade technology at textile units. The Union Government set up a ~250 billion fund under the TUFS for providing aid to textile projects. The scheme commenced on April 1, 1999. It initially provided a 5 per cent interest subsidy on loans borrowed

from specified institutions to all segments within the textiles value chain. Spinning has benefited the most through TUFs. As of June 2010, spinning mills received 34 per cent of the total funds disbursed under TUFs.

In 2011-12, the scheme was renamed as Restructured Technology Upgradation Fund Scheme (R-TUFs) with a few changes. The refurbished scheme provided a reimbursement of 5 per cent on interest charged by the lender, for loans taken to upgrade technology at a textile unit. However, for spinning machinery the scheme provided a 4 per cent interest reimbursement for new standalone spinning machinery or for replacement/ modernisation of the same. However, spinning units, which also have equivalent weaving/ knitting/ processing/ garmenting capacities, will be granted a 5% reimbursement.

On 13th January 2016, a new scheme "Amended technology Upgradation Scheme (ATUFs)" has been approved by the government, which will provide one-time capital subsidy for investments in the employment and technology intensive segments of the textile value chain. Under ATUFs, no subsidy will be provided for spinning sector. Every other individual entity will be eligible for one-time Capital subsidy only as per the rates and the overall subsidy cap

SI No.	Segment	Rate of Capital Investment Subsidy	CIS per individual entity
1	Garmenting, Technical Textiles	15 % on eligible machines	Rs 0.3 Bn*
2	Weaving for brand new shuttle-less looms(including weaving preparatory and knitting),Processing, Jute, Silk and Handloom	10 % on eligible machines	RS 0.2 Bn*
3(a)	Composite Unit /Multiple segments - If the eligible capital investment in respect of Garmenting and Technical textiles category is more than 50 % of eligible project cost	15 % on eligible machines	RS 0.3 Bn*
3(b)	Composite Unit /Multiple segments - If the eligible capital investment in respect of Garmenting and Technical textiles category is less than 50 % of eligible project cost	10 % on eligible machines	RS 0.2 Bn*

* In case the applicant had availed subsidy earlier under RR-TUFs, he will be eligible for only the balance amount within the overall ceiling fixed for an individual entity

indicated below:

Rajasthan Investment Promotion Scheme, 2014

The Government of Rajasthan vide their notification No.F.12(28)FD/Tax/2010 Pt.I-114 Jaipur, dated October 08, 2014 implemented the interest and other subsidy scheme for the textile sector. Under this scheme all enterprises manufacturing/processing all kind of fibres, yarn, fabrics, garments, apparels, hosiery, made-ups using such processes as spinning (which includes blow room to yarn packaging, Ring Spinning, Rotors or Jet Spinning), Weaving, Dyeing & Processing, Knitting, Machine Carpeting, Machine Embroidery and any other activities/process like crimping, texturizing, twisting, winding, sizing etc. within the entire Textile value chain are eligible for the subsidy.

The details of subsidy for textile sector under the scheme are as under:

Enterprises making a minimum investment of twenty five lakh rupees in the textile sector shall be granted the following benefits for the period as mentioned in clause 10.7 of the Scheme:

- (a) 5% interest subsidy;
- (b) additional 1% interest subsidy for enterprises making investment more than Rs.25 crore;
- (c) 7% interest subsidy for Technical Textile Sector;

(d) Capital Subsidy on zero liquid discharge based effluent treatment plant equivalent to 20% of amount paid to the suppliers for the plant excluding civil work, subject to a maximum of Rs.1crore;

(e) 50% reimbursement of VAT on purchase of yarn, fibre, recycled fibre yarn, cotton and pet bottles for use in manufacture of goods within the State, for sale by him; and

(f) 50% exemption from payment of Entry Tax on capital goods, for setting up of plant for new unit or for expansion of existing enterprise or for revival of sick industrial enterprise, brought into the local areas before the date of commencement of commercial production/operation

GST impact mildly positive for cotton spinners

It is expected increased cotton yarn usage in blended fabrics owing to relatively higher tax incidence on manmade fibre following higher tax compliance in the value chain. Also, with the implementation of the Goods and Services Tax, there is significant central sales tax savings as the spinning industry depends heavily on interstate procurement (Tamil Nadu accounts for ~45% of spindle capacity but only ~2% of cotton production). Operating margin will be relatively unaffected as pricing pressure from downstream segments will likely be offset by benefits obtained under input tax credits not received earlier (duty on packaging, service tax on transportation, etc). Working capital requirements are unlikely to increase significantly because of similar tax incidence on raw material, i.e. GST on cotton is 5%, which is relatively similar to the previous value-added tax.

SUMMARY OF BUSINESS

This chapter should be read in conjunction with, and is qualified in its entirety by, the more detailed information about our Company and its financial statements, including the notes thereto, in the sections titled 'Risk Factors' and 'Financial Information' and the chapter titled 'Management Discussion and Analysis of Financial Condition and Results of Operations' beginning on page nos. 20, 218 and 252 respectively of this Draft Prospectus.

Unless the context otherwise requires, in relation to business operations, in this chapter of this Draft Prospectus, all references to "we", "us", "our" and "our Company" are to Lagnam Spintex Limited as the case may be.

OVERVIEW

Our company was originally incorporated on June 11, 2010 as a Private Limited under the name and style of Lagnam Spintex Pvt Ltd under the provisions of the Companies Act, 1956 with the Registrar of Companies, Jaipur Rajasthan. Subsequently our company was converted into the public company vide special resolution passed by the shareholders at the EGM held on January, 22, 2018 and the name of the company was converted into Lagnam Spintex Limited.

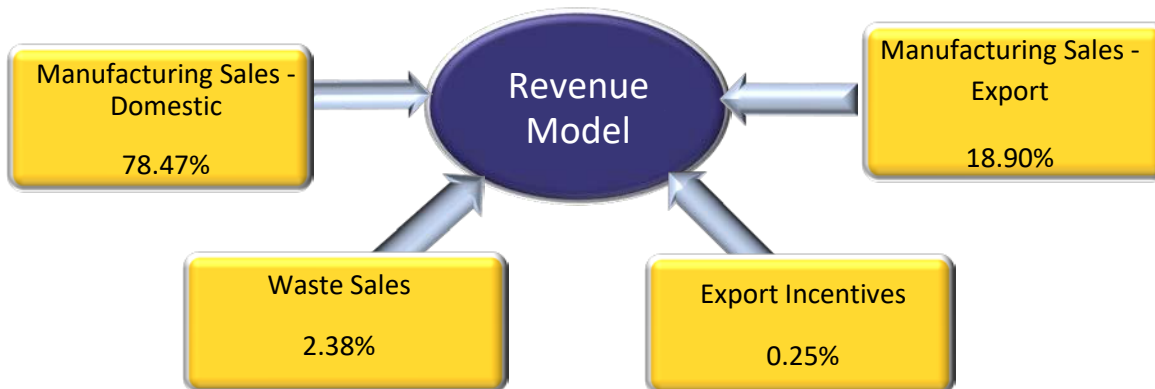

Our company is an **ISO 9001:2015** certified Company engaged in the business of manufacture of high quality yarn for domestic and export market ranging from count Ne 4 to Ne 20 which is used in Denim, Terry Towels, Bottom Wears, Home Textiles and Industrial Fabrics etc.

The manufacturing facility of Our Company is situated at A- 53, RIICO Growth Centre, Hamirgarh of Bhilwara District in Rajasthan State and spreads over 10,000 square meters. Our Company has at present an installed capacity of 1,920 rotors for cotton yarn having capacity to produce 16.5 tonnes per day of high quality yarn. We have continuously expanded and modernized our facilities in line with the industry trend. Our plant is equipped with modern and automatic plant and machinery. The level of advancement determines the productivity of machines and labour, which in turn, determines the production, operating cost and profitability of Our Company. Our technical team in spinning is well equipped with modern spinning technology and processing techniques by virtue of which we are able to ensure quality yarn. Technology is a crucial aspect of the cotton yarn industry.

Our company has been recognised as "One Star Export House" by the Director General of Foreign Trade with a certificate valid from 2017 to 2022. We have also received OEKO Tex certification. We have a dedicated in-house Testing and Quality Control Team which undertakes rigorous testing and quality management. We are one of the few cotton yarn manufacturers globally who have received certification from USTER Technologies AG. We ensure that all product manufactured is of the optimum quality for which we run our yarn through USTER's QC Machines. For details, please refer to "Our Business - Quality Control" on page no. 168 of this Draft Prospectus.

Our Company is presently exporting cotton yarns to countries like Portugal, Italy, Germany, Belgium, South Africa, Slovenia, Columbia, China, Pakistan, Bangladesh and others. We supply to customers, who are in fields like apparel and garment industry, industrial fabrics, towels, Denims etc. At present, Our Company is exporting its products to countries, which are expected to grow in forthcoming times thereby offering more scope for Our Company to develop new markets and to increase our presence accordingly.

The following diagram depicts the breakup of revenue, percentage-wise for the year ending March 31, 2018.

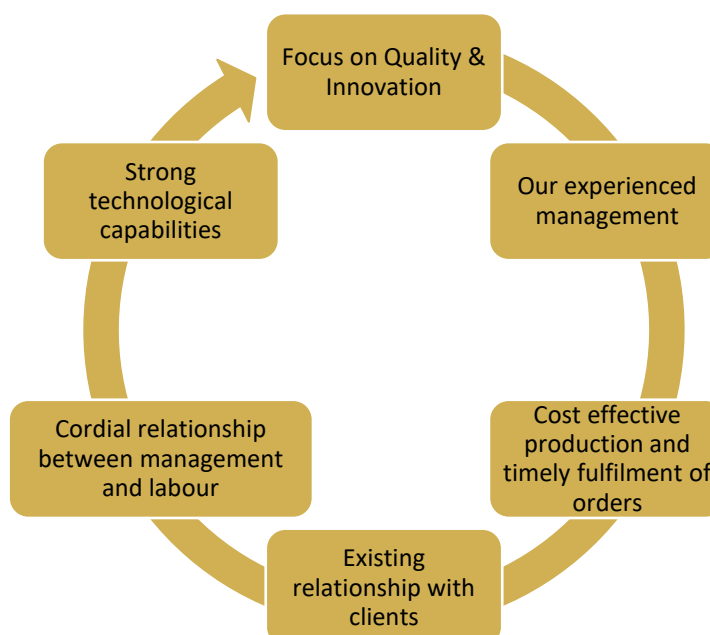

To cope with the continuous growing demand in the overseas and domestic markets and to attain economies of scale, our Company proposes setting up a new manufacturing facility for high quality Ring Spun carded and combed yarn with capacity of 18.61 TPD with 25,536 spindles at A- 51,52 RIICO Growth Centre Hamirgarh, Bhilwara, Rajasthan. The Company has already purchased the leasehold right for the site where it wishes to set up its new project. The project shall be set up on the land admeasuring 38,263 Sqmt. which is adjacent to existing unit of the company.

With this proposed expansion, the uses for our company's product i.e. yarn will significantly increase by further diversifying end use scope for our current offering i.e. increasing product variety in Denim, Terry Towel, Home textiles, Industrial Fabric and also adding Suiting & Shirting, Linen and Home furnishing fabrics to the end use purposes. The company will also be diversifying its product by being able to offer Double yarn on (Two for One twister) and Slub yarn which will be used in Fancy fabric.

In the past five years our revenues have increased from INR4,983.41 lakhs in F. Y. 2014-15 to INR 5,656.41 lakhs in F.Y. 2015-16, INR 7,538.43 lakhs in F.Y. 2016-17 and to INR 8,454.47 lakhs in F.Y. 2017-18 showing a CAGR of almost 19% over the three years. Our Net Profit after tax for the above-mentioned periods are INR 157.82 lakhs, INR 208.50 lakhs, INR 367.09 lakhs and INR 468.49 lakhs, respectively, showing that the profit after tax of our Company for the last three years has grown at a CAGR of almost 43%.

OUR STRENGTHS

1. Focus on Quality and Innovation

We believe that quality and innovation are bed rock of any successful strategy. We stress on and constantly strive to maintain and improve the quality of our services and products. Our focus on quality and innovation helps us to compete against our peers in the yarn and textile industry.

2. Our Experienced Management

Our Directors and Key Managerial Persons have been engaged in the yarn & textile industry for around quite a few decades now and have a rich experience and goodwill in the market which provides the business with a competitive edge. It is through the constant efforts and experience of our management team that we have been able to build a sustainable business model. We also have employed people in different areas of work who have the required technical competence and qualifications. We strongly believe that the success of our organization lies in the efforts of our human resources.

3. Cost effective production and timely fulfilment of orders

Our Company has taken various steps in order to ensure adherence to timely fulfilment and also to achieve greater cost efficiency as timely fulfilment of the orders is a prerequisite in our industry. These steps include identifying quality yarn, smooth labour relations, use of an efficient production system and ability to meet large and varied orders due to our capacity and linkages with raw material suppliers. Our Company also has enjoyed good relations with our suppliers and as a consequence have the benefit of timely supplies of the raw materials which has been one of the major reasons why we have been able to achieve timely fulfilment of orders of our customers. Our Company constantly endeavours to implement an efficient procurement policy for inputs required for production so as to ensure cost efficiency in procurement which in turn results in cost effective production.

4. Existing relationship with the clients

We focus on building long term client relationship and constantly try to cater customer needs with products in demand. Since we are mainly engaged in B2B business model, our existing clients provide us mandate for continuous services. We trust that our existing relationship and goodwill serves as a competitive advantage in gaining new clients and increasing our business with existing clients.

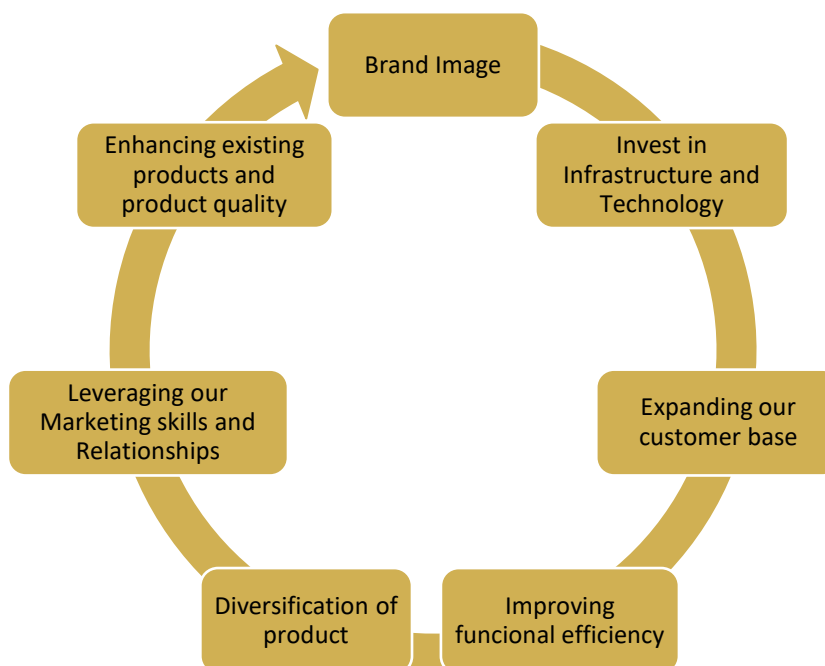

5. Cordial relationship between management and labor

We enjoy cordial relations with our employees and there has been no union of employees. Further, there have been no strikes, lock-out or any labour protest in our organization since inception.

6. Strong Technological Capabilities

We use latest technology and machinery procured from suppliers/distributors in the world. Not only have we installed the latest machinery to produce high quality yarn, we have also use USTER's state of the art quality check machine thereby ensuring the quality of yarn. These modern machineries also help us in maintaining high quality standards and thus retain various national and multi-national customers.

OUR STRATEGIES

Our vision is to grow in existing and new markets by providing quality services and products. We intend to capitalize on the growing demand for our products in India and abroad. In line with this vision, our company is implementing a business strategy with the following key components. Our strategy will be to focus on capitalizing on our core strengths and expanding the operations of our business.

1. Brand image

We intend to build our brand primarily through continued investment in product innovation supported by research and development initiatives, marketing activities and the establishment of long-term relationships with our customers. In the face of increased competition, we believe that it is critical that we maintain the advantages that our products offer over our competitors. We are highly conscious about our brand image and intend to continue our brand building exercise by providing excellent services to the satisfaction of the customers.

2. Invest in infrastructure and technology

Our Company believes in making investments for continuously achieving higher levels of excellence in its products and implement dynamic and diverse specifications of our customers. We have invested significantly in equipping our manufacturing facilities with the latest and specialized infrastructure and modern technology. As a part of our expansion and diversification strategy, we propose to set up an additional facility, a spinning unit, to manufacture ring spun carded and combed yarn with a capacity of 18.61 tonnes per day.

3. Expanding our customer base

Our company has limited clientele as on date and our 55.64% revenue is contributed from top 10 customers only and 38.93% of revenue is contributed from top 5 customers as on 31st March 2018. The company will strive to expand its business operations throughout India and overseas by quality services and latest equipment and marketing of our services.

4. Improving functional efficiency

Our Company intends to improve operating efficiencies to achieve cost reductions to have a competitive edge over the peers. We believe that this can be done through continuous process improvement, customer service and technology development. We continue to invest in operational excellence throughout the organization. We ensure a strong quality commitment by our employees.

5. Diversification of product

The company has been currently producing open end carded cotton yarn from count range NE 4 to 20 which is primarily used in denim, terry towels, home textile and industrial fabric sector, the company is now proposing to extend its product offering in its expansion plan by manufacturing ring spinning carded and combed yarn with counts from 20 to 30, thereby increasing the count range.

6. Leveraging our Marketing skills and Relationship

Leveraging our marketing skills and relationship is a continuous process in our organization. We believe in imparting training to our employees for enhancing their marketing skills. Further we aim to undertake some marketing initiatives as well to increase our brand visibility. Such initiatives shall include print and electronic advertisements, sponsorships, participating in industrial exhibitions on both domestic and international levels, etc.

7. Enhancing existing products and product quality

We believe quality service and products of global standards will be of much importance for customer retention and repeat-order flow. We intend to have close interaction with our customers in a bid to strengthen our relationships with them and enabling us to understand the market perception and demand. We train our employees to consistently design and deliver client focused solutions. We will continue to focus on creating innovative designs through R&D effort.

PRODUCTS

Our Company is engaged into production of cotton yarns, which is used for Denim, Terry Towel, Knitting, Weaving, Home Textile and Industrial Fabric.

Yarn is the end product of spinning. It is the primary component for any Cotton woven or knitted fabric. Cotton yarn is used to make different type of fabrics. In some cases, the cotton yarn is blended with some other yarn in different ratios to provide different effects like shining or to lend more elasticity to the yarn. It is the yarn count and the twisting mode of the yarn that actually determines the overall strength and look of the manufactured fabric.

Cotton Yarns are usually used by various manufacturers for the following end uses:

- Denim

- Bottom Wears
- Industrial fabrics
- Home Textile
- Bed Sheets
- Terry Towels

We are supplying cotton yarn so produced to customers in India and also to customers based out of Germany, Portugal, Slovenia, Pakistan, Columbia, Italy, Belgium, Turkey, China, Bangladesh etc.

With the proposed expansion, we will be manufacturing high quality Ring spun carded and combed yarn which will increase the variety of end product offering as mentioned above and also add Suiting & Shirting, Linen and Home furnishing fabrics as the end use purposes for the manufacturers thereby increasing the scope of yarn produced by our Company. The company will further be diversifying its product by being able to offer Two for One yarn and Slub yarn which will be used in Fancy fabric.

DETAILS OF THE MARKET MAKING ARRANGEMENT

Our Company and the Lead Managers have entered into a tripartite agreement dated July 05, 2018, with the following Market Maker, duly registered with National Stock Exchange of India Limited to fulfil the obligations of Market Making:

Maverick Share Brokers Private Limited

211 – Laxmi Complex, M.I. Road, Jaipur

Tel: + 91 141-4919109

Fax: + 91-141-2360627

E-mail: mantri@maverickgroup.in

Website: www.maverickgroup.in

Contact Person: Mr. Danny Paul

SEBI Registration No.: INZ000103531

Market Maker Registration No.: (SME Segment of NSE): 11604

Maverick Share Brokers Private Limited, registered with SME segment of NSE will act as the Market Maker and has agreed to receive or deliver of the specified securities in the market making process for a period of three years from the date of listing of our Equity Shares or for a period as may be notified by any amendment to SEBI (ICDR) Regulations.

The Market Maker shall fulfil the applicable obligations and conditions as specified in the SEBI ICDR Regulations, as amended from time to time and the circulars issued by NSE and SEBI in this matter from time to time.

Following is a summary of the key details pertaining to the Market Making arrangement:

1. The Market Maker(s) (individually or jointly) shall be required to provide a 2-way quote for 75% of the time in a day. The same shall be monitored by the Stock Exchange. The Spread (difference between the sell and buy quote shall not be more than 10% or as specified by the Stock Exchange. Further, the Market Maker(s) shall inform the Exchange in advance for each and every black out period when the quotes are not being offered by the Market Maker(s).
2. The minimum depth of the quote shall be Rs. 1,00,000/-. However, the investors with holdings of value less than Rs. 1,00,000/- shall be allowed to Issue their holding to the Market Maker(s) (individually or jointly) in that scrip provided that he sells his entire holding in that scrip in one lot along with a declaration to the effect to the selling broker. Based on the IPO price of Rs. 41/- per share the minimum lot size is 3,000 Equity Shares thus minimum depth of the quote shall be Rs. 1,23,000 until the same, would be revised by National Stock Exchange of India Limited.
3. After a period of three (3) months from the market making period, the Market Maker would be exempted to provide quote if the Shares of Market Maker in our Company reaches to 25% of Issue Size (including the 3,00,000 Equity Shares out to be allotted under this Issue). Any Equity Shares allotted to Market Maker under this Issue over and above 25% Equity Shares would not be taken in to consideration of computing the threshold of 25% of Issue Size. As soon as the Shares of Market Maker in our Company reduce to 24% of Issue Size, the Market Maker will resume providing 2-way quotes.

4. There shall be no exemption/threshold on downside. However, in the event the Market Maker exhausts his inventory through market making process, National Stock Exchange of India Limited may intimate the same to SEBI after due verification.
5. Execution of the order at the quoted price and quantity must be guaranteed by the Market Maker(s), for the quotes given by him.
6. There would not be more than five Market Makers for the Company's Equity Shares at any point of time and the Market Makers may compete with other Market Makers for better quotes to the investors. At this stage, Maverick Share Brokers Limited is acting as the sole Market Maker.
7. The shares of the Company will be traded in continuous trading session from the time and day the company gets listed on National Stock Exchange of India Limited and market maker will remain present as per the guidelines mentioned under National Stock Exchange of India Limited and SEBI circulars.
8. There will be special circumstances under which the Market Maker may be allowed to withdraw temporarily/fully from the market – for instance due to system problems, any other problems. All controllable reasons require prior approval from the National Stock Exchange of India Limited, while force-majeure will be applicable for non-controllable reasons. The decision of the National Stock Exchange of India Limited for deciding controllable and non-controllable reasons would be final.
9. The Market Maker(s) shall have the right to terminate said arrangement by giving one month notice or on mutually acceptable terms to the Lead Manager, who shall then be responsible to appoint a replacement Market Maker(s).

In case of termination of the above-mentioned Market Making agreement prior to the completion of the compulsory Market Making period, it shall be the responsibility of the Lead Manager to arrange for another Market Maker(s) in replacement during the term of the notice period being served by the Market Maker but prior to the date of releasing the existing Market Maker from its duties in order to ensure compliance with the requirements of regulation 106V of the SEBI (ICDR) Regulations. Further the Company and the Lead Manager reserve the right to appoint other Market Maker(s) either as a replacement of the current Market Maker or as an additional Market Maker subject to the total number of Designated Market Makers does not exceed 5 (five) or as specified by the relevant laws and regulations applicable at that particulars point of time. The Market Making Agreement is available for inspection at our Corporate Office from 11.00 a.m. to 5.00 p.m. on working days.

10. Emerge Platform of National Stock Exchange of India Limited will have all margins which are applicable on the National Stock Exchange of India Limited Main Board viz., Mark-to-Market, Value-At-Risk (VAR) Margin, Extreme Loss Margin, Special Margins and Base Minimum Capital etc. National Stock Exchange of India Limited can impose any other margins as deemed necessary from time-to-time.
11. National Stock Exchange of India Limited will monitor the obligations on a real time basis and punitive action will be initiated for any exceptions and/or non-compliances. Penalties / fines may be imposed by the Exchange on the Market Maker, in case he is not able to provide the desired liquidity in a particular security as per the specified guidelines. These penalties / fines will be set by the Exchange from time to time. The Exchange will impose a penalty on the Market Maker(s) in case he is not present in the market (offering two-way quotes) for at least 75% of the time. The nature of the penalty will be monetary as well as suspension in market making activities / trading membership.

The Department of Surveillance and Supervision of the Exchange would decide and publish the penalties/ fines/ suspension for any type of misconduct/ manipulation/ other irregularities by the Market Maker from time to time.

12. Pursuant to SEBI Circular number CIR/MRD/DSA/31/2012 dated November 27, 2012, limits on the upper side for Market Makers during market making process has been made applicable, based on the issue size and as follows:

Issue size	Buy quote exemption threshold (including mandatory initial inventory of 5% of the Issue Size)	Re-Entry threshold for buy quote (including mandatory initial inventory of 5% of the Issue Size)
Up to Rs. 20 Crore	25%	24%
Rs. 20 crores to Rs. 50 crores	20%	19%
Rs. 50 to Rs. 80 crores	15%	14%
Above Rs. 80 crores	12%	11%

The Market Making arrangement, trading and other related aspects including all those specified above shall be subject to the applicable provisions of law and/or norms issued by SEBI/ NSE from time to time.

The minimum Promoters' contribution has been brought in to the extent of not less than the specified minimum lot and from the persons defined as 'promoter' under the SEBI (ICDR) Regulations. The Equity

Shares that are being locked in are not ineligible for computation of Promoters' contribution in terms of Regulation 33 of the SEBI ICDR Regulations. In connection, we confirm the following: -

- a) The Equity Shares offered for minimum 20% Promoters' contribution have not been acquired in the three years preceding the date of this Draft Prospectus for consideration other than cash and revaluation of assets or capitalization of intangible assets nor resulted from a bonus issue out of the revaluation reserves or unrealized profits of the Company or against Equity Shares which are otherwise ineligible for computation of Promoters' contribution;*
- b) The minimum Promoters' contribution does not include Equity Shares acquired during the one year preceding the date of this Draft Prospectus at a price lower than the Issue Price;*
- c) Our Company has not been formed by the conversion of a partnership firm into a Company and thus, no Equity Shares have been issued to our Promoters upon conversion of a partnership firm;*
- d) The Equity Shares held by the Promoters and offered for minimum Promoters' contribution are not subject to any pledge;*
- e) All the Equity Shares of our Company held by the Promoter are in the process of being dematerialized; and*
- f) The Equity Shares offered for Promoters' contribution do not consist of Equity Shares for which specific written consent has not been obtained from the Promoter for inclusion of its subscription in the Promoters' contribution subject to lock-in.*

iii) Details of Equity Shares locked-in for one year

Other than the above Equity Shares that are locked in for three years, the entire pre-Issue Equity Share capital of our Company shall be locked-in for a period of one year from the date of allotment in the Public Issue.

iv) Other requirements in respect of lock-in

Pursuant to Regulation 39 of the SEBI ICDR Regulations, the locked-in Equity Shares held by the Promoters, as specified above, can be pledged only with scheduled commercial banks or public financial institutions as collateral security for loans granted by such scheduled commercial banks or public financial institution, provided that the pledge of the Equity Shares is one of the terms of the sanction of the loan.

Provided that securities locked in as Promoters' Contribution for 3 years under Regulation 36(a) of the SEBI (ICDR) Regulations may be pledged only if, in addition to fulfilling the above requirement, the loan has been granted by such scheduled commercial bank or public financial institution for the purpose of financing one or more of the objects of the Issue.

Further, pursuant to Regulation 40 of the SEBI (ICDR) Regulations, the Equity Shares held by persons other than the Promoters prior to the Issue may be transferred to any other person holding the Equity Shares which are locked-in as per Regulation 37 of the SEBI (ICDR) Regulations, along with the Equity Shares proposed to be transferred, provided that lock-in on such Equity Shares will continue for the remaining period with the transferee and such transferee shall not be eligible to transfer such Equity Shares till the lock-in period stipulated under the SEBI (ICDR) Regulations has ended, subject to compliance with the Takeover Code, as applicable

We further confirm that our Promoter's Contribution of 51.31% of the post Issue Equity Share capital does not include any contribution from Alternative Investment Fund.

We hereby confirm that excluding the amount to be raised through the proposed Public Issue, firm arrangements of finance through verifiable means towards 75% of the stated means of finance have been made.

The fund requirement and deployment are based on Techno Economic Viability Study (TEV Report) conducted by Mitcon Consultancy & Engineering Services Ltd. (MITCON) vide their report dated October 26, 2017 and appraised by lenders of the Company namely, State Bank of India and Punjab National Bank.

In view of the dynamic nature of the sector and specifically that of our business, we may have to revise our expenditure and fund requirements as a result of variations in cost estimates on account of variety of factors such as incremental pre – operative expenses and external factors which may not be within the control of our management and may entail rescheduling and revising the planned expenditure and funding requirement and increasing or decreasing the expenditure for a particular purpose from the planned expenditure at the discretion of our management in accordance with applicable laws. In case of any surplus after utilization of the Net Proceeds for the stated objects, we may use such surplus towards future growth opportunities, if required and general corporate purposes.

In case of variations in the actual utilization of funds earmarked for the purposes set forth above, increased fund requirements for the stated purposes shall be done through internal accruals through cash flows from our operations and debt. In case of a shortfall in raising requisite capital from the Net Proceeds towards meeting the objects of the Issue, we may explore a range of options including utilizing our internal accruals and seeking additional debt from existing and future lenders. We believe that such alternate arrangements would be available to fund any such shortfalls.

DETAILS OF THE OBJECT OF THE ISSUE

1. Part finance the setting up of new cotton yarn manufacturing facility

Company is currently engaged in business of manufacturing high quality cotton open end yarns ranging from Ne 4 to Ne 20. The Company has at present an installed capacity of 1,920 rotors for cotton yarn with a manufacturing capacity of 16.5 tonnes per day of high quality yarn. These yarns are suitable for applications such as Denim, Terry Towels, Bottom Wears, Home Textile and Industrial Fabrics. These cotton yarns are being exported to countries like Portugal, Italy, Germany, Belgium, South Africa, Slovenia, Colombia, China, Pakistan, Bangladesh and others.

As a part of its expansion strategy, the Company now proposes to set up another spinning unit for manufacturing of Ring spun Carded and combed yarn with installed capacity of 25,536 spindles expected to produce 18.6 tonnes yarn per day. The project shall be set up on the land admeasuring 38,263 Sqmt. which is adjacent to existing unit of the company at a total project cost of INR 12,540 lakhs. The Company expects commencement of commercial production of the new proposed unit by September 30, 2019.

BASIS FOR ISSUE PRICE

The Issue Price shall be determined by our Company, in consultation with the Lead Manager on the basis of the assessment of market demand for the Equity Shares through the Fixed Issue price method and on the basis of the following qualitative and quantitative factors for the Equity Shares. The face value of the Equity Shares is Rs. 10/- each and the Issue Price is 4.1 times of the face value.

The Issue Price of Rs. 41/- per Equity Share has been determined on the basis of the below mentioned qualitative and quantitative factors.

QUALITATIVE FACTORS

Some of the qualitative factors, which forms the basis for computation of Issue Price are:

- Promoters having vast experience of around 45 years in the Textile Industry
- Setting up of new manufacturing facility to more than double the production
- Banks have already sanction Term Loan of INR 9400 lakhs and after considering RIPS subsidy, the net interest cost will be 3.50% to 4.15%.
- Well established infrastructure with most automated and state of the art technologies from Internationally renowned suppliers
- Diverse and quality products with more than 99% capacity utilization of the current manufacturing facility
- Scalable business model with wide portfolio of clients across the globe.
- Increased collaboration with customers and suppliers
- Bright growth prospects of the Industry as a whole

For a detailed discussion on the qualitative factors please refer to section titled “Our Business” on page 157 of this Draft Prospectus.

QUANTITATIVE FACTORS

The information presented in this section is derived from the Company’s restated financial statements for the Financial Year 2018; 2017 and 2016 prepared in accordance with Indian GAAP, Companies Act and the SEBI ICDR Regulations. Some of the quantitative factors, which form the basis for computing the price, are as follows:

1. Basic and Diluted Earnings per share (EPS) as per Accounting Standard 20:

Year Ended	EPS (Rs.)	Weight
March 31, 2016	1.86	1
March 31, 2017	3.27	2
March 31, 2018	4.15	3
Weighted Average		3.48

Note:

The earnings per share has been computed by dividing net profit as restated, attributable to equity shareholders by restated weighted average number of equity shares outstanding during the year. Restated weighted average number of equity shares has been computed as per AS-20. The face value of each Equity Share is Rs.10/-.

On December 29th, 2017 our Company allotted 91,71,000 Equity Shares in the ratio of 9:2 to the existing shareholders as fully paid bonus shares. On January 25, 2018 our Company reissued 4,60,000 Equity Shares which were earlier forfeited. For the purpose of calculating EPS above, the above shares have been taken into account for all the periods reported.

2. Price to Earnings (P/E) ratio in relation to Issue Price of Rs. 41/- per equity share of Rs. 10/- each fully paid up:

Particulars	P/E Ratio on Issue Price
P/E Ratio on Basic/ Diluted EPS for FY 2017-18	9.88
P/E Ratio based on Weighted Average Basic/ Diluted EPS	11.78
*Industry P/E Ratio (On Basic EPS)	
Lowest	7.55
Highest	48.03
Average	20.10

*Industry comprises of the peers mentioned in point 6 Comparison with other Listed Companies

3. Return on Net Worth (RoNW):

Return on Net Worth as per Restated Financial Statements is as under:

Year Ended	RoNW (%)	Weight
March 31, 2016	12.21	1
March 31, 2017	17.69	2
March 31, 2018	17.72	3
Weighted Average		16.79%

Note: The RoNW has been computed by dividing net profit after tax [after excluding extraordinary items (net of tax)] as restated, by Net Worth as at the end of the respective year excluding extraordinary items (net of tax) and miscellaneous expenditure to the extent not written off.

4. Minimum Return on Total Net Worth post issue needed to maintain Pre-Issue EPS for the year ended March 31, 2018 at the Issue price of Rs. 41/- per Equity share is 15.14%.

5. Net Asset Value (NAV):

The Net Asset Value per equity share is as under:

Particulars	Amount in Rs.
Net Assets Value per Equity Share as at March 31, 2018	23.42
Net Assets Value per Equity Share after the Issue	27.42
Issue Price per Equity Share	41.00

Net Asset Value per Equity Share has been calculated as net worth divided by number of equity shares outstanding at the end of the year. Net worth is calculated as sum of share capital and free reserves excluding miscellaneous expenses to the extent not written off.

6. Comparison with Other Listed Companies:

Company	CMP*	EPS	P/E ratio	RoNW	NAV per share	Face value per share	Total Income (in crores)

TEXTILE BUSINESS – INDUSTRY OVERVIEW

India's textiles sector is one of the oldest industries in Indian economy dating back several centuries. Even today, textiles sector is one of the largest contributors to India's exports with approximately 13% of total exports. The textiles industry is also labour intensive and is one of the largest employers.

The textile industry has two broad segments. First, the unorganized sector consists of handloom, handicrafts and sericulture, which are operated on a small scale and through traditional tools and methods. The second is the organized sector consisting of spinning, apparel and garments segment which apply modern machinery and techniques such as economies of scale.

The textile and apparel industry can be broadly divided into two segments - yarn and fibre, and processed fabrics and apparel. India accounts for 14% of the world's production of textile fibres and yarns (largest producer of jute, second largest producer of silk and cotton, and third largest in cellulosic fibre). India has the highest loom capacity (including hand looms) with 63% of the world's market share.

Increased penetration of organised retail, favourable demographics, and rising income levels are likely to drive demand for textiles. India is the world's second largest exporter of textiles and clothing.

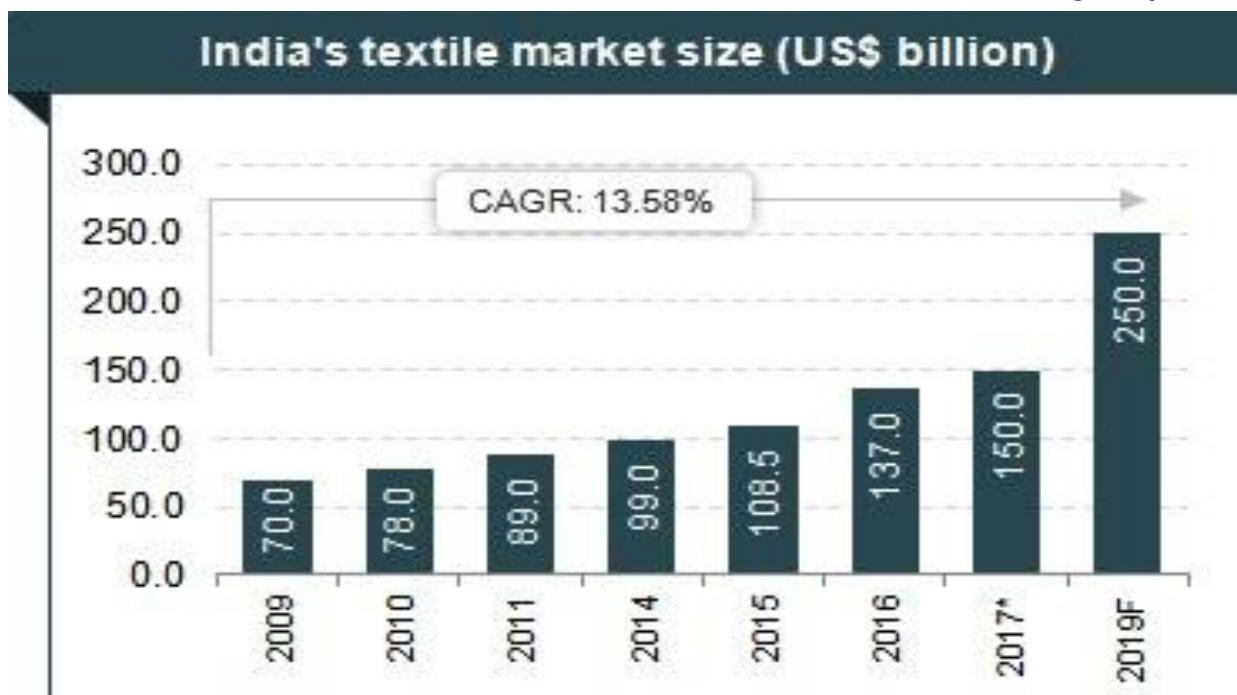

Market Size

The Indian textiles industry, currently estimated at around USD 120 billion, is expected to reach USD 230 billion by 2020. The Indian Textile Industry contributes approximately 2 per cent to India's Gross Domestic Product (GDP), 10% of manufacturing production and 14% to overall Index of Industrial Production (IIP).

Indian khadi products sales increased by 33% year-on-year to Rs 2,005 crore (USD 311.31 million) in 2016-17 and is expected to exceed Rs 5,000 crore (USD 776.33 million) sales target for 2018-19, as per the Khadi and Village Industries Commission (KVIC).

The production of cotton in India is estimated to increase by 9.3% year-on-year to reach 37.7 million bales in FY 2017-18. The total area under cultivation of cotton in India is expected to increase by 7% to 11.3 million hectares in 2017-18, on account of expectations of better returns from rising prices and improved crop yields during the year 2016-17.

Indian exports of locally made retail and lifestyle products grew at a compound annual growth rate (CAGR) of 10% from 2013 to 2016, mainly led by bedding bath and home decor products and textiles.

YARN INDUSTRY-OVERVIEW

a) Raw Material

Cotton accounts for almost 50% of the worldwide consumption of textile fibre. China, the United States, the Russian Federation, India and Japan are the major cotton-consuming countries. Consumption is measured by the amount of raw cotton fibre purchased and used to manufacture textile materials. Worldwide cotton production is annually about 80 to 90 million bales (17.4 to 19.6 billion` kg). China, the United States, India, Pakistan and Uzbekistan are the major cotton-producing countries, accounting for over 70% of world cotton production. The rest is produced by about 75 other countries. Raw cotton is exported from about 57 countries and cotton textiles from about 65 countries. Many countries emphasize domestic production to reduce their reliance on imports.

Global Cotton prices to soften in CS 2017-18

CRISIL Research expects international cotton prices to decline in cotton season (CS) 2017-18, after rising in CS 2016-17. Production is expected to exceed consumption after 2 years of trailing overall demand. Better cotton prices in the previous cotton season compared to other competing crops has resulted in increase in the worldwide cotton acreage. Also, China's policy of continuing with import quotas on cotton, along with steady off-loading of inventory, will continue to act as a dampener on prices (Chinese cotton policy started in CS 14-15 and prior to that China used to account for 30-40% of world imports).

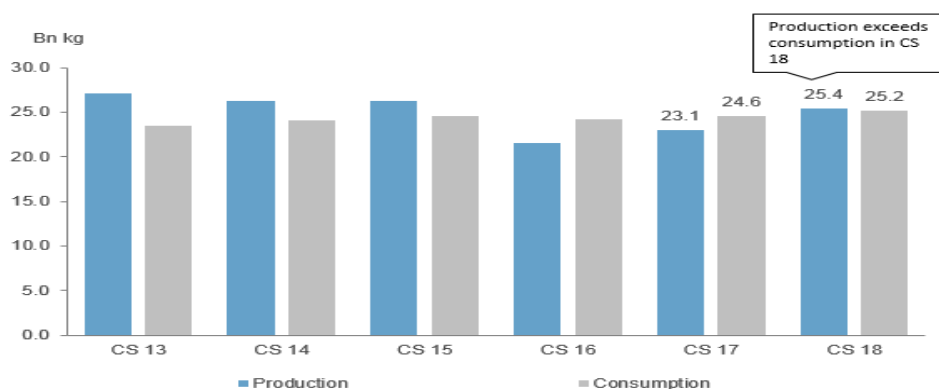

Global Cotton production to Rise

Global cotton production is expected to rise ~10% on-year to 25.4 million tonnes in CS 2017-18.

- Production in India is expected to increase, as estimates indicate ~19% rise in sowing area (~122 lakh hectares). However, we expect yield to decline by ~4% to 534 kg/hectare due to erratic monsoon rains and pressure from pests. Hence, we expect overall production to grow ~14% to ~6.5 million tonnes.

- Among the major cotton-producing nations, the US is expected to account for the highest growth production, up ~23% to 4.6 million tonnes.
- Also, high prices in CS 2016-17 are expected to lead to rise in production in other cotton-producing countries/regions such as Pakistan (by 17% to 2.0 million tonnes), China (by 7% to 5.3 million tonnes) and Brazil (by ~3% to 1.6 million tonnes).

Trends in world cotton production and consumption

Overall, global consumption is also expected to increase 2-3% to ~25 million tonnes, owing to much stronger growth in the global economy in 2017 and 2018. Higher mill use is anticipated in China, India and Pakistan. Bangladesh, and Vietnam, are also expected to see moderate growth, which will fuel consumption.

Note: The years represent international cotton season (August-July).

In 2016, ~2.7 million tonnes of cotton were sold in China's state reserve sales. The government's cotton reserve sale in 2017 began on March 6 and was initially scheduled to be suspended temporarily at the end of August. However, the government had extended sales to continue until the end of September 2017 in order to further reduce reserve stocks. With the current offloading continuing in the next cotton season, we believe ending stocks in China could reach ~8.9 million tonnes. However, ending stocks (at ~13 months of consumption) would still be higher than 4-5 months of consumption, which was the case before China's state support purchase programme started, and led to huge inventory build-up. Hence, with increase in global production and offloading of Chinese cotton, we expect international cotton prices to correct, after the sharp rise witnessed in CS 2016-17.

b) Process

Yarn manufacturing is a sequence of processes that convert raw cotton fibres into yarn suitable for use in various end-products. A number of processes are required to obtain the clean, strong, uniform yarns required in modern textile markets. Beginning with a dense package of tangled fibres (cotton bale) containing varying amounts of non-lint materials and

unusable fibre (foreign matter, plant trash, motes and so on), continuous operations of opening, blending, mixing, cleaning, carding, drawing, roving and spinning are performed to transform the cotton fibres into yarn.

Yarn manufacturing produces yarns for various woven or knitted end-products (e.g., apparel or industrial fabrics) and for sewing thread and cordage. Yarns are produced with different diameters and different weights per unit length. While the basic yarn manufacturing process has remained unchanged for a number of years, processing speeds, control technology and package sizes have increased. Yarn properties and processing efficiency are related to the properties of the cotton fibre.

c) Methods-Spinning

Spinning is the twisting together of drawn-out strands of fibres to form yarn, and is a major part of the textile industry. The yarn is then used to create textiles, which are then used to make clothing and many other products. There are several industrial processes available to spin yarn, as well as hand-spinning techniques where the fibre is drawn out, twisted, and wound onto a bobbin.

Ring spinning is one of the most common spinning methods in the world. Other systems include air-jet and open-end spinning, a technique where the staple fibre is blown by air into a rotor and attaches to the tail of formed yarn that is continually being drawn out of the chamber. Other methods of break spinning use needles and electrostatic forces.

(Source: [https://en.wikipedia.org/wiki/Spinning_\(textiles\)](https://en.wikipedia.org/wiki/Spinning_(textiles)))

Ring Spinning machine

Open end spinning- (Rotor Spinning)

The processes to make yarn short-staple yarn (typically spun from fibres from 0.75 to 2.0") are blending, opening, carding, pin-drafting, roving, spinning, and—if desired—plying and dyeing. In long staple spinning, the process may start with stretch-break of tow, a continuous "rope" of synthetic fibre. In open-end and air-jet spinning, the roving operation is eliminated. The spinning frame winds yarn around a bobbin. Generally, after this step the yarn is wound to a cone for knitting or weaving.

In a spinning mule, the roving is pulled off bobbins and sequentially fed through rollers operating at several different speeds, thinning the roving at a consistent rate. The yarn is twisted through the spinning of the bobbin as the carriage moves out, and is rolled onto a cop as the carriage returns. Mule spinning produces a finer thread than ring spinning. Spinning by the mule machine is an intermittent process as the frame advances and returns. It is the descendant of a device invented in 1779 by Samuel Crompton, and produces a softer, less twisted thread that is favoured for fines and for weft.

The ring was a descendant of the Arkwright water frame of 1769 and creates yarn in a continuous process. The yarn is coarser, has a greater twist, and is stronger, making it more suitable for warp. Ring spinning is slow due to the distance the thread must pass around the ring. Similar methods have improved on this including flyer and bobbin and cap spinning.

The pre-industrial techniques of hand spinning with spindle or spinning wheel continue to be practiced as a handicraft or hobby, and enable wool or unusual vegetable and animal staples to be used.

Spinning is the single most costly step in converting cotton fibers to yarn. Currently, over 85% of the world's yarn is produced on ring-spinning frames, which are designed to draft the roving into the desired yarn size, or count, and to impart the desired amount of twist. The amount of twist is proportional to the strength of the yarn. The ratio of the length to the length fed can vary on the order of 10 to 50. Bobbins of roving are placed onto holders that allow the roving to feed freely into the drafting roller of the ring-spinning frame. Following the drafting zone, the yarn passes through a "traveler" onto a spinning bobbin. The spindle holding this bobbin rotates at high speed, causing the yarn to balloon as twist is imparted. The lengths of yarn on the bobbins are too short for use in subsequent processes and are doffed into "spinning boxes" and delivered to the next process, which may be spooling or winding.

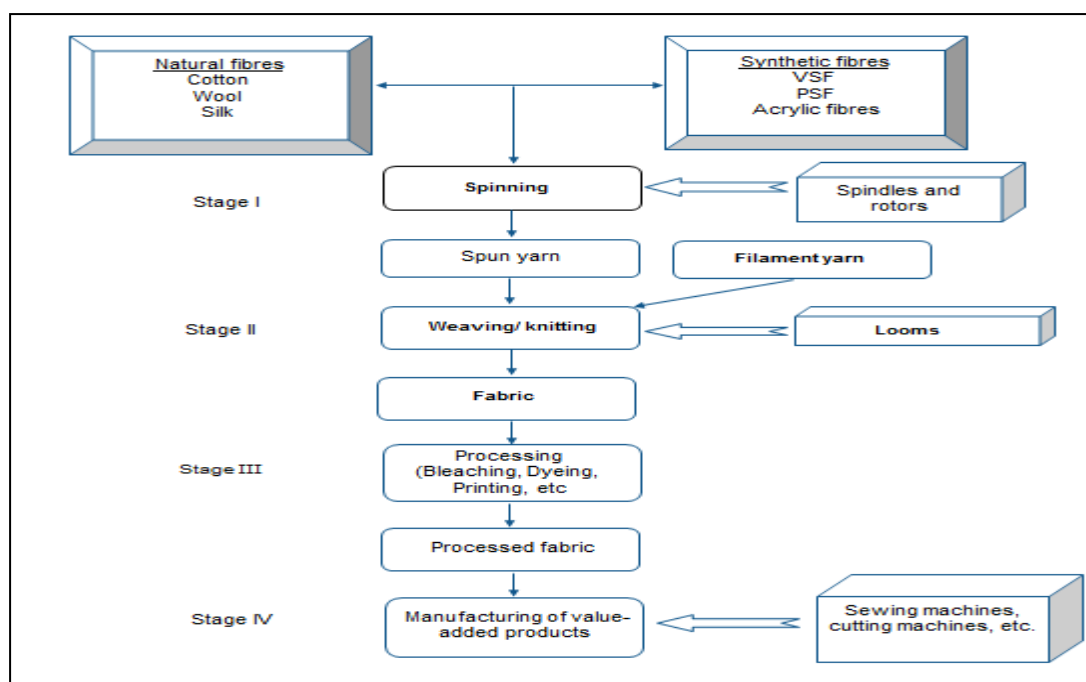

In the modern production of heavier or coarse yarns, open-end spinning is replacing ring spinning. A sliver of fibers is fed into a high-speed rotor. Here the centrifugal force converts the fibers into yarns. There is no need for the bobbin, and the yarn is taken up on the package required by the next step in the process.

Considerable research and development efforts are being devoted to radical new methods of yarn production. A number of new spinning systems currently under development may revolutionize yarn manufacturing and could cause changes in the relative importance of fiber properties as they are now perceived. In general, four of the different approaches used in the new systems appear practical for use on cotton. Core-spun systems are currently in use to produce a variety of specialty yarns and sewing threads. Twistless yarns have been produced commercially on a limited basis by a system that bonds the fibers together with a polyvinyl alcohol or some other bonding agent. The twistless yarn system offers potentially high production rates and very uniform yarns. Knit and other apparel fabrics from twistless yarn have excellent appearance. In air-vortex spinning, currently under study by several machinery manufacturers, drawing sliver is presented to an opening roller, similar to rotor spinning. Air-vortex spinning is capable of very high production speeds, but prototype models are particularly sensitive to fiber length variations and foreign matter content such as trash particles.

GLOBAL ECONOMIC ENVIRONMENT

The global economy is gathering pace and is expected to accelerate from 3.2 per cent in 2016 to 3.6 percent in 2017 and 3.7 percent in 2018 which reflects an upward revision of the earlier projections by the IMF (Table 1). The upward revision in world growth is supported by better than expected results in the first half of 2017 in Euro Area, Japan, emerging Asia and Russia even though there are downward revisions in USA and UK. World trade volume is projected to increase from 2.4 percent in 2016 to 4.2 percent in 2017 and 4.0 percent in 2018. Commodity prices (Oil and Nonfuel) are also expected to grow, in contrast to previous years of decline. According to the IMF (October 2017), global recovery is not yet complete, as inflation is still below the target in most advanced economies and commodity exporters, particularly fuel exporters have been hit due to fall in oil prices. While short term risks are broadly balanced, medium-term risks are still tilted towards the downside.

Export growth in 2016-17 was fairly broad based with positive growth in major categories except textiles & allied products, and leather & leather manufactures. In 2017-18 (April - November) among the major sectors, there was good export growth in engineering goods and Petroleum crude and products; moderate growth in chemicals & related products, and textiles & allied products; but negative growth in gems and jewellery.

Exchange Rate

During 2017-18 (up to December 2017), the rupee generally traded with an appreciating bias against the US dollar, barring intermittent depreciation in September and October 2017. The rupee strengthened by 2.5 per cent to a level of Rs.64.24 per US dollar during December, 2017 from the level of Rs.65.88 per US dollar during March 2017 on the back of significant capital flows, both foreign portfolio flows and FDI. Improved macroeconomic conditions coupled with reforms initiated by the Government were mainly responsible for the buoyant capital flows. The rupee was one of the least volatile EM currencies during April-December 2017 and traded in the range of Rs. 63.63 to Rs. 65.76 per US dollar.

On an average, the rupee has appreciated so far against most other major currencies besides the US dollar (April – December, 2017). The rupee appreciated by about 6.0 per cent against the pound sterling, 0.2 percent against the Euro and 9.2 per cent against the Japanese Yen during the period April-December, 2017 over the same period of the last fiscal year (Figure 8).

The forward premia generally exhibited a softening trend during 2017-18 so far (up to January 11, 2018), barring intermittent hardening in September 2017 and January 2018, mainly due to narrowing of interest rate differential between India and the US on the back of policy rate cut by the RBI and increase in the US Fed fund rate. The 6-month forward premia, which stood at 4.9 per cent at end-March 2017 declined to 4.5 per cent on January 11, 2018 and moved in the range of 4.2 per cent to 5.3 per cent during this period (Figure 9).

THE INDIAN ECONOMY

After two sub-par years, interjected by demonetisation and rollout of the Goods and Services Tax (GST), growth is seen recuperating to a respectable 7.5% next fiscal. This, however, is still below the 13-year average.

The key engines supporting the upturn are largely domestic and policy-driven, though a synchronous upturn in global growth will, undoubtedly, provide some tailwind.

While the upturn is a given, aided partly by the low-base effect, we identify four thrust vectors – the four Rs – that will critically determine the extent of pick-up and its sustainability.

Resolution of stressed assets in banking:

- Rural rejuvenation
- Relentless implementation of reforms, and
- Rising global growth

Resolving NPAs through NCLT, especially from the steel sector...

The asset quality issues plaguing the public sector banks have reached such gargantuan proportions – with gross non-performing assets (GNPAs) touching 10.5% - that no meaningful and sustainable economic recovery is plausible without, at least, beginning of a resolution process.

The transparent and time-bound process driven by National Company Law Tribunal (NCLT) offers hope. While haircuts are likely to be deep – at 60%+ in our view in many large cases – the scale and timeframe of recovery will mark a watershed for Indian banking.

We are particularly positive on the steel sector, helped by buoyant global prices and recovering domestic demand.

With improving economy and turning credit cycle, fresh slippages will moderate and NPAs will likely peak at 11% by March 2019. Continued government support though capital infusion, including growth capital, will, however, be critical for the lending cycle to start, a requisite for growth step-up.

An unintended consequence of resolution will be possible slowdown or deferment in private sector capex. This will be driven by two factors – improvement in the utilisation of stressed capacities that move into stronger hands, and reduced financial and management bandwidth for acquirers, especially the strategic ones, for new large projects.

Centre's rural focus will drive jobs and demand

The focus on demand and job creation through spending on rural and labour-intensive infrastructure space is likely to support growth next fiscal, and push demand in the consumer sectors.

Funding, though, remains a concern– with significantly higher reliance on non-budgetary resources for supporting the aggressive spending plan on rural roads, affordable housing and railways.

Progress on reforms mixed, so big traction unlikely from that

The sustainability of recovery also depends on effective implementation of key reforms such as GST, the Real Estate (Regulation and Development) Act, 2016, or RERA, and the Ujwal Discom Assurance Yojana (UDAY), rolled out in the last few years. Each of these has the potential to be transformative in the long run, but near-term efficacy and impact, in our view, is mixed at best.

The most urgent need is to iron out the teething troubles with GST and ease its impact on critical segments such as micro and small enterprises (MSMEs) and exports.

Besides, tax collections remain subdued despite high enrolments. Streamlining procedural issues and improving compliance will be critical for businesses to refocus on growth and fiscal target to be met. Our forecast bakes in stabilisation in the first half of next fiscal.

UDAY, the third attempt to streamline state electricity boards (SEBs), has seen reasonable progress with some states making stronger tariff hikes, but progress on other key fronts, including reduction in transmission and distribution losses, remains slow. Without improvement in SEBs' fortunes, power offtake, new power purchase agreements and resolution of stress in private sector gencos appears distant.

RERA has also muddled through with lack of uniform implementation. Maharashtra has taken the lead, but many states have diluted the provisions, numbing the overall impact. While RERA has increased the cost of compliance and is expected to lead to consolidation in the sector, our analysis of launch activity in the last two years suggests no meaningful change. Admittedly, for a highly fragmented sector with deep-rooted practices, change is expected to be only gradual. However, for the benefits – lower risk, improved transparency – to flow through, more forceful implementation needs to be pursued.

On the other hand, the affordable housing segment is witnessing unprecedented action from both, the government and private sector. We expect the momentum in this area to gather

pace in fiscal 2019 with higher budget allocations and increasing attention of private players, given subdued demand in other segments.

Global growth resurgent, but exports are unlikely to be on a tear

Global growth is gathering pace, and the momentum in global trade is expected to continue in 2018 as well. This should buoy India's exports, but the pick-up is unlikely to be material, given poor local infrastructure, higher cost of capital and labour productivity issues. This needs urgent mend since, as S&P Global Chief Economist Paul Gruenwald points out in our report, global growth is unlikely to sustain at these levels beyond the next 1-2 years.

Corporate performance to mirror macros, EBITDA growth to hit double digits

Corporate performance will mirror improving macros with revenue growth exceeding inflation meaningfully for the first time in over five years. We expect India Inc (excluding banking, financial services and insurance, and oil and gas companies) to report double-digit growth in earnings before interest, tax, depreciation and amortisation (EBITDA) for the first time in eight years. Revenue growth, too, is projected to touch a seven-year high.

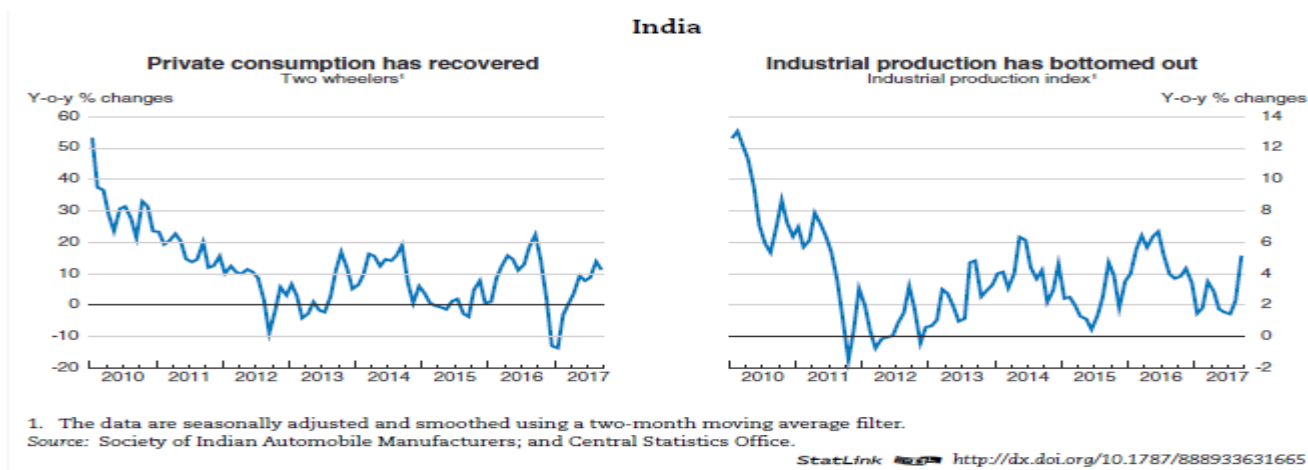

(Source: <https://www.crisil.com/en/home/our-analysis/reports/2018/02/crisils-india-outlook-2018-the-fours-of-growth.html>)

OUTLOOK FOR GROWTH

Economic growth is projected to strengthen to above 7%, gradually recovering from the transitory adverse impact of rolling out the Goods and Services Tax (GST) and measures to choke off the black economy, including demonetisation. In the longer run, the GST will boost corporate investment, productivity and growth by creating a single market and reducing the cost of capital equipment. Investment will be further supported by the plan to recapitalise public banks and by the new road plan.

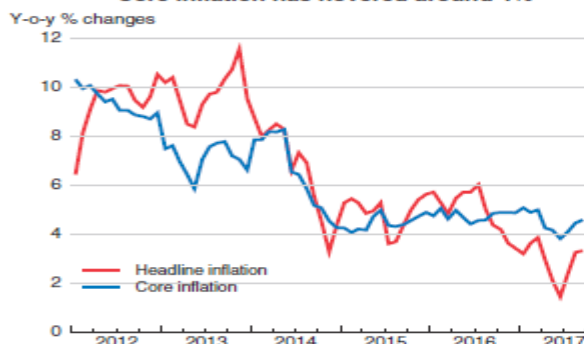

Recent measures to digitise the economy and improve tax compliance should boost tax revenue in the medium term. They are accompanied by an increase in public pensions and wages, as well as debt write-offs in some states, resulting in a broadly neutral fiscal stance over the projection period. Given the high public debt-to-GDP ratio, increasing social infrastructure, such as health and education, will require raising more property and income tax revenue. With inflation expectations adjusting down, there could be room for further cuts in interest rates if inflation durably remains below 4%.

Non-performing loans have increased, largely reflecting recognition efforts, and are particularly high in public banks. Steps have been taken to clean up banks' balance sheets, giving creditors more control over the stressed entities. A new bankruptcy law is also being implemented. The large recapitalisation plan for public banks should be accompanied by governance reform. External debt remains low and foreign exchange reserves have increased, reducing vulnerabilities.

INDIAN COTTON YARN INDUSTRY

Indian Scenario of Cotton Prices

Cotton is one of the most important cash crops and accounts for around 25% of the global fibre production. In the raw material consumption basket of the Indian Textile Industry, the proportion of cotton is around 59%. It plays a major role in sustaining the livelihood of an estimated 5.8 million cotton farmers and 40-50 million people engaged in related activities such as cotton processing & trade. The consumption of cotton is more than 300 lakh bales (170 kg each) per year.

Yarn demand to rebound in 2017-18 after a decline observed in 2016-17

Overall yarn demand declined ~1% on-year in 2016-17, as derived demand (yarn used for manufacturing readymade garments and home textiles that are exported) slowed down considerably and direct yarn exports had declined sharply as high domestic cotton prices rendered yarn exports unviable. In 2017-18, we expect direct yarn exports to slightly improve (3-4%) on back of favourable cotton prices. Domestic demand is expected to grow moderately (4-5%) in fiscal 2018 as demand slowed down in H1 FY 18 on account of GST rollout.

Over the long term, yarn demand is expected to slow down at 3-3.5% CAGR, from 5.5% growth in previous five years. While domestic and derived demand will offer respite, exports are expected to slow down in the long term. Exports are expected to slacken as China's domestic yarn production is pegged to become more viable due to market-oriented cotton auctions which reduce the incentive for yarn imports.

Cotton prices to decrease in 2017-18 season

CRISIL Research expects domestic cotton prices to decline from ~117 per kg in cotton season (CS) 2016-17 to ~ 100-105 per kg in CS 2017-18, due to increase in cotton production. Production has risen as farmers have switched back to cotton following price surge in CS 2016-17. Also, demand is expected to increase slightly due to improvement in domestic consumption.

- We expect production to climb up ~14% on-year to ~385 lakh bales of 170 kg each (6,545 million kg) in CS 2017-18, largely on account of growth in cotton acreage across the country, as farmers have reverted to cotton in the current kharif season. Cotton prices rose 13% in CS 2016-17; farmers who cultivated the crop despite government warnings reaped huge profits. Estimates peg ~19% increase in cotton acreage in CS 2017-18 to ~123 lakh hectares. However, overall yield is expected to fall by ~4% to 534 kg/hectare due to erratic monsoon rains and anticipated pest-related losses.

- Domestic consumption is expected to improve to ~315 lakh bales (5,340 million kg), supported by increased mill usage post favorable cotton prices and higher demand from downstream players post initial disruptions after GST roll out. Continued low tax incidence of cotton value chain (5%) as compared to man-made fibers (18%) under GST will also support demand recovery.
- Owing to high production and relatively slower domestic consumption, we expect cotton imports this year to be low at ~20 lakh bales.
- Stock-to-use ratio is expected to increase to 2.6 months in CS 2017-18 from 1.3 months in previous season.

Bumper cotton sowing estimated this kharif season

According to the Ministry of Agriculture, planted area under cotton reached 123 lakh hectares as of September 29, 2017 compared to 103 lakh hectares in CS 2016/17. Planted area is 19% higher than last year; it is also 7% higher than the 5-year average of 115 lakh hectares.

In Gujarat, cotton planted area is higher by 10% from last year. While there has been flooding in northern Gujarat, most of the cotton area remains in a good condition. In Maharashtra, while acreage for cotton has increased by almost 400,000 hectares compared to the previous year, yields are forecast to be lower than last year due to poor rains. Most cotton-growing districts in the eastern region (Vidarbha) of Maharashtra have received inadequate monsoon rains. Cotton acreage is expected to rise in Telangana and Andhra Pradesh as well, but yield forecasts remain low due to inadequate rainfall and pest pressure in major cotton-growing districts.

Yarn consumption to revive in 2017-18

We believe yarn demand to pick up in 2017-18 due to expected revival in direct yarn exports after sharp decline in 2016-17 on account of high cotton prices. Domestic demand is expected to grow moderately in 2017-18 as demand slowed down in H1 2017-18 on account of GST rollout. Derived demand is expected to revive slightly as demand from non-traditional markets recovers, and the US and EU markets show improvement in clothing consumption.

However, strong rupee and reduction in duty drawback rates will ensure that the derived demand growth falls below the five-year average of 3.5-4.0% in 2017-18. Cotton fabric production is estimated to have declined by 4% in H1 FY 18 which serves as an indicator of weak domestic and derived demand. Also, direct yarn exports are estimated to have fallen by ~10% in H1 FY 18. However, we expect the demand to pick up in second half of the year as GST operational issues get streamlined as well as low cotton prices support direct yarn exports. Overall, we expect the yarn demand to post 3.5-4% growth in FY 18. In the long run, improved economic activity and rising disposable income are expected to support domestic demand.

The estimate consumption of cotton yarn to be driven by three factors:

1. Domestic use in clothing and home textiles
2. Derived demand, i.e., cotton yarn used in apparel, home textiles, and exported fabrics
3. Direct exports of yarn

Domestic demand to grow at a moderate pace in fiscal 2018

CRISIL Research projects cotton yarn demand to post a compound annual growth rate (CAGR) of 3-4% between 2016-17 and 2021-22, on expectations of increased economic activity. A steady rise in ready-made garments (RMG) and home-textile sales in an improving economy will spur cotton yarn offtake in the long run. However, substitution towards man-made yarn due to cost competitiveness in the domestic market will cap the long-term demand growth.

Long-term derived demand to fray

We expect derived demand growth to slightly recover in 2017-18, as demand from non-traditional markets recover and apparel consumption in the United States (US) and European Union (EU) improves. However, strong rupee and reduction in duty drawback benefits under GST (from ~7.5% to 2%) will impact price competitive RMG and home textile exports industry. Hence, derived demand is expected to grow at 2-3% in 2017-18, lower than the average growth of 3.5-4.0% witnessed over the past five years.

Minimal impact of declining labour intensity on operating margins

A continuous rise in the employee cost has led to high automation in the industry. As per primary research, the labour cost has increased 7-8% in past five years and is currently at Rs 300/shift. Due to the faster rise in costs and higher government incentives for modernisation through Technology Upgradation Fund Scheme (TUFS), the industry's labour intensity has gradually declined. Compared with 20 employees required per 1000 spindles in 2005-06, the intensity has come down to 17 employees. Even though the current automation is at high levels, some areas such as inter-process material transfer and packaging departments are still highly labour intensive. Hence, with incremental improvements in productivity and a slower rise in spun yarn production, we expect a 25% fall in incremental employee addition over the next five years. However, with relatively lower labour intensity (compared with readymade garments) and an increase in higher-paid skilled labour

requirement, the impact on the overall operating profitability would be marginal in the near term. Major gains on this front can be expected only when the overall demand picks up and the industry's utilisation improves significantly.

Bt cotton aims to improve and protect cotton yields

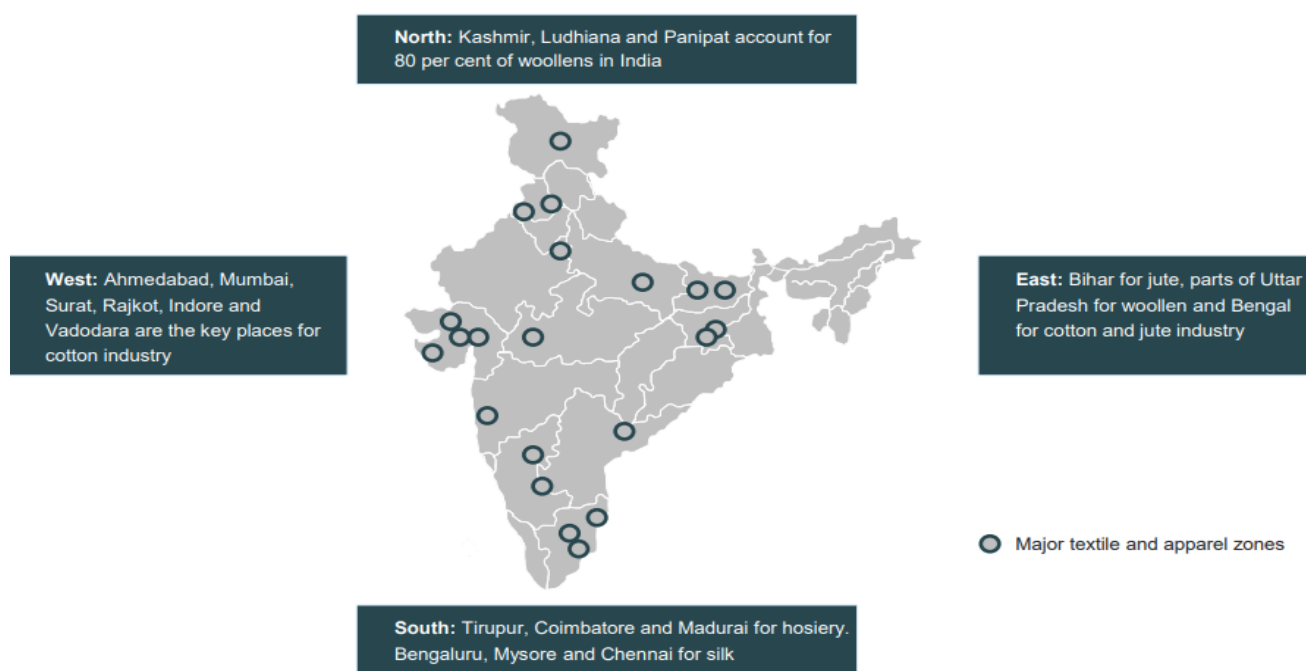

Cotton, the key input in cotton yarn, accounts for 55-60% of the operating income of cotton yarn producers. In India, the cotton season is from October to September, with cotton arrivals peaking during November to February. Most spinning companies purchase cotton during these months. To improve cotton yields, *Bacillus thuringiensis* (Bt) cotton seed was introduced in March 2002. Bt cotton is a genetically engineered cotton seed that protects the yield against pests, such as bollworm and budworms. It is the first and only transgenic crop to be approved by the Genetic Engineering Approval Committee (GEAC). It is used for commercial cultivation in the majority of states and still accounts for more than 90% of area.

Domestic production expected to increase in CS 2017-18

We expect production to climb up ~14% on-year to ~385 lakh bales of 170 kg each (6,545 million kg) in CS 2017-18, largely on account of growth in cotton acreage across the country, as farmers have reverted to cotton in the current kharif season. Estimates peg ~19% increase in cotton acreage in CS 2017-18 to ~123 lakh hectares.

KEY COTTON YARN ZONES IN INDIA

Note: 2011-12 As Per Latest Available Information

(Source: Textile and Apparel Report April 2018 - India Brand Equity Foundation www.ibef.org)

CHALLENGES FACED BY THE INDIAN COTTON YARN INDUSTRY

The problems of Cotton Industry in India:

- Long staple cotton is not well grown in many parts of India.
- Many of the factories are old and, as such, productivity has been lowered. The plants and machinery employed in many of our textile mills are now out of date. They were put to intensive use and have considerably deteriorated.

- High cost of advanced machinery is an unavoidable hindrance for the procurement of new machinery. For this reason, the much-needed replacement had to be deferred for many years.
- The high cost of production is also effectively retarding the growth of this important industry.
- There is competition from synthetic fibres like polyester, etc.
- There is competition in the International Market from Bangladesh, Japan, China, and Britain, etc.
- Great difficulties are being experienced by mill-owners in obtaining the capital needed for modernization.

GOVERNMENT POLICIES

Favourable government policies helped industry

Government policies have a significant impact on the Textile industry. The National Textiles Policy aims to ensure that the industry is internationally competitive in terms of manufacturing practices and exports. The government launched textile packages such as the Technology Upgradation Fund Scheme (TUFS) -introduced in 1999 - to improve productivity and make the industry cost-competitive. Similarly, the EXIM Policy contains export promotion measures such as the Duty Entitlement Pass Book Scheme (DEPB) and duty drawback schemes.

Various schemes

Foreign trade policy for the period 2015 to 2020

The government announced the new foreign trade policy (FTP) on 1st April 2015 for the period 2015 to 2020. This policy provides a framework for increasing exports of goods and services to \$900 billion by 2020. The policy introduced two new schemes vis-a-vis Services Exports from India Scheme (SEIS) and Merchandise Exports from India Scheme (MEIS).

- SEIS in order to boost exports of notified services. The rates of rewards under SEIS will range from 3-5 per cent as compared to 5-10 per cent range earlier.
- MEIS targeting export of specified goods to specified markets. The rates of rewards under MEIS will range from 2-5 per cent as compared to earlier 2-7 per cent range.

The textile sector has been granted duty scrips of 2 per cent for cotton textile products and 5 per cent for handloom, carpet and coir products. However, cotton yarn is not expected to get any benefits under this scheme.

Technology Upgradation Fund Scheme (TUFS)

The textiles industry is capital-intensive and requires huge investments. The investments were hindered as interest rates in India were very high during the 1990s. So the Union Ministry of Textiles launched TUFS in 1999 to upgrade technology at textile units. The Union Government set up a ~250 billion fund under the TUFS for providing aid to textile projects. The scheme commenced on April 1, 1999. It initially provided a 5 per cent interest subsidy on loans borrowed from specified institutions to all segments within the textiles value chain. Spinning has benefited the most through TUFS. As of June 2010, spinning mills received 34 per cent of the total funds disbursed under TUFS.

In 2011-12, the scheme was renamed as Restructured Technology Upgradation Fund Scheme (R-TUFS) with a few changes. The refurbished scheme provided a reimbursement of 5 per cent on interest charged by the lender, for loans taken to upgrade technology at a textile unit. However, for spinning machinery the scheme provided a 4 per cent interest reimbursement for new standalone spinning machinery or for replacement/ modernisation of the same. However, spinning units, which also have equivalent weaving/ knitting/ processing/ garmenting capacities, will be granted a 5% reimbursement.

On 13th January 2016, a new scheme "Amended technology Upgradation Scheme (ATUFS)" has been approved by the government, which will provide one-time capital subsidy for investments in the employment and technology intensive segments of the textile value chain. Under ATUFS, no subsidy will be provided for spinning sector. Every other individual entity will be eligible for one-time Capital subsidy only as per the rates and the

Sl No.	Segment	Rate of Capital Investment Subsidy	CIS per individual entity
1	Garmenting, Technical Textiles	15 % on eligible machines	Rs 0.3 Bn*
2	Weaving for brand new shuttle-less looms(including weaving preparatory and knitting),Processing, Jute, Silk and Handloom	10 % on eligible machines	RS 0.2 Bn*
3(a)	Composite Unit /Multiple segments - If the eligible capital investment in respect of Garmenting and Technical textiles category is more than 50 % of eligible project cost	15 % on eligible machines	RS 0.3 Bn*
3(b)	Composite Unit /Multiple segments - If the eligible capital investment in respect of Garmenting and Technical textiles category is less than 50 % of eligible project cost	10 % on eligible machines	RS 0.2 Bn*

* In case the applicant had availed subsidy earlier under RR-TUFS, he will be eligible for only the balance amount within the overall ceiling fixed for an individual entity

overall subsidy cap indicated below:

Rajasthan Investment Promotion Scheme, 2014

The Government of Rajasthan vide their notification No.F.12(28)FD/Tax/2010 Pt.I-114 Jaipur, dated October 08, 2014 implemented the interest and other subsidy scheme for the textile sector. Under this scheme all enterprises manufacturing/processing all kind of fibres, yarn, fabrics, garments, apparels, hosiery, made-ups using such processes as spinning (which includes blow room to yarn packaging, Ring Spinning, Rotors or Jet Spinning), Weaving, Dyeing & Processing, Knitting, Machine Carpeting, Machine Embroidery and any other activities/process like crimping, texturizing, twisting, winding, sizing etc. within the entire Textile value chain are eligible for the subsidy.

The details of subsidy for textile sector under the scheme is as under:

Enterprises making a minimum investment of twenty five lakh rupees in the textile sector shall be granted the following benefits for the period as mentioned in clause 10.7 of the Scheme:

- 5% interest subsidy;
- additional 1% interest subsidy for enterprises making investment more than Rs.25 crore;
- 7% interest subsidy for Technical Textile Sector;
- Capital Subsidy on zero liquid discharge based effluent treatment plant equivalent to 20% of amount paid to the suppliers for the plant excluding civil work, subject to a maximum of Rs.1crore;
- 50% reimbursement of VAT on purchase of yarn, fibre, recycled fibre yarn, cotton and pet bottles for use in manufacture of goods within the State, for sale by him; and
- 50% exemption from payment of Entry Tax on capital goods, for setting up of plant for new unit or for expansion of existing enterprise or for revival of sick industrial enterprise, brought into the local areas before the date of commencement of commercial production/operation

GST impact mildly positive for cotton spinners

It is expected increased cotton yarn usage in blended fabrics owing to relatively higher tax incidence on manmade fibre following higher tax compliance in the value chain. Also, with the implementation of the Goods and Services Tax, there is significant central sales tax

savings as the spinning industry depends heavily on interstate procurement (Tamil Nadu accounts for ~45% of spindle capacity but only ~2% of cotton production). Operating margin will be relatively unaffected as pricing pressure from downstream segments will likely be offset by benefits obtained under input tax credits not received earlier (duty on packaging, service tax on transportation, etc). Working capital requirements are unlikely to increase significantly because of similar tax incidence on raw material, i.e. GST on cotton is 5%, which is relatively similar to the previous value-added tax.

OUR BUSINESS

This chapter should be read in conjunction with, and is qualified in its entirety by, the more detailed information about our Company and its financial statements, including the notes thereto, in the sections titled 'Risk Factors' and 'Financial Information' and the chapter titled 'Management Discussion and Analysis of Financial Condition and Results of Operations' beginning on page nos. 20, 218 and 252 respectively of this Draft Prospectus.

Unless the context otherwise requires, in relation to business operations, in this chapter of this Draft Prospectus, all references to "we", "us", "our" and "our Company" are to Lagnam Spintex Limited as the case may be.

OVERVIEW

Our company was originally incorporated on June 11, 2010 as a Private Limited under the name and style of Lagnam Spintex Pvt Ltd under the provisions of the Companies Act, 1956 with the Registrar of Companies, Jaipur Rajasthan. Subsequently our company was converted into the public company vide special resolution passed by the shareholders at the EGM held on January, 22, 2018 and the name of the company was converted into Lagnam Spintex Limited.

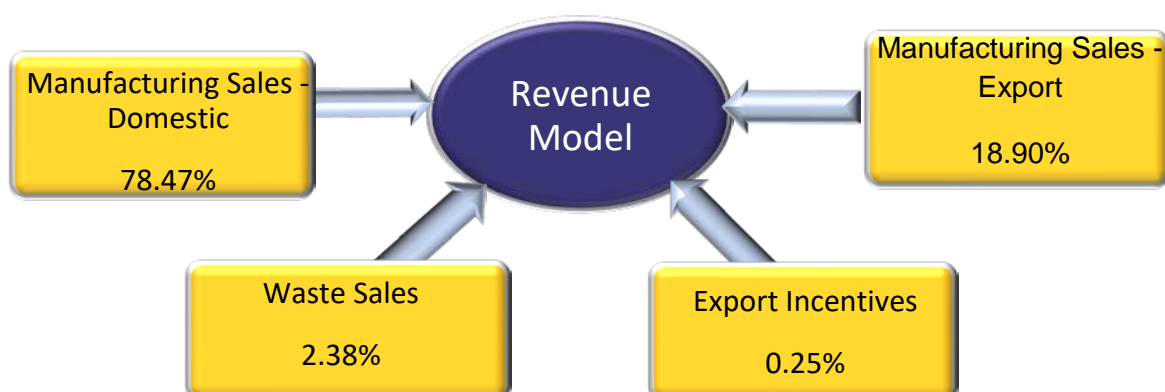

Our company is an **ISO 9001:2015** certified Company engaged in the business of manufacture of high quality yarn for domestic and export market ranging from count Ne 4 to Ne 20 which is used in Denim, Terry Towels, Bottom Wears, Home Textiles and Industrial Fabrics etc.

The manufacturing facility of Our Company is situated at A- 53, RIICO Growth Centre, Hamirgarh of Bhilwara District in Rajasthan State and spreads over 10,000 square meters. Our Company has at present an installed capacity of 1,920 rotors for cotton yarn having capacity to produce 16.5 tonnes per day of high quality yarn. We have continuously expanded and modernized our facilities in line with the industry trend. Our plant is equipped with modern and automatic plant and machinery. The level of advancement determines the productivity of machines and labour, which in turn, determines the production, operating cost and profitability of Our Company. Our technical team in spinning is well equipped with modern spinning technology and processing techniques by virtue of which we are able to ensure quality yarn. Technology is a crucial aspect of the cotton yarn industry.

Our company has been recognised as "One Star Export House" by the Director General of Foreign Trade with a certificate valid from 2017 to 2022. We have also received OEKO Tex certification. We have a dedicated in-house Testing and Quality Control Team which undertakes rigorous testing and quality management. We are one of the few cotton yarn manufacturers globally who have received certification from USTER Technologies AG. We ensure that all product manufactured is of the optimum quality for which we run our yarn through USTER's QC Machines. For details, please refer to "Our Business - Quality Control" on page no. 168 of this Draft Prospectus.

Our Company is presently exporting cotton yarns to countries like Portugal, Italy, Germany, Belgium, South Africa, Slovenia, Columbia, China, Pakistan, Bangladesh and others. We supply to customers, who are in fields like apparel and garment industry, industrial fabrics, towels, Denims etc. At present, Our Company is exporting its products to countries, which are expected to grow in forthcoming times thereby offering more scope for Our Company to develop new markets and to increase our presence accordingly.

The following diagram depicts the breakup of revenue, percentage-wise for the year ending March 31, 2018.

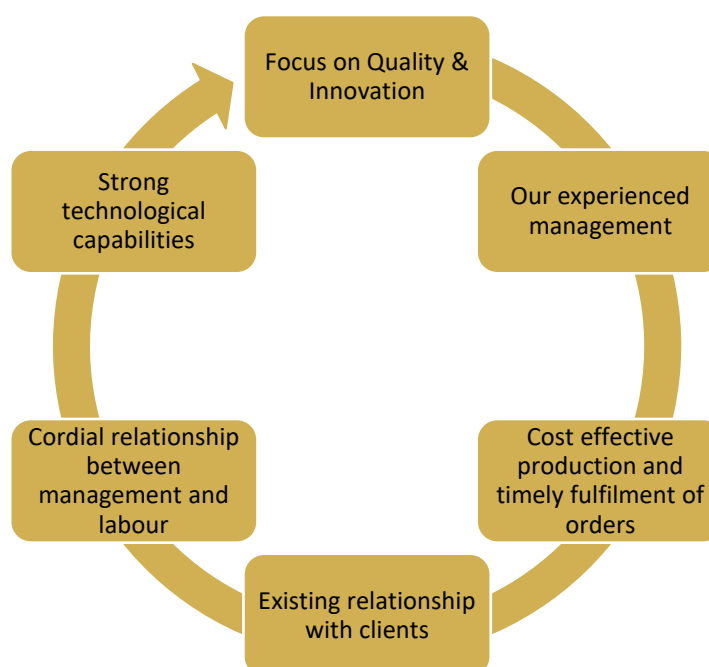

To cope with the continuous growing demand in the overseas and domestic markets and to attain economies of scale, Our Company proposes setting up a new manufacturing facility for high quality Ring Spun carded and combed yarn with capacity of 18.61 TPD with 25,536 spindles at A- 51,52 RIICO Growth Centre Hamirgarh, Bhilwara, Rajasthan. The Company has already purchased the leasehold right for the site where it wishes to set up its new project. The project shall be set up on the land admeasuring 38,263 Sqmt. which is adjacent to existing unit of the company.

With this proposed expansion, the uses for our company's product i.e. yarn will significantly increase by further diversifying end use scope for current offering i.e. increasing product variety in Denim, Terry Towel, Home textiles, Industrial Fabric and also adding Suiting & Shirting, Linen and Home furnishing fabrics to the end use purposes. The company will also be diversifying its product by being able to offer Double yarn on (Two For One Twister) and Slub yarn which will be used in Fancy fabric.

In the past five years our revenues have increased from INR4,983.41 lakhs in F. Y. 2014-15 to INR 5,656.41 lakhs in F.Y. 2015-16, INR 7,538.43 lakhs in F.Y. 2016-17 and to INR 8,454.47 lakhs in F.Y. 2017-18 showing a CAGR of almost 19% over the three years. Our Net Profit after tax for the above-mentioned periods are INR 157.82 lakhs, INR 208.50 lakhs, INR 367.09 lakhs and INR 468.49 lakhs, respectively, showing that the profit after tax of our Company for the last three years has grown at a CAGR of almost 43%.

OUR STRENGTHS

1. Focus on Quality and Innovation

We believe that quality and innovation are bed rock of any successful strategy. We stress on and constantly strive to maintain and improve the quality of our services and products. Our focus on quality and innovation helps us to compete against our peers in the yarn and textile industry.

2. Our Experienced Management

Our Directors and Key Managerial Persons have been engaged in the yarn & textile industry for around quite a few decades now and have a rich experience and goodwill in the market which provides the business with a competitive edge. It is through the constant efforts and experience of our management team that we have been able to build a sustainable business model. We also have employed people in different areas of work who have the required technical competence and qualifications. We strongly believe that the success of our organization lies in the efforts of our human resources.

3. Cost effective production and timely fulfillment of orders

Our Company has taken various steps in order to ensure adherence to timely fulfillment and also to achieve greater cost efficiency as timely fulfillment of the orders is a prerequisite in our industry. These steps include identifying quality yarn, smooth labour relations, use of an efficient production system and ability to meet large and varied orders due to our capacity and linkages with raw material suppliers. Our Company also has enjoyed good relations with our suppliers and as a consequence have the benefit of timely supplies of the raw materials which has been one of the major reasons why we have been able to achieve timely fulfillment of orders of our customers. Our Company constantly endeavours to implement an efficient procurement policy for inputs required for production so as to ensure cost efficiency in procurement which in turn results in cost effective production.

4. Existing relationship with the clients

We focus on building long term client relationship and constantly try to cater customer needs with products in demand. Since we are mainly engaged in B2B business model, our existing clients provide us mandate for continuous services. We trust that our existing relationship and goodwill serves as a competitive advantage in gaining new clients and increasing our business with existing clients.

5. Cordial relationship between management and labor

We enjoy cordial relations with our employees and there has been no union of employees. Further, there have been no strikes, lock-out or any labour protest in our organization since inception.

6. Strong Technological Capabilities

We use latest technology and machinery procured from suppliers/distributors in the world. Not only have we installed the latest machinery to produce high quality yarn, we have also use USTER's state of the art quality check machine thereby ensuring the quality of yarn. These modern machineries also help us in maintaining high quality standards and thus retain various national and multi-national customers.

OUR STRATEGIES

Our vision is to grow in existing and new markets by providing quality services and products. We intend to capitalize on the growing demand for our products in India and abroad. In line with this version, our company is implementing a business strategy with the following key components. Our strategy will be to focus on capitalizing on our core strengths and expanding the operations of our business.

1. Brand image

We intend to build our brand primarily through continued investment in product innovation supported by research and development initiatives, marketing activities and the establishment of long-term relationships with our customers. In the face of increased competition, we believe that it is critical that we maintain the advantages that our products offer over our competitors. We are highly conscious about our brand image and intend to continue our brand building exercise by providing excellent services to the satisfaction of the customers.

2. Invest in infrastructure and technology

Our Company believes in making investments for continuously achieving higher levels of excellence in its products and implement dynamic and diverse specifications of our customers. We have invested significantly in equipping our manufacturing facilities with the latest and specialized infrastructure and modern technology. As a part of our expansion and diversification strategy, we propose to set up an additional facility, a spinning unit, to manufacture ring spun carded and combed yarn with a capacity of 18.61 tonnes per day.

3. Expanding our customer base

Our company has limited clientele as on date and our 55.64% revenue is contributed from top 10 customers only and 38.93% of revenue is contributed from top 5 customers as on 31st March 2018. The company will strive to expand its business operations throughout India and overseas by quality services and latest equipment and marketing of our services.

4. Improving functional efficiency

Our Company intends to improve operating efficiencies to achieve cost reductions to have a competitive edge over the peers. We believe that this can be done through continuous process improvement, customer service and technology development. We continue to invest in operational excellence throughout the organization. We ensure a strong quality commitment by our employees.

5. Diversification of product

The company has been currently producing open end carded cotton yarn from count range NE 4 to 20 which is primarily used in denim, terry towels, home textile and industrial fabric sector, the company is now proposing to extend its product offering in its expansion plan by manufacturing ring spinning carded and combed yarn with counts from 20 to 30, thereby increasing the count range.

6. Leveraging our Marketing skills and Relationship

Leveraging our marketing skills and relationship is a continuous process in our organization. We believe in imparting training to our employees for enhancing their marketing skills. Further we aim to undertake some marketing initiatives as well to increase our brand visibility. Such initiatives shall include print and electronic advertisements, sponsorships, participating in industrial exhibitions on both domestic and international levels, etc.

7. Enhancing existing products and product quality

We believe quality service and products of global standards will be of much importance for customer retention and repeat-order flow. We intend to have close interaction with our customers in a bid to strengthen our relationships with them and enabling us to understand the market perception and demand. We train our employees to consistently design and deliver client focused solutions. We will continue to focus on creating innovative designs through R&D effort.

DETAILS OF OUR BUSINESS

LOCATION

We currently operate from the following office and manufacturing unit in Bhilwara:

Registered Office

A-51-53, RIICO Growth Centre, Hamirgarh, Bhilwara, RJ - 311001

Manufacturing Factory Unit

Existing Unit: A-53, RIICO Industrial Area, Hamirgarh, Bhilwara (Raj) – 311001

Proposed New Unit: A-51, 52, RIICO Industrial Area, Hamirgarh, Bhilwara (Raj) – 311001

For further details of ownership/ lease of the above locations, please refer to “Our Business – Properties & Land” on page no. 174 of this Draft Prospectus.

EXISTING MANUFACTURING FACILITY

Our manufacturing facility includes machinery for production of cotton yarn and quality control/ inspection. We have invested in the latest technology and upgraded our machinery in the year 2015 which has aided us in manufacturing better quality yarn and also adapt to latest trends more swiftly.

Plant and Machinery

The existing Plant and Machinery at our Manufacturing Units are:

PRODUCTS

Our Company is engaged into production of cotton yarns, which is used for Denim, Terry Towel, Knitting, Weaving, Home Textile and Industrial Fabric.

Yarn is the end product of spinning. It is the primary component for any Cotton woven or knitted fabric. Cotton yarn is used to make different type of fabrics. In some cases, the cotton yarn is blended with some other yarn in different ratios to provide different effects like shining or to lend more elasticity to the yarn. It is the yarn count and the twisting mode of the yarn that actually determines the overall strength and look of the manufactured fabric.

Cotton Yarns are usually used by various manufacturers for the following end uses:

- Denim
- Bottom Wears
- Industrial fabrics
- Home Textile
- Bed Sheets
- Terry Towels

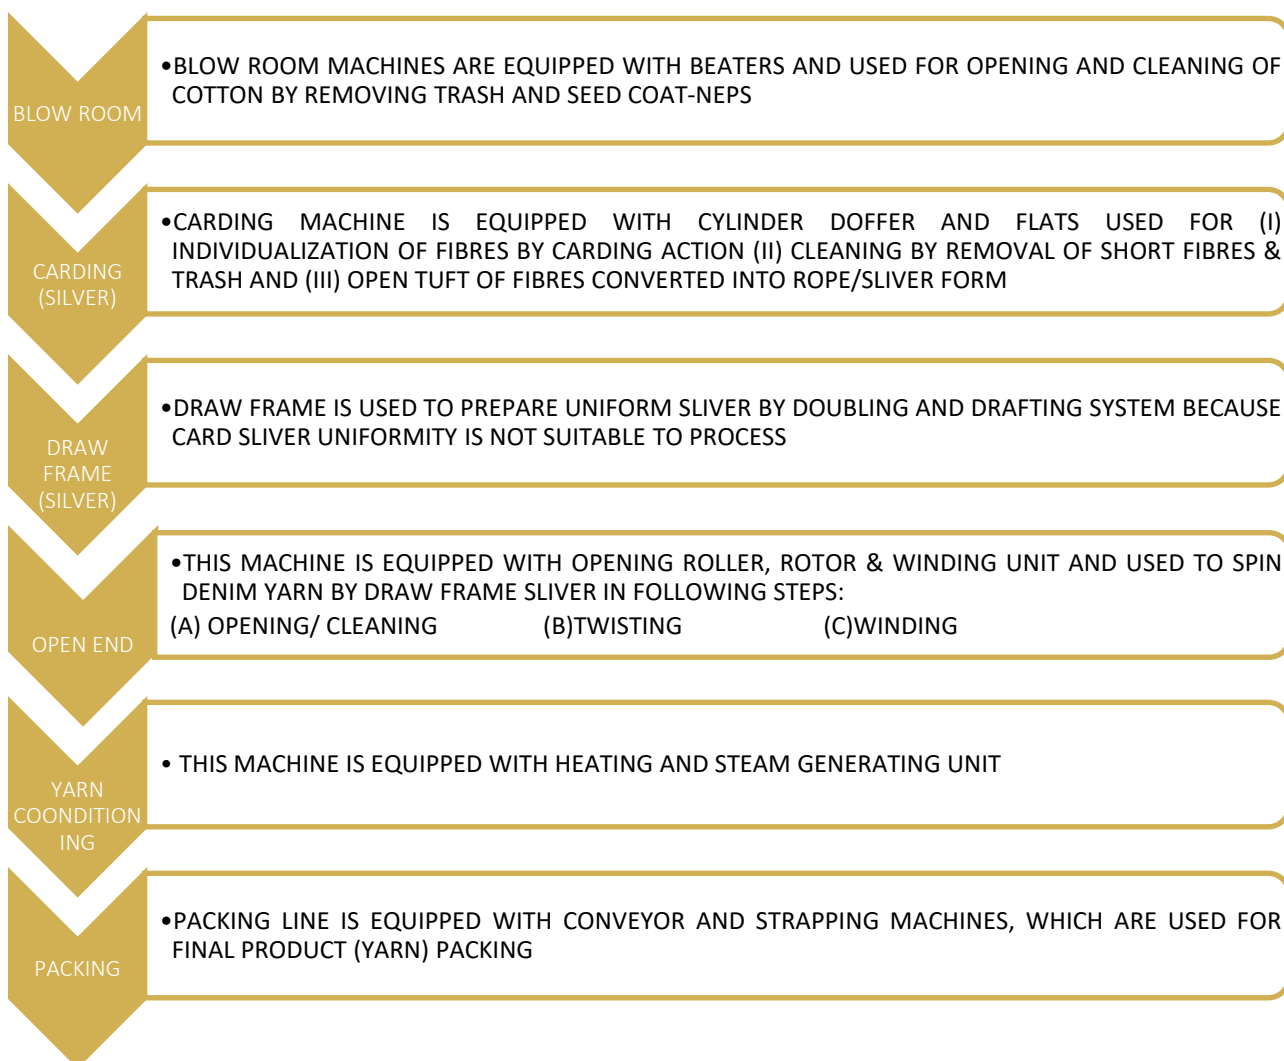

We are supplying cotton yarn so produced to customers in India and also to customers based out of Germany, Portugal, Slovenia, Pakistan, Columbia, Italy, Belgium, Turkey, China, Bangladesh etc.

RAW MATERIALS

The key raw material used for manufacturing cotton yarn is cotton. We mostly procure cotton domestically and at times from international market depending upon the time, quality and availability of domestic cotton. The vendors of raw cotton are identified based on the several parameters like the quality of raw material, price competitiveness and the time taken for delivery. Our Company normally procures cotton from surrounding areas viz., Bhilwara, Bijaynagar, Beawar, Fatehnagar, Kotdi, Kapasan, Suwana, Akola. The locations are well connected with Udaipur Airport and Bhilwara railway station. Our Company keeps adequate stock of cotton to cover the existing order book position. Our major suppliers are Chamundia Cotton Industries, Daga Cotton, Krishna Ginning Factory, Glenore Agriculture B V, Olam International Limited, Nakoda Trading Company, Anant Spinning Mills, Mahaveer Enterprises, S. K. Textiles, Nitin Spinners, Jalaram Ginning Factory etc.

MANUFACTURING PROCESS

A) Existing Manufacturing Process

Our manufacturing process of 100% Open End Cotton Yarn comprises cotton testing, cleaning of cotton (blow room stage) elimination of short fibres & impurities (carding), parallelization of fibres (draw frames), spinning (Open End), post spinning operations like yarn conditioning and packing.

1) Cotton Testing

Cotton, which is the raw material for manufacturing cotton yarn, undergoes strict quality tests in Quality Control Laboratory (QC Lab) for fibre length, fineness, strength, maturity, rigidity, fibre friction and structural features. Once it passes the tests it becomes ready for further processing.

2) Cleaning of Cotton

Blow Room

A blow room line consists of bale opening cotton, cleaning, mixing and lap making. Impurities of cotton have to be removed during this process. This process involves various functions like opening of Bale and removing impurities of cotton like trash and other foreign matter. The procedure is to be carried out with least loss of Lint. Apart from cleaning, mixing of various cotton varieties is also carried out in this section. The mixed cotton is converted into laps (thick sheet of cotton). The laps are transferred for further process of carding.

3) Elimination of Short Fibers & Impurities

Carding

Blow Room provides uniform feeding to carding machines. The Picker Lap undergoes carding to remove short fibre and eliminates impurities and dust to provide additional orientation and alignment of individual fibres. The Carded Lap is removed by Doffer Cylinder in the form of rope/sliver, which undergoes additional blending to improve uniformity and density, which is carried out by Carding Machines.

Draw frame

The carded slivers received in the can are further drawn on Draw frames. The function is to make the sliver more uniform in the thickness by doubling process to make it suitable for further drawing. The sliver after doubling process has to be reduced to the required thickness for yarn to be spun.

4) Open End Machine

Open end machine convert sliver into yarn. Its production rate is 5 to 7 times higher compared to ring frame. Open End Yarns are very bulky and uniform. This open-ended machine is equipped with opening roller, rotor & winding unit and used to spin yarn by draw frame sliver in following steps-

- (i) Opening/ cleaning
- (ii) Twisting
- (iii) Winding

5) Post Spinning Operations

Yarn Conditioning Department

This machine is equipped with heating and steam generating unit. The aim of conditioning is to provide lasting improvement in yarn quality by supplying the necessary moisture in a short time. Conditioning enhances twist stability and consistency in yarn properties.

Packing

Packing line is equipped with conveyor and strapping machines, which are used for final product (yarn) packing. Each individual cone of yarn undergoes Ultra Violet (UV) Rays check. Yarn is then packaged in poly-bags and put into cartons or packaged as per the request of the customer.

Quality Control

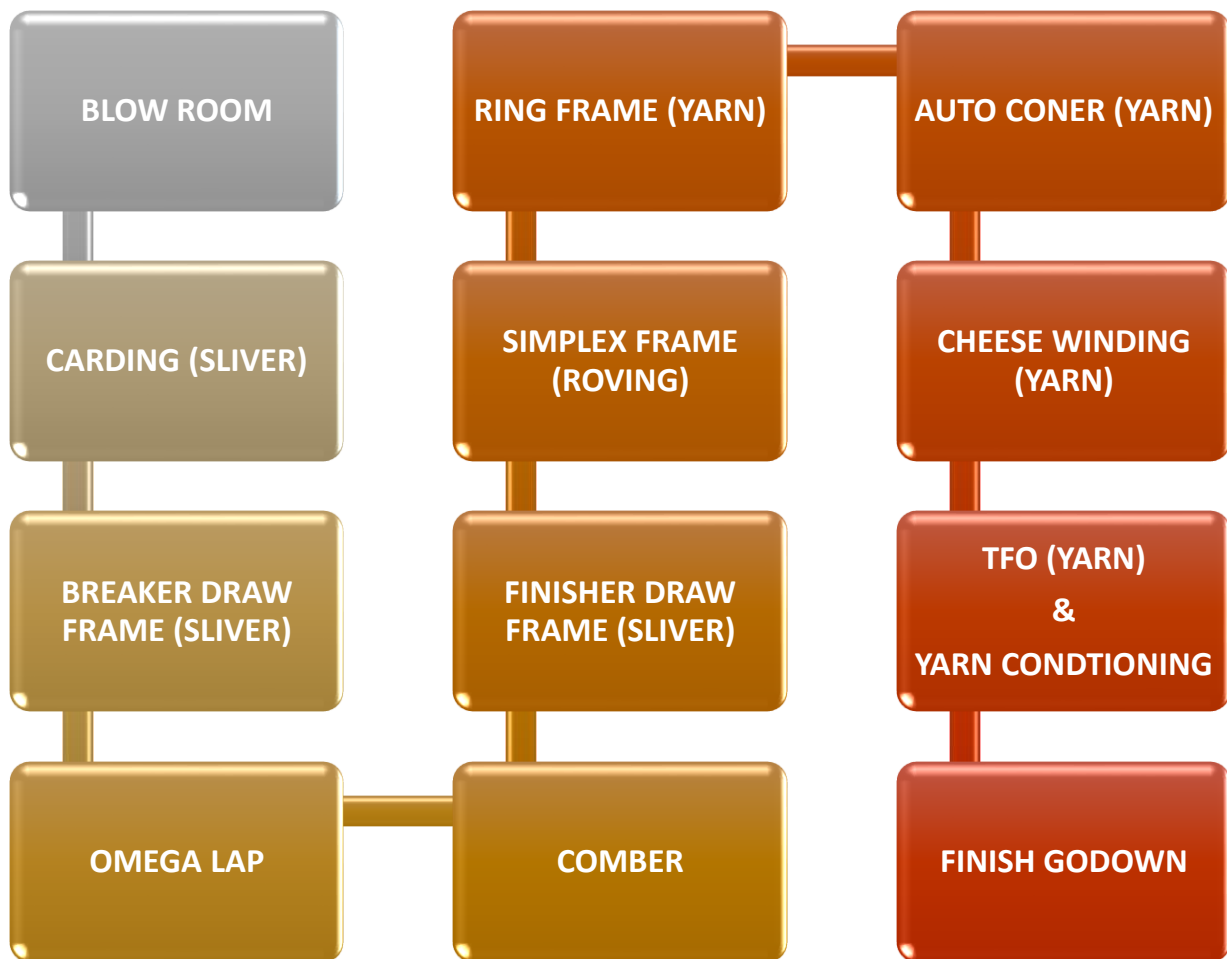

On receipt of cotton in our plant we take samples of 10% bales from each lot and it is tested for moisture and trash content in the cotton. Subsequently we analyse cotton through “Advance Fibre Information System” (AFIS) from the USTER AG Switzerland for length, Micro Nair, Maturity Ratio, Neps, short fibre contents and seed cots Nepsetc before final approval of the cotton.

Based on Lot wise and bale wise cotton test result, we issue cotton for processing by Bail Management System. In subsequent process at carding, breaker, finisher draw frame we check USTER and other yarn Parameter on regular basic on UT-5 machine. While producing final yarn on open end spinning machine we again check USTER values, thin, thick, Neps, IPI levels for each lot. In addition, we also check regularly CSP and RKM of yarn which is important test to check strength of the yarn.

We further check yarn on USTER Classimat 5 which is the most sophisticated and highly sensitive testing instrument available in the world giving in advance the “**Objectionable Fault**” which may affect the fabric quality and we can take corrective majors and change the process parameters accordingly. We have the most advance quality control equipment such as **AFIS, UT5, TENSORAPID 4, Classimat 5** from USTER AG SWITZERLAND. We have been authorized to use the **USTERIZED trademark** by USTER AG Switzerland which has been given by them to very few textiles companies in the world. With continues testing of cotton & yarn at each stage, we assure consistent quality to our customer in domestic and export market.

B) Manufacturing process of new additional manufacturing facility.

Process Flow Chart: For ring spinning unit (New proposed project)

Raw Material:

Raw Material will be brought into the manufacturing plant from bale godown. The storage capacity of this godown is for approximately 2-3 months.

Blow room:

Raw Material is arrived in bale form:

- To open the baled fibers into small tufts which will allow foreign matters to be separated from the fibers and prepare the material for easy carding
- To clean the fibers by removing the foreign matter as the waste - the foreign matter consists mainly of seeds, seed – coats, leafy matter and sand/ dust in the case of cotton and of fused fibers/ chips in the case of manmade fibers
- To mix thoroughly the different component fibers of a mixing so as to give a homogeneous blending
- To provide uniform feed to the carding machine
- To recycle the spinning waste

Carding:

Clean fibre from blow room feed to the carding via Chute feed, where carding has to be performed:

- Individualize the fibers
- Reduce the neps present in the feed material & those formed in carding presumably by disentangling them or by throwing them in waste
- Eliminate the dust and short fibers
- Blend and orient the fibers
- Form out of the Carded fibers a continuous uniform sliver of the required hank

Draw frames (Breaker Passage):

- The function of draw frame is to achieve parallelization of fibers and to achieve blending of fibers by feeding no. of card cans. The sliver from the card is processed through draw frame to even out the variations in the sliver by doubling 6/8 slivers into one and to achieve fiber parallelization
- Parallelization of the crisscrossed fibers of the card sliver with one another & align them to the axis of the sliver through the process of drafting
- Removal of the hooks from fibers after carding and straighten the fibers by sliding them over one another during drafting
- Improve regularity in weight per unit length over a considerable length of the material through doubling of a number of slivers from different cards
- Thoroughly mix different types of fiber so as to give a homogeneous blending
- Lay the sliver in cans with uniform cols forming a clear central hole

Comber preparatory - Lap former

The idea of creating a comber feeding lap by a single web forming process directly in front of the comber – with a draw frame passage in front of this web former, of course – can be traced back to a development in 1948 by the former Whiting Company, called the super lap machine. Although all later machines are of different designs they all are based on this idea.

On the Lap former machine, the material flow starts with the creel, consisting of two feed rails. In normal operation 12 cans are laid out under each roller-assisted feed table. Altogether, this gives a total of 24 doublings. The pre-draw frame slivers run over a guide bridge above the service alley and also over several guide rollers to the drafting system at 2. The web created by the draft of 1.3 to 2.5 passes over two deflecting plates onto the web table on which the webs are superimposed. Calendar rollers draw these superimposed webs from the table to the lap winding assembly.

The strong compression created between the calendar rollers forms a new web, which is rolled into a lap in the lap forming assembly. Empty tubes are automatically exchanged for full laps. Transport of the laps to the combing machine is semi-automatic or fully automatic.

Comber

- Comber machine has following objectives to deliver a fault free sliver for getting high quality yarn
- To remove fibers shorter than a predetermined length so as to enable spinner to produce finer yarn than that can be spun from the same Carded sliver.
- To remove neps and impurities.
- To produce uniform sliver of required wt./unit length.
- To make the fiber straight and parallel so that yarn become even and lustrous.

Auto-Leveler Draw Frame (Finisher Passage):

The function is to achieve alternative of fibres by drafting to produce perfect quality sliver. The combed sliver is processed through a single passage of auto-leveler draw frame. The levelling system continuously measures the sliver thickness at the feeding side and in case of any variations in sliver-thickness the main draft is changed at right time via servo drive to

level out the sliver variations. Introduction of auto-leveler at this stage is essential for producing perfect sliver for feeding to the next machine i.e. Speed Frame

Speed Frame:

The main function is to impart small twist to material and produce package which suits the next process i.e. ring spinning. The modern machine equipped with suspended flyers can run mechanically upto 1500 rpm spindle speed. Programmable Logical Control” is integrated in the machine. The soft start and variable machine speed by inverter controls the main motor. The machine is supplied with double apron drafting system. The roving tension is controlled by optical sensors and microprocessor. The pneumatic suction fan with filter is housed at end stock of the machine for efficient cleaning or drafting system. The speed frame produces larger size of roving packages to reduce creel changes at ring frame and thus helps to enhance the yarn quality

Ring Frame:

It includes following procedures-

- To draft the roving to the desired degree of fineness or count of final yarn
- To impart the requisite strength to the yarn by appropriately inserting the required amount of twist
- To produce a yarn acceptable in the yarn market for its quality in terms of uniformity & imperfections
- To wind the twisted strand (yarn) in a form suitable for storage, transportation and further processing

Winding:

Winding should accomplish the following-

- Remove objectionable faults from the yarn: An Objectionable yarn fault is one which if not removed, causes an end-break in the next process or appears as a defect in the fabric. These can be conveniently called as unwanted yarn faults
- Produce good package containing long continuous length of yarn: A good package should facilitate smooth operation of the next process
- Both the above requirement should be accomplished at a satisfactory level of productivity
- Link cone winding system represents the perfect reply to the spinning mills demand and market trend
- Ring spinning frames with higher number of spindles in order to minimize the investment as well as running costs
- The worldwide yarn market competition requires the best and consistent quality output

Yarn Conditioning:

The yarn wound on cones/cheeses are steamed in a machine called Yarn Conditioning Machine. In this machine saturated steam is produced at temperatures of around 50 deg. centigrade by applying vacuum. The trolleys carrying the cones are kept in the conditioning machine for around 55 minutes. The conditioning of cotton yarn improves the strength of the yarn by around 5% and also improves the performance of down the line machines due to less fly generation and higher strength.

Packing:

According to the requirement of customers in the domestic and export market, cones will be packed in HDPE Bags, Cartons or Pallets respectively.

Packing Material:

Generally, cotton yarns are wound on a paper package called as Cones. These are normally made from compressed paper. Each cone carries a label on inside surface mentioning the

name of the mill, count of the yarn and other quality specifications. After the yarn is wound on the cones, they are conditioned in the yarn conditioning machine and yarn is sold in either domestic or export market in cartoons or pallets as per customer requirement.

INSTALLED CAPACITY

Capacity and capacity utilization for the last three years:

Product	Particulars	for the Financial Year		
		2015-16	2016-17	2017-18
Cotton Yarn	Installed capacity (Rotors)	1,920	1,920	1,920
	Installed capacity MT *	4900**	6000	6000
	Utilized capacity MT	4,610	5,271	5,942
	Utilized capacity (%)	94.08%	87.85%	99.03%

*The installed capacity is based on average count Ne 14 of yarn; however, the actual installed capacity may depend upon the type of count of the yarn.

**During the Financial Year company expanded its manufacturing facilities in the month of Jan, 2016 accordingly capacity is taken as sum total of capacity of plant between April-Dec and Jan-March.

Proposed capacity utilization:

Product	Particulars	for the Financial Year				
		2018-19	2019-20		2020-21	
		Rotor	Rotor	Spindle	Rotor	Spindle
Cotton Yarn	Installed capacity	1,920	1,920	25,536	1,920	25,536
	Installed capacity MT	6,000	6,000	3,256***	6,000	6,512
	Utilized capacity MT	5,950	5,950	2,724	5,950	5,861
	Utilized capacity (%)	99.17%	99.17%	83.66%	99.17%	90%

***For the new proposed facility, the commercial production is scheduled to begin from September 2019.

Note: The projected capacity utilisation cannot be exactly determined as production will depend upon the type of average count produced as per market demand.

UTILITIES

Power: Our existing power requirements for manufacturing facilities are catered from “Ajmer Vidyut Vitaran Nigam Limited” of 1500 KVA for our existing operations of Open End Cotton Yarn spinning facility. Our existing power consumption is about 22,500 units per day at an average cost of about ~7.41/unit.

For the proposed project, we have applied for extension of additional installed power load of 3,400 KVA.

Water: Water is mainly required for Humidification Plants, Sanitation and for firefighting. Also, steam is required for Yarn conditioning process. The Company already has one underground tank of 250 KL to suffice all domestic and production requirement.

The company proposes to construct another underground tank of 250 KL for the proposed project. Water will be sourced from tubewell.

MARKETING SETUP

Marketing is an important function of any organization and specially our Company. Our success lies in the strength of our relationship with our customers who have been associated with our Company for a long period. Our promoters & directors, Mr. D. P. Mangal and Mr. Anand Mangal, through their vast experience and good rapport with clients owing to timely and quality delivery of products, play an instrumental role in creating and expanding a work platform for our Company.

Regular interaction is ensured not only to maintain the customer base, but also to gain insight into the designs and other needs of the clientele. With large sales potential, low infrastructure costs, raw material proximity and the availability of professional expertise of our Promoters, we plan to grow geographically.

We currently have an existing agent network for sales in India and outside India for exports, and should there be any requirement, we shall also appoint new agents.

COMPETITION

Textiles being a global industry, we face competition from various domestic and international manufacturers and traders and the industry is highly competitive and fragmented. Competition emerges from small as well as big players in the textile industry. The organized players in the industry compete with each other by providing high quality-time bound products and value-added services. We have a number of competitors offering products similar to us. We believe the principal elements of competition in textile industry are price, fabric quality, adaptability to trends, timely delivery and reliability. We compete against our competitors by establishing ourselves as a knowledge-based processing unit with industry expertise in various fabrics which enables us to provide our clients with innovative designs suitable to current fashion and market requirements. Some of our major competitors are:

1. Narmada Spinning Private Ltd
2. Vippy Spinpro Ltd
3. Super Spinning Mills Ltd
4. Vardhman Spinning & General Mills Ltd.
5. Nahar Spinning Mills Ltd
6. PBM Polytex Ltd.
7. Shree Bhagirath Textile Industries Ltd.
8. Nitin Spinners Ltd
9. KPR Mills Ltd

COLLABORATIONS

The Company has so far not entered into any technical or financial collaboration agreement.

MANPOWER

The manufacturing process requires an appropriate mix of skilled, semi-skilled and un-skilled labour, which is readily available in Bhilwara. The detailed break-up of our employees is as under:

Division	Function	No. of Employees
Finance	Accounts & Finance	5
Human Resource	Human Resource Management	1
Stores & Purchase	Purchase of raw material	3
Research& Development	Quality Control	3
Technical & Engineering	Production and Utility Work	13
Management	Overall Management of Company	4
Operations	Raw Material & Finished Goods	15
	Machine Operators	35
Total		79

We usually hire unskilled labour on contractual basis, as per our requirement.

Further, the additional manpower requirements for the proposed project is about 260 employees, including both skilled & unskilled workers which we will be recruiting in due course for which we do not envisage any difficulty as the same is easily available in and around our plant location, being a developed textile hub.

INTELLECTUAL PROPERTY

Our Company has registered the Company's brand under the Trade Marks Act, 1999, the details of which are mentioned below:

KEY INDUSTRY REGULATIONS AND POLICIES

The following description is a summary of the relevant regulations and policies as prescribed by the Government of India and other regulatory bodies that are applicable to our business. The information detailed in this chapter has been obtained from various legislations, including rules and regulations promulgated by the regulatory bodies that are available in the public domain. The regulations and policies set out below may not be exhaustive and are only intended to provide general information to the investors and are neither designed nor intended to be a substitute for professional legal advice. The Company may be required to obtain licenses and approvals depending upon the prevailing laws and regulations as applicable. For details of such approvals, please see the section titled “Government and other Approvals” on page 282 of this Draft Prospectus.

LAWS RELATED TO OUR BUSINESS

National Textile Policy 2000 (“NTP 2000”)

The NTP 2000 aims at facilitating the growth of the textile industry to attain and sustain a pre-eminent global standing in manufacturing and export of clothing. This objective is sought to be achieved by liberalizing controls and regulations so that the different segments of the textile industry are enabled to perform in a greater competitive environment. One of the key focus areas of the NTP 2000 is on the implementation, in a time bound manner, of the Technology Upgradation Fund Scheme (“TUFS”) covering all manufacturing segments of the industry, seeking to build world class state of the art manufacturing facilities in conformity with environmental standards.

Additionally, certain sector specific initiatives envisaged under the NTP 2000 includes raw materials, clothing, exports, and knitting. The GoI constituted an expert level committee in December 2013 to review the NTP 2000 and to formulate a new textile policy to address concerns of adequate skilled work force, labour reforms, attracting investments in the textile sector and for providing a future road map for the textile and clothing industry. The Government of India, in July 2014, submitted a draft of a new national textile policy, the vision, strategy and action plan for Indian Textile and Apparel Sector (2024) (“Draft NTP”) with the objective of achieving USD 300.0 billion exports and 20% share of the global trade in the textile sector by 2024-25.

Textile Committee Act 1963

The functions of the Committee shall generally be to ensure by such measures, as it thinks fit, standard qualities of textiles both for internal marketing and export purposes and the manufacture and use of standard type of textile machinery. The Committee may undertake, assist and encourage, scientific, technological and economic research in textile industry and textile machinery; promote export of textiles and textile machinery; establish or adopt or recognize standard specifications for textiles and packing materials used in the packing of textiles or textile machinery, export and for internal consumption and affix suitable marks on such standardized varieties of textiles and packing materials. The Committee in order to establish standard specifications in textile industry has issued several regulations including but not limited to the Mill-made Cotton Yarn Inspection Regulations, 1966 etc.

Rajasthan Investment Promotion Scheme, 2014 (“RIPS-2014”)

The State Government of Rajasthan introduced RIPS-2014 in order to promote investment made by enterprise(s) for establishment of new units and/or investment made by the enterprise(s) for expansion of existing units and/or investment made for revival of sick enterprise. In furtherance of its objective, RIPS-2014 provides several benefits to eligible manufacturing enterprise which *inter alia* includes of granting limited exemptions from payment of land tax, stamp duty, mandi fees, limited exemption on conversion charges payable on land use etc.

Amended Technology Up-Gradation Fund Scheme (ATUFS)

Ministry of Textiles, Government of India has notified Amended Technology Upgradation Fund Scheme vide notification dated January 13, 2016. In order to promote ease of doing business, promote make in India and increase the employment, government will be providing credit linked Capital Investment Subsidy (CIS) under the ATUFS. The scheme would facilitate augmenting of investment, productivity, quality, employment and exports. It will also increase investment in textile industry (using benchmarked technology). Entities registered as Companies which have acknowledgment of Industrial Entrepreneur Memorandum (IEM) with DIPP except MSMEs units which will be as per ministry of MSME or units registered with the concerned Directorates of the State Government showing clearly the activity for which the unit is registered, will only be eligible to get benefits under the scheme. Only benchmarked machinery as specified will be eligible for the subsidy under the scheme. The maximum subsidy for overall investment by an individual entity under ATUFS will be restricted to Rs.30 Crore

Textile (Development and Regulation) Order, 2001 (“Textile Order”)

The Textile Order was brought into force by the Central Government under section 3 of the Essential Commodities Act, 1955 and repealed the Textile (Development and Regulation) Order, 1993. Under the Textile Order every manufacturer of textiles, textile machinery and every person dealing with textiles shall keep books of accounts, data and other records relating to his business in the matter of production, processing, import, export, supply, distribution, sale, consumption, etc. and shall furnish such returns or information in respect of their business as and when directed by the Textile Commissioner.

The Textile Order further provides that no person shall make any markings on any textiles resembling the brand name or trade name of any other person who has applied for or obtained a registration to that effect under the Trade and Merchandise Marks Act, 1958, except under and limited to the extent of specific authorization by the holder of or applicant for such brand or trade name.

COMMERCIAL LAWS

The Companies Act, 2013 & Companies Act, 1956

The Companies Act, 2013, has replaced the Companies Act, 1956 in a phased manner. The Act received the assent of President of India on 29th August 2013. At present almost all the provisions of this law have been made effective except few to which extend the Companies Act, 1956 is still applicable. The Ministry of Corporate Affairs has also issued rules complementary to the Companies Act, 2013 establishing the procedure to be followed by companies in order to comply with the substantive provisions of the Companies Act, 2013. The Companies Act primarily regulates the formation, financing, functioning and winding up of companies. The Act prescribes regulatory mechanism regarding all relevant aspects including organizational, financial and managerial aspects of companies.

The Micro, Small and Medium Enterprises Development Act, 2006

The Act was enacted in order to promote and enhance the competitiveness of Micro, Small and Medium Enterprise (“**MSME**”). A National Board appointed and established by the Central Government for MSME enterprise with its head office at Delhi in the case of the enterprises engaged in the manufacture or production of goods pertaining to any industry mentioned in first schedule to Industries (Development and regulation) Act, 1951 as Micro enterprise: where the investment in plant and machinery does not exceed INR 25,00,000/-; Small enterprise: where the investment in plant and machinery is more than INR 25,00,000/- but does not exceed INR 5,00,00,000/-; or a Medium enterprise, where the investment in plant and machinery is more than INR 5,00,00,000/- but does not exceed INR 10,00,00,000/- and in the case of the enterprise engaged in the services, Micro enterprise: where the investment in equipment does not exceed INR 10,00,000/-; or Small enterprise: where the investment in equipment is more than INR 10,00,000/- but does not exceed INR 2,00,00,000/-; or Medium enterprise: where the investment in equipment is more than INR 2,00,00,000/- but does not exceed INR 5,00,00,000/-.

Indian Contract Act, 1872

The Act codifies the way in which a contract is entered, executed and implemented and implications of breach of a contract. The Act consists of limiting factors subject to which contract may be entered into, executed and breach enforced as amended from time to time. It determines the circumstances in which promise made by the parties to a contract shall be legally binding on them. Each contract creates some right and duties upon the contracting parties. Indian contract deals with the enforcement of these rights and duties upon the parties. The Act also lays down provisions of indemnity, guarantee, bailment and agency. Provisions relating to sale of goods and partnership which were originally in the Act are now subject matter of separate enactments viz., the Sale of Goods Act, 1930 and the Indian Partnership Act 1932. The objective of the Act is to ensure that the rights and obligations arising out of a contract are honoured and that legal remedies are made available to those who are affected.

The Sale of Goods Act, 1930

The law relating to the sale of goods is codified in the Sale of Goods Act, 1930. It defines sale and agreement to sell as a contract whereby the seller transfers or agrees to transfer the property in goods to the buyer for a price and provides that there may be a contract of sale between part owner and another and that the contract of sale may be absolute or conditional. According to the provisions of this Act, a contract of sale is made by an offer to buy or sell the goods for a price and the acceptance of such offer. The Act further provides that the contract may provide for the immediate delivery of the goods or immediate payment of the price or both or for the delivery or payment by instalments or that the delivery or payment or both shall be postponed. Provisions are made in this Act for existing or future goods, perishable goods, ascertainment of price, conditions and warranties, effects of the contract, delivery to courier, duties of seller and buyer, buyer's right of examining the goods, liability of buyer for neglecting or refusing the delivery of goods, rights of unpaid seller, suits for breach of the contract, sale, etc.

Competition Act, 2002

The Competition Act, 2002 prohibits anti-competitive agreements, abuse of dominant positions by enterprises and regulates "combinations" in India. The Act also established the Competition Commission of India ("CCI") as the authority under the Act. The provisions of the Competition Act relating to combinations were notified recently on March 4, 2011 and came into effect on June 1, 2011. Combinations which are likely to cause an appreciable adverse effect on competition in a relevant market in India are void under the Act. A combination is defined under Section 5 of the Act as an acquisition, merger or amalgamation of enterprise(s) that meets certain asset or turnover thresholds. There are also different thresholds for those categorized as individuals and group. The CCI may enquire into all combinations, even if taking place outside India, or between parties outside India, if such combination is likely to have an appreciable adverse effect on competition in India.

LAWS RELATING TO LABOUR AND EMPLOYMENT

Employees State Insurance Act, 1948 ("ESI Act")

ESI Act, as amended provides for certain benefits to employees in case of sickness, maternity and employment injury. All employees in establishments covered by the ESI Act are required to be insured, with an obligation imposed on the employer to make certain contributions in relation thereto. In addition, the employer is also required to register itself under the ESI Act and maintain prescribed records and registers.

The Minimum Wages Act, 1948

The State Governments may stipulate the minimum wages applicable to a particular industry. The minimum wages generally consist of a basic rate of wages, cash value of supplies of essential commodities at concession rates and a special allowance, the aggregate of which reflects the cost of living index as notified in the Official Gazette. Workers are to be paid for overtime at overtime rates stipulated by the appropriate State Government. Any contravention may result in imprisonment of up to six months or a fine of up to Rs. 500. Further, employees who have been paid less than the minimum wages are entitled to the payment of the shortfall amount, together with compensation, which may extend up to ten times the shortfall amount.

The Payment of Wages Act, 1936

The Payment of Wages Act applies to the persons employed in the factories and to persons employed in industrial or other establishments, either directly or indirectly through a sub-contractor, where the monthly wages payable to such persons is less than Rs. 24,000/-. The Act confers on the person(s) responsible for payment of wages certain obligations with respect to the maintenance of registers and the display in such factory/establishment, of the abstracts of this Act and Rules made there under.

The Payment of Gratuity Act, 1972

The Gratuity Act establishes a scheme for the payment of gratuity to employees engaged in every factory, mine, oil field, plantation, port and railway company, every shop or establishment in which ten or more persons are employed or were employed on any day of the preceding twelve months and in such other establishments in which ten or more employees are employed or were employed on any day of the preceding twelve months, as notified by the Central Government from time to time. Penalties are prescribed for non-compliance with statutory provisions. Under the Gratuity Act, an employee who has been in continuous service for a period of five years will be eligible for gratuity upon his retirement, resignation, superannuation, death or disablement due to accident or disease. However, the entitlement to gratuity in the event of death or disablement will not be contingent upon an employee having completed five years of continuous service. The maximum amount of gratuity payable may not exceed Rs. 10,00,000.

Employees Provident Fund and Miscellaneous Provisions Act, 1952 ("Act") and the schemes formulated there under ("Schemes")

This Act provides for the institution of provident funds, family pension funds and deposit linked insurance fund for the employees in the factories and other establishments. Accordingly, the following schemes are formulated for the benefit of such employees:

- (i) **The Employees Provident Fund Scheme, 1952:** As per this Scheme, a provident fund is constituted and both the employees and employer contribute to the fund at the rate of 12% (or 10% in certain cases) of the basic wages, dearness allowance and retaining allowance, if any, payable to employees per month.
- (ii) **The Employees' Pension Scheme, 1995:** Employees' Pension Scheme is Pension Scheme for survivors, old aged and disabled persons. This Scheme derives its financial resource by partial diversion from the Provident Fund contribution, the rate being 8.33%. Thus, a part of contribution representing 8.33 per cent of the employee's pay shall be remitted by the employer to the Employees' Pension fund within 15 days of the close of every month by a separate bank draft or cheque on account of the Employees' Pension Fund contribution in such manner as may be specified in this behalf by the appropriate authority constituted under the Act.
- (iii) **The Employees Deposit Linked Insurance Scheme, 1976:** As per this Scheme, the contribution by the employer shall be remitted by him together with administrative charges at such rate as the Central Government may fix from time to time under Section 6C (4) of the Act, to the Insurance Fund within 15 days of the close of every month by a separate bank draft or cheque or by remittance in cash in such manner as may be specified in this behalf by the appropriate authority constituted under the Act.

Payment of Bonus Act, 1965

The Payment of Bonus Act, 1965 provides for payment of minimum bonus to factory employees and every other establishment in which 20 or more persons are employed and requires maintenance of certain books and registers and filing of monthly returns showing computation of allocable surplus, set on and set off of allocable surplus and bonus due.

The Equal Remuneration Act, 1976 ("Equal Remuneration Act") and Equal Remuneration Rules, 1976

The Constitution of India provides for equal pay for equal work for both men and women. To give effect to this provision, the Equal Remuneration Act was implemented. The Equal Remuneration Act provides for payment of equal wages for equal work of equal nature to

male or female workers and for not making discrimination against female employees in the matters of transfers, training and promotion etc.

Child Labour (Prohibition and Regulation) Act, 1986

This statute prohibits employment of children below 14 years of age in certain occupations and processes and provides for regulation of employment of children in all other occupations and processes. Under this Act the employment of child labour in the building and construction industry is prohibited.

The Maternity Benefit Act, 1961("Maternity Act")

The Maternity Act was enacted by Parliament in the Twelfth Year of the Republic of India to regulate the employment of women in certain establishments for certain periods before and after child-birth and to provide for maternity benefit and certain other benefits.

Shops and Establishment Laws

The shops and establishment laws govern a company in the states where it has offices/godowns. It regulates the conditions of work and employment in shops and commercial establishments and generally prescribes obligations in respect of registration, opening and closing hours, daily and weekly working hours, health and safety measures, and wages for overtime work. The state law relevant to the Company are the [Rajasthan Shops and Commercial Establishments Act, 1958](#)

The Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013 ("SHWW Act")

The SHWW Act provides for the protection of women at work place and prevention of sexual harassment at work place. The Act also provides for a redressal mechanism to manage complaints in this regard. Sexual harassment includes one or more of the following acts or behaviour namely, physical contact and advances or a demand or request for sexual favours or making sexually coloured remarks, showing pornography or any other unwelcome physical, verbal or non-verbal conduct of sexual nature. The Act makes it mandatory for every employer of a workplace to constitute an Internal Complaints Committee which shall always be presided upon by a woman.

The Industrial Disputes Act, 1947

The Industrial Disputes Act, 1947 provides the procedure for investigation and settlement of industrial disputes. When a dispute exists or is apprehended, the appropriate Government may refer the dispute to a labour court, tribunal or arbitrator, to prevent the occurrence or continuance of the dispute, or a strike or lock-out while a proceeding is pending. The labour courts and tribunals may grant appropriate relief including ordering modification of contracts of employment or reinstatement of workmen.

Apprentices Act, 1961

The Apprentices Act was enacted in 1961 for imparting training to apprentices i.e. a person who is undergoing apprenticeship training in pursuance of a contract of apprenticeship. Every employer shall make suitable arrangements in his workshop for imparting a course of practical training to every apprentice engaged by him in accordance with the programme approved by the apprenticeship adviser. The central apprenticeship adviser or any other person not below the rank of an assistant apprenticeship adviser shall be given all reasonable facilities for access to each apprentice with a view to test his work and to ensure that the practical training is being imparted in accordance with the approved programme.

Inter State Migrant Workers (Regulation of Employment and Conditions of Service) Act, 1979;

The Inter State Migrant Workers (Regulation of Employment and Conditions of Service) Act, 1979 was enacted by Parliament in the Thirtieth Year of the Republic of India to regulate the employment of inter-State migrant workmen and to provide for their conditions of service and for matters connected therewith. This Act makes provision for availing with the onsite

services of interstate workers by the contractors / establishments to overcome only the temporary shortage of required skilled workers in a state. The purpose of this act is not to encourage interstate migration of workers against the interests of local workers as the principal employers would have to incur more cost in deploying interstate workers.

Trade Union Act, 1926 and Trade Union (Amendment) Act, 2001

Provisions of the Trade Union Act, 1926 provides that any dispute between employers and workmen or between workmen and workmen, or between employers and employers which is connected with the employment, or non-employment, or the terms of employment or the conditions of labour, of any person shall be treated as trade dispute. For every trade dispute a trade union has to be formed. For the purpose of Trade Union Act, 1926, Trade Union means combination, whether temporary or permanent, formed primarily for the purpose of regulating the relations between workmen and employers or between workmen and workmen, or between employers and employers, or for imposing restrictive condition on the conduct of any trade or business etc.

ENVIRONMENTAL LAWS

The Environment (Protection) Act, 1986 as amended, ("**Environment Protection Act**"), the Water (Prevention and Control of Pollution) Act, 1974, as amended, ("**Water Act**") and the Air (Prevention and Control of Pollution) Act, 1981, ("**Air Act**") provide for the prevention, control and abatement of pollution. Pollution control boards have been constituted in all states in India to exercise the powers and perform the functions provided for under these statutes for the purpose of preventing and controlling pollution. Companies are required to obtain consents of the relevant state pollution control boards for emissions and discharge of effluents into the environment. The Hazardous Wastes (Management, Handling and Transboundary Movement) Rules, 2008 as amended, ("**Hazardous Wastes Rules**") impose an obligation on every occupier of an establishment generating hazardous waste to recycle or reprocess or reuse such wastes in a registered recycler or to dispose of such hazardous wastes in an authorized disposal facility. Every person engaged, inter alia, in the generation, processing, treatment, package, storage and destruction of hazardous waste is required to obtain an authorization from the relevant state pollution control board for collecting, recycling, reprocessing, disposing, storing and treating the hazardous waste. The Environmental Impact Assessment Notification dated September 14, 2006 read with notifications dated October 11, 2007, December 1, 2009, April 4, 2011 and January 25, 2012, issued under the Environment Protection Act and the Environment (Protection) Rules, 1986, requires prior environmental clearance of the Ministry of Environment and Forests, GoI and at state level, of the state environment impact assessment authority, if any new project (specified in the notification) is proposed to be undertaken or for expansion and modernization of existing projects beyond certain specified threshold limits. The environment clearance (for commencement of the production operations) is valid for the time period prescribed in the notification.

The Public Liability Insurance Act, 1991 ("Public Liability Act")

The Public Liability Act imposes liability on the owner or controller of hazardous substances for death or injury to any person (other than a workman) or any damage to property arising out of an accident involving such hazardous substances. A list of hazardous substances covered by the legislation has been enumerated by the Government by way of a notification. The owner or handler is also required to obtain an insurance policy insuring him against liability under the legislation. The Public Liability Insurance Rules, 1991 mandate that the owner has to contribute towards the environment relief fund, a sum equal to the premium paid on the insurance policies. The amount is payable to the insurer.

TAX LAWS

The Income Tax Act, 1961

The Income Tax Act, 1961 deals with the taxation of individuals, corporate, partnership firms and others. As per the provisions of this Act the rates at which they are required to pay tax is calculated on the income declared by them or assessed by the authorities, after availing the

deductions and concessions accorded under the Act. The maintenance of books of accounts and relevant supporting documents and registers are mandatory under the Act. Filing of returns of income is compulsory for all assesses. The maintenance of Books of Accounts and relevant supporting documents and registers are mandatory under the Act.

The Central Sales Tax Act, 1956

The Central Sales Tax Act, 1956 enacted by Parliament in Seventh Year of Republic of India to formulate principles for determining when a sale or purchase of goods takes place in the course of inter-state trade of commerce or outside a State or in the course of imports into or export from India, to provide for the levy, collection and distribution of taxes on sales of goods in the course of inter-state trade of commerce and to declare certain goods to be of special importance in inter-state or commerce and specify the restrictions and conditions to which state laws imposing taxes on the sale or purchase of such goods of special importance.

Finance Act, 1994 (Service Tax)

Service tax is charged on taxable services as defined in Chapter V of Finance Act, 1994, (as amended from time to time) which requires a service provider of taxable services to collect service tax from a service recipient and pay such tax to the Government.

The Central Excise Act, 1944

In accordance with the Central Excise Act, 1944 and Central Excise Rules, 2002 every person who produces or manufactures any excisable goods is required to get itself registered with the Jurisdictional Deputy or Assistant Commissioner of Central Excise. Hence this Act is applicable to the Company. Further, the provisions of the Central Excise Rules provide that the manufacturer of final products (other than SSI's) shall submit the duty on goods removed from the factory or warehouse during the month by fifth day of following month.

Customs Act, 1962

The provisions of the Customs Act, 1962 and rules made there under are applicable at the time of import of goods i.e. bringing into India from a place outside India or at the time of export of goods i.e. taken out of India to a place outside India. Any Company desirous of importing or exporting any goods is first required to get it registered and obtain an IEC (Importer Exporter Code).

Value Added Tax ("VAT")

VAT is a system of multi-point levy on each of the purchases in the supply chain with the facility of set-off input tax on sales whereby tax is paid at the stage of purchase of goods by a trader and on purchase of raw materials by a manufacturer. VAT is based on the value addition of goods, and the related VAT liability of the dealer is calculated by deducting input tax credit for tax collected on the sales during a particular period. VAT is a consumption tax applicable to all commercial activities involving the production and distribution of goods and the provisions of services, and each state that has introduced VAT has its own VAT Act, under which, persons liable to pay VAT must register and obtain a registration number from Sales Tax Officer of the respective State.

Goods and Services Tax Act ("GST")

GST is one of the most significant tax reforms introduced in the history of the Indian fiscal evolution. The central and state governments will levy GST simultaneously, on a common taxable value, on the supply of goods and services. However, in the case of imports and inter-state supplies, an Integrated Goods and Service Tax ("IGST") shall be levied by the central government, proceeds of which will be shared by the central and the recipient state government. IGST is an Indian innovation which would help tax move along with goods/services, across states and therefore reduce refund situations at state borders. GST is expected to bring a significant shift from origin-based taxation to a destination-based tax structure. This is likely to impact not only the operating business models but also the revenues of the centre/ states. It has the potential to impact cash flow, pricing, working capital, supply chain and IT systems and hence provides an opportunity to transform your

business. Goods and services taxed by both the governments GST allow equal opportunity to the centre and the state to tax all supplies of goods and services.

INTELLECTUAL PROPERTY LAWS

India has certain laws relating to intellectual property rights such as patent protection under the Patents Act, 1970, copyright protection under the Copyright Act, 1957, trademark protection under the Trade Marks Act, 1999, and design protection under the Designs Act, 2000.

The Trademarks Act, 1999

The Act provides for the process for making an application and obtaining registration of trademarks in India. The purpose of the Trademarks Act is to grant exclusive rights to marks such as a brand, label, heading and to obtain relief in case of infringement for commercial purposes as a trade description. The Trademarks Act prohibits registration of deceptively similar trademarks and provides for penalties for infringement, falsifying and falsely applying trademarks.

The Copyright Act, 1957

This Act governs the copyright protection in India. Even while copyright registration is not a prerequisite for acquiring or enforcing a copyright in an otherwise copyrightable work, registration under the Act acts as a prima facie evidence of the particulars entered therein and helps expedite infringement proceedings and reduce delay caused due to evidentiary considerations.

The Designs Act, 2000

This Act protects any visual design of objects that are not purely utilitarian. An industrial design consists of the creation of a shape, configuration or composition of pattern or colour, or combination of pattern and colour in three-dimensional form containing aesthetic value. It provides an exclusive right to apply a design to any article in any class in which the design is registered.

The Patents Act, 1970

This Act governs the patent regime in India and recognises process patents as well as product patents. Patents obtained in India are valid for a period of 20 years from the date of filing the application. The Act also provides for grant of compulsory license on patents after expiry of three years of its grant in certain circumstances such as reasonable requirements of the public, non-availability of patented invention to public at affordable price or failure to work the patented invention.

FOREIGN INVESTMENT REGULATIONS

The Foreign Trade (Development & Regulation) Act, 1992

The Foreign Trade (Development & Regulation) Act, 1992, provides for the development and regulation of foreign trade by facilitating imports into and augmenting exports from India and for matters connected therewith or incidental thereto.

Foreign Exchange Management Act, 1999 (“FEMA”), and Rules and Regulations thereunder

As laid down by the FEMA Regulations, no prior consents and approvals are required from the Reserve Bank of India, for Foreign Direct Investment under the automatic route within the specified sectoral caps. In respect of all industries not specified as FDI under the automatic route, and in respect of investment in excess of the specified sectoral limits under the automatic route, approval may be required from the FIPB and/or the RBI. The RBI, in exercise of its power under the FEMA, has notified the Foreign Exchange Management (Transfer of Issue of Security by a person Resident Outside India) Regulations, 2000 (“**FEMA Regulations**”) to prohibit, restrict or regulate, transfer by or issue security to a person resident outside India. Foreign investment in India is governed primarily by the provisions of the FEMA which relates to regulation primarily by the RBI and the rules, regulations and notifications there under, and the policy prescribed by the Department of Industrial Policy and Promotion, Ministry of Commerce & Industry, Government of India.

Foreign Direct Investment Policy, 2017

With the intent and objective of the Government of India to attract and promote foreign direct investment in order to supplement domestic capital, technology and skills, for accelerated economic growth. The Government has put in place a policy framework on Foreign Direct Investment, which is transparent, predictable and easily comprehensible. This framework is embodied in the Circular on Consolidated FDI Policy, which may be updated every year, to capture and keep pace with the regulatory changes, effected in the interregnum. The Department of Industrial Policy and Promotion (DIPP), Ministry of Commerce & Industry, Government of India makes policy pronouncements on FDI through Press Notes/Press Releases which are notified by the Reserve Bank of India as amendments to the Foreign Exchange Management (Transfer or Issue of Security by a Person Resident Outside India) Regulations, 2017. These notifications take effect from the date of issue of Press Notes/Press Releases, unless specified otherwise therein. In case of any conflict, the relevant FEMA Notification will prevail. The procedural instructions are issued by the Reserve Bank of India vide A.P. (DIR Series) Circulars. The regulatory framework, over a period of time, thus, consists of Acts, Regulations, Press Notes, Press Releases, Clarifications, etc.

	Notes on Material Adjustments					
	Note 1					
	The Company has charged Tax paid under MAT as expenses during FY 2014, 2015 and 2016. However, from Financial Year 2016-17 the company has shown tax paid under MAT as loan and advances till its adjustment under regular income tax. Hence in restated financial statements tax paid under MAT is shown under head loan and advances, in all years.					
	Note 2					
	The company has made income tax provision as well as filled income tax return for Financial Year ending on March 31, 2014, 2015 and 2016 considering TUF interest subsidy as revenue receipt. However, in FY 2016-17 the company has decided to claim TUF subsidy as capital receipt. Thus, filled revised claim/ Income tax Return accordingly and effect of all revisions were given in financial books in 2017. Hence in restated financial statements effect is given in respective years and accordingly interest liability on tax is also restated as per revised returns					
	Note 3					
	Subsidy under RIPS Scheme was claimed and received in year 2017 for the period from 2014 to 2017. In restated financial statements the same has been accounted in respective					

	years.
	Note 4
	The company has made provision for gratuity and leave encashment in the statement of profit & loss for the financials years ended on March 31, 2014, 2015 & 2016 as per actual payable basis while for financial year ended on March 31, 2017 & 2018, provision is made as per actuarial valuation basis. Hence in the restated financial statements, the company has provided gratuity and leave encashment to the statement of profit & loss of the respective year as per actuarial valuation report.
	Note 5
	Material Reclassification / Adjustments / Regrouping
	W.e.f April 01, 2014, Schedule III of the Companies Act, 2013 has become applicable to the Company for the preparation and presentation of its financial statements which is in line with the erstwhile Revised Schedule VI under the Companies Act, 1956 which became applicable to the Company w.e.f April 01, 2011 for the preparation and presentation of its financial statements.
	The adoption of the Schedule III of the Companies Act, 2013/Revised Schedule VI of the Companies Act, 1956 does not impact recognition and measurement principles followed for preparation of financial statements. There is no significant impact on the presentation and disclosures made in the financial statements on adoption of Schedule III as compared to Revised Schedule VI. The restated summary financial statements have been prepared based on the presentation requirements specified under Schedule III of the Companies Act, 2013, which is in line with the erstwhile Revised Schedule VI under the Companies Act, 1956.
	Appropriate adjustments have been made in the restated summary statements of assets and liabilities, corresponding items of income, expenses, assets, liabilities and cash flows, in order to bring them in line with the regroupings as per the audited financial statements of the Company for the financial year ended March 31, 2018, prepared in accordance with Schedule III of Companies Act, 2013, and the requirements of the Securities and Exchange Board of India (Issue of Capital & Disclosure Requirements) Regulations, 2009, statement of profits and losses and cash flows, wherever required, by reclassification of the as amended.
	Note 6
	Non-adjusting items
	Other audit qualifications included in the Annexure to the Independent Auditors' Reports issued under the Companies (Auditor's Report) Order 2016, 2015 and 2003 (as amended), respectively on the financial statements for the year ended on March 31, 2018, 2017, 2016, 2015 and 2014, which do not require any corrective adjustments in the Restated Summary Financial Statement are as follows:
	Emphasis of Matters
	The Company has provided depreciation on Plant and Machinery considering the same as 'Continuous Process Plant' based on technical expert's advice. This being a technical matter, no opinion is expressed thereon.
	Our opinion is not modified in respect of this matter.

SECTION VI – LEGAL AND OTHER INFORMATION

OUTSTANDING LITIGATION AND MATERIAL DEVELOPMENT

Except as stated below there is no (i) pending litigations, suits, civil or criminal proceedings involving our Company, Director(s) or Promoters; (ii) actions taken by statutory or regulatory authorities involving our Company, Director(s) or Promoters; (iii) outstanding claims involving our Company, Director(s) or Promoter for any direct and indirect tax liabilities; (iv) outstanding proceedings initiated against our Company for economic offences; (v) pending litigations involving our Company, Director(s), or Promoter, as determined to be material by the Company's Board of Directors in accordance with the SEBI (ICDR) Regulations; or (vi) outstanding dues to creditors of our Company as determined to be material by our Company's Board of Directors in accordance with the SEBI (ICDR) Regulations and dues to small scale undertakings and other creditors.

With respect to material litigation all pending litigation involving our Company, Director(s) and Promoters, other than criminal proceedings and statutory or regulatory actions, would be considered 'material' if the monetary amount of claim by or against the entity or person in any such pending proceeding is in excess of Rs. 5,00,000 and where the amount is not quantifiable, such pending cases are material from the perspective of the company's business, operations, prospects or reputation.

With respect to material outstanding dues to creditors where outstanding dues to any one of them exceeds Rs. 5,00,000/-

Further, our Company, our Promoter and/or our Director(s), have not been declared as wilful defaulters by the RBI or any governmental authority, have not been debarred from dealing in securities and/or accessing capital markets by the SEBI and no disciplinary action has been taken by the SEBI or any stock exchanges against our Company, our Promoter or our Director(s), that may have a material adverse effect on our business or financial position, nor, so far as we are aware, are there any such proceedings pending or threatened.

Unless otherwise stated, all information provided below is as of the date of this Draft Prospectus.

PART I – LITIGATION RELATING TO OUR COMPANY

A. LITIGATION AGAINST OUR COMPANY

1. Litigation involving Civil Laws

NIL

2. Litigation involving Criminal Laws

NIL

3. Litigation involving Securities and Economic Laws

NIL

4. Litigation involving Labor Laws

i. *Employees Provident Fund and Miscellaneous Provisions Act, 1952 (EPF Act)*

The Company had received a notice dated January 23, 2015 from the authorities constituted under EPF Act *vide* which the company was directed to submit certain documents, which were subsequently submitted by the company through its reply dated May 13, 2015. However, post submissions the company has not received any communication from the authorities.

5. Litigation involving Taxation

i. Outstanding Direct Tax Proceedings

- a) For A.Y. 2013-14, our Company filed an application u/s 154 of the IT Act before the Deputy Commissioner of Income Tax, Bhilwara for rectification of mistake apparent from the records regarding treatment of Technology Upgradation Fund Scheme (TUFS) Subsidy as a Capital receipt and also regarding non-

quantification of MAT credit in the assessment order dated 02.12.2015 passed by the assessing officer u/s 143(3) of the IT Act. Under the said order no demand was raised on the Company. However, in computation of the total income there was a mistake apparent from the records for which the aforementioned application u/s 154 of the IT Act was filed before the assessing officer. The assessing officer rejected our application *vide* its order dated 16.11.2017 by holding that this particular issue is not a “rectifiable mistake” as envisaged under the provisions of Section 154 of the IT Act. We have filed an appeal against the said order of the assessing officer before the Commissioner of Income Tax (Appeals) (“**CIT(A)**”) and the matter is currently pending before the CIT(A).

- b) For A.Y. 2014-15, assessment proceeding has been completed by Income Tax Officer, Ward – 1, Bhilwara in case of our Company u/s 143(3) of the IT Act *vide* its order dated 26.12.2016. The issue involved in the assessment proceedings, *inter alia*, was majorly in relation to treatment of TUFS (Technology Upgradation Fund Scheme) and RIPS (Rajasthan Investment Promotion Scheme) subsidy as a capital receipt or a revenue receipt under regular taxation provisions as well as under MAT provisions. The assessing officer considered the same as a revenue receipt and assessed the total income of our Company at Rs 5,09,660/-. Consequently, our Company filed an appeal against the assessment order before the CIT(A), Ajmer praying for relief. The CIT (A) *vide* its order dated 27.11.2017 held partially in our favor by holding that the subsidies are capital receipts for the purpose of regular taxation provisions, however, same shall be included in the calculation of book profit under MAT provisions. Aggrieved by the order of CIT(A), we have filed an appeal before the Hon’ble ITAT on 06.02.2018. Our Company has not received any notice of hearing for the same as on date.

ii. Outstanding Indirect Tax Proceedings

- a) A show cause notice C.NO V(55)04/05/BHL/2017/1822-29 dated 28.03.2017 was issued by the Deputy Commissioner, Central Excise and Service Tax Division, Bhilwara to our Company alleging that the Company has wrongly availed CENVAT Credit amounting to Rs 24,23,868/- in respect of capital goods and parts thereof. The alleged reason for issuance of the said show cause notice by the Commissioner was that the capital goods has been used by the Company for manufacturing exempted goods during the period from March 2012 to September 2016 and thereby have contravened the provisions of Rule6(4) and Rule 3 of the CENVAT Credit Rules, 2004. In response to the same our Company filed its submissions and the matter was personally discussed. However, the Assistant Commissioner, Central Goods and Service Tax, Bhilwara without accepting our submissions passed an order in original dated 29.12.2017 to dispose the matter under consideration. In the said order the Assistant Commissioner, Central Goods and Service Tax, Bhilwara confirmed the demand of CENVAT Credit amounting to Rs 24,23,868/- against our Company and has also imposed a penalty of Rs 24,23,868/-. Aggrieved by the order, our Company has preferred an appeal in this matter on 12.03.2018 and the same is pending before the Hon'ble Commissioner of Central Excise (Appeals), Jodhpur.

MINIMUM APPLICATION VALUE, MARKET LOT AND TRADING LOT

Pursuant to Section 29 of the Companies Act, 2013 the Equity Shares shall be allotted only in dematerialized form. As per the existing SEBI (ICDR) Regulations, 2009, the trading of the Equity Shares shall only be in dematerialized form for all investors. In this context, two agreements have been signed amongst our Company, the respective Depositories and the Registrar to the Issue:

- Agreement dated 14th March, 2018 amongst NSDL, our Company and the Registrar to the Issue; and
- Agreement dated 23rd February, 2018 amongst CDSL, our Company and the Registrar to the Issue.

The trading of the Equity Shares will happen in the minimum contract size of 3,000 Equity Shares and the same may be modified by SME Platform of Stock Exchange from time to time by giving prior notice to investors at large. Allocation and allotment of Equity Shares through this Issue will be done in multiples of 3,000 Equity Shares subject to a minimum allotment of 3,000 Equity Shares to the successful applicants in terms of the SEBI circular no. CIR/MRD/DSA/06/2012 dated February 21, 2012.

MINIMUM NUMBER OF ALLOTTEES

Further in accordance with the Regulation 106R of SEBI (ICDR) Regulations, the minimum number of allottees in this Issue shall be 50 shareholders. In case the minimum number of prospective allottees is less than 50, no allotment will be made pursuant to this Issue and the monies blocked by the SCSBs shall be unblocked within 4 working days of closure of issue.

JURISDICTION

Exclusive jurisdiction for the purpose of this Issue is with the competent courts / authorities in Bhilwara, Rajasthan, India.

The Equity Shares have not been and will not be registered under the U.S. Securities Act or any state securities laws in the United States and may not be Offered or sold within the United States or to, or for the account or benefit of, “U.S. persons” (as defined in Regulation S), except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the U.S. Securities Act and applicable U.S. state securities laws. Accordingly, the Equity Shares are being offered and sold only outside the United States in offshore transactions with reliance on Regulation S under the U.S. Securities Act and the applicable laws of the jurisdiction where those offer and sales occur.

The Equity Shares have not been and will not be registered, listed or otherwise qualified in any other jurisdiction outside India and may not be offered or sold, and applications may not be made by persons in any such jurisdiction, except in compliance with the applicable laws of such jurisdiction.

JOINT HOLDER

Where two or more persons are registered as the holders of any Equity Shares, they shall be deemed to hold the same as joint - tenants with benefits of survivorship.

NOMINATION FACILITY TO INVESTOR

In accordance with Section 72 of the Companies Act, 2013 the sole applicant, or the first applicant along with other joint applicant, may nominate any one person in whom, in the event of the death of sole applicant or in case of joint applicant, death of all the Applicant, as the case may be, the Equity Shares Allotted, if any, shall vest. A person, being a nominee, entitled to the Equity Shares by reason of the death of the original holder(s), shall be entitled to the same advantages to which he or she would be entitled if he or she was the registered holder of the Equity Share(s). Where the nominee is a minor, the holder(s) may make a nomination to appoint, in the prescribed manner, any person to become entitled to equity share(s) in the event of death of the nominee during his/ her minority. A nomination shall stand rescinded upon a sale of equity share(s) by the person nominating. A buyer will be entitled to make a fresh nomination in the manner prescribed. Fresh nomination can be made only on the prescribed form available on request at our Registered Office or with the registrar and transfer agents of our Company.

Any person who becomes a nominee by virtue of the provisions of Section 72 of the Companies Act, 2013 shall upon the production of such evidence as may be required by the Board, elect either:

- a. to register himself or herself as the holder of the Equity Shares; or
- b. to make such transfer of the Equity Shares, as the deceased holder could have made.

Further, the Board may at any time give notice requiring any nominee to choose either to be registered himself or herself or to transfer the Equity Shares, and if the notice is not complied with within a period of ninety days, the Board may thereafter withhold payment of all dividends, bonuses or other moneys payable in respect of the Equity Shares, until the requirements of the notice have been complied with.

Since the Allotment of Equity Shares in the Issue will be made only in dematerialized mode there is no need to make a separate nomination with our Company. Nominations registered with respective depository participant of the applicant would prevail. If the investor wants to change the nomination, they are requested to inform their respective depository participant.

PART B

GENERAL INFORMATION DOCUMENT FOR INVESTING IN PUBLIC ISSUES

This General Information Document highlights the key rules, processes and procedures applicable to public issues in accordance with the provisions of the Companies Act, 2013 (to the extent notified and in effect), the Companies Act, 1956 (without reference to the provisions thereof that have ceased to have effect upon the notification of the Companies Act, 2013), the Securities Contracts (Regulation) Act, 1956, the Securities Contracts (Regulation) Rules, 1957 and the Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2009. Applicants should not construe the contents of this General Information Document as legal advice and should consult their own legal counsel and other advisors in relation to the legal matters concerning the Issue. For taking an investment decision, the Applicants should rely on their own examination of the Issue and the Issuer and should carefully read the Draft prospectus/ Prospectus before investing in the Issue.

SECTION 1: PURPOSE OF THE GENERAL INFORMATION DOCUMENT (GID)

This document is applicable to the public issues undertaken *inter-alia* through the Book-Building Process as well as to the Fixed Price Issue. The purpose of the “General Information Document for Investing in Public Issues” is to provide general guidance to potential Applicants in IPOs, on the processes and procedures governing IPOs and FPOs, undertaken in accordance with the provisions of the Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2009 (“**SEBI ICDR Regulations, 2009**”).

Applicants should note that investment in equity and equity related securities involves risk and Applicant should not invest any funds in the Issue unless they can afford to take the risk of losing their investment. The specific terms relating to securities and/or for subscribing to securities in an Issue and the relevant information about the Issuer undertaking the Issue are set out in the Prospectus filed by the Issuer with the Registrar of Companies (“RoC”). Applicants should carefully read the entire Prospectus and the Application Form and the Abridged Prospectus of the Issuer in which they are proposing to invest through the Issue. In case of any difference in interpretation or conflict and/or overlap between the disclosure included in this document and the Prospectus, the disclosures in the Prospectus shall prevail. The Prospectus of the Issuer is available on the websites of stock exchanges, on the website(s) of the BRLM to the Issue and on the website of Securities and Exchange Board of India (“SEBI”) at www.sebi.gov.in.

For the definitions of capitalized terms and abbreviations used herein Applicants may refer to the section “Glossary and Abbreviations”.

SECTION 2: BRIEF INTRODUCTION TO IPOs ON EMERGE Platform of NATIONAL STOCK EXCHANGE OF INDIA LIMITED (SME PLATFORM)

2.1 INITIAL PUBLIC OFFER (IPO)

An IPO means an offer of specified securities by an unlisted Issuer to the public for subscription and may include an Offer for Sale of specified securities to the public by any existing holder of such securities in an unlisted Issuer.

For undertaking an IPO, an Issuer is *inter-alia* required to comply with the eligibility requirements of in terms of either Regulation 26(1) or Regulation 26(2) of the SEBI ICDR Regulations, 2009, if applicable. For details of compliance with the eligibility requirements by the Issuer, Applicants may refer to the Draft Prospectus.

2.2 OTHER ELIGIBILITY REQUIREMENTS

In addition to the eligibility requirements specified in paragraphs 2.1 and 2.2, an Issuer proposing to undertake an IPO or an FPO is required to comply with various other requirements as specified in the SEBI ICDR Regulations, 2009, the Companies Act, 1956 and the Companies Act, 2013 (the “Companies Act”), The Securities Contracts (Regulation) Rules, 1957 (the “SCRR”), industry-specific regulations, if any, and other applicable laws for the time being in force. Following are the eligibility requirements for making an SME IPO under Regulation 106M (2) of Chapter XB of SEBI (ICDR) Regulation:

1. In accordance with regulation 106(P) of the SEBI (ICDR) Regulations, issue has to be 100% underwritten and the BRLM has to underwrite at least 15% of the total issue size.
2. In accordance with Regulation 106(R) of the SEBI (ICDR) Regulations, total number of proposed allottees in the issue shall be greater than or equal to fifty, otherwise, the entire application money will be refunded forthwith. If such money is not repaid within eight days from the date the company becomes liable to repay it, then the Company and every officer in default shall, on and from expiry of eight days, be liable to repay such application money, with interest as prescribed under section 40 of the Companies Act, 2013.
3. In accordance with Regulation 106(O) the SEBI (ICDR) Regulations, Company is not required to file any Offer Document with SEBI nor has SEBI issue any observations on the Offer Document. The Book Running Lead Manager shall submit the copy of Prospectus along with a Due Diligence Certificate including additional confirmations as required to SEBI at the time of filing the Prospectus with Stock Exchange and the Registrar of Companies.
4. In accordance with Regulation 106(V) of the SEBI ICDR Regulations, the BRLM has to ensure compulsory market making for a minimum period of three years from the date of listing of Equity Shares offered in the issue.
5. The company should have track record of at least 3 years
6. The company should have positive cash accruals (earnings before depreciation and tax) from operations for at least 2 financial years preceding the application and its net-worth should be positive.
7. The post issue paid up capital of the company (face value) shall not be more than Rs. 25 crores.
8. The issuer shall mandatorily facilitate trading in demat securities.
9. The issuer should not be referred to Board for Industrial and Financial Reconstruction.
10. No petition for winding up is admitted by a court or a liquidator has not been appointed of competent jurisdiction against the Company
11. No material regulatory or disciplinary action should have been taken by any stock exchange or regulatory authority in the past three years against the issuer
12. The Company should have a website. Issuer shall also comply with all the other requirements as laid down for such an Issue under Chapter XB of SEBI (ICDR) Regulations and subsequent circulars and guidelines issued by SEBI and the Stock Exchange.

As per Regulation 106(M)(3) of SEBI (ICDR) Regulations, 2009, the provisions of Regulations 6(1), 6(2), 6(3), Regulation 7, Regulation 8, Regulation 9, Regulation 10, Regulation 25, Regulation 26, Regulation 27 and Sub regulation (1) of Regulation 49 of SEBI (ICDR) Regulations, 2009 shall not apply to this issue.

Thus, Company is eligible for the issue in accordance with regulation 106M (2) and other provisions of chapter XB of the SEBI (ICDR) Regulations as the post issue face value capital is more than 1000 Lakhs but does not exceed Rs. 2500 Lakhs. Company also complies with the eligibility conditions laid by the EMERGE Platform of National Stock Exchange of India Limited for listing of our Equity Shares.

2.3 TYPES OF PUBLIC ISSUES – FIXED PRICE ISSUES AND BOOK BUILT ISSUES

In accordance with the provisions of the SEBI ICDR Regulations, 2009, an Issuer can either determine the Issue Price through the Book Building Process (**“Book Built issues”**) or undertake a Fixed Price Issue (**“Fixed Price Issues”**). An issuer may mention a Price or Price Band in the Draft Prospectus (in case of a Fixed Price Issue) and Floor price or Price band in the Red Herring Prospectus (in case of a Book Built Issue) and determine the price at a later date before registering the prospectus with the Registrar of Companies.

The cap on the Price Band should be less than or equal to 120% of the Floor Price. The issuer shall announce the Price or the Floor Price or the Price Band through advertisement in

all newspapers in which the pre-issue advertisement was given at least five Working Days before the Issue Opening Date, in case of an IPO and at least one Working Day before the Issue Opening Date, in case of an FPO.

The Floor Price or the Issue price cannot be lesser than the face value of the securities. Applicants should refer to the Prospectus or Issue advertisements to check whether the Issue is a Book Built Issue or a Fixed Price Issue.

2.4 ISSUE PERIOD

The Issue may be kept open for a minimum of three Working Days (for all category of Applicants) and not more than ten Working Days. Applicants are advised to refer to the Application Form and Abridged Prospectus or Prospectus for details of the Issue Period. Details of Issue Period are also available on the website of the Stock Exchange(s).

In case of a Book Built Issue, the Issuer may close the Issue Period for QIBs one Working Day prior to the Issue Closing Date if disclosures to that effect are made in the Prospectus. In case of revision of the Floor Price or Price Band in Book Built Issues the Issue Period may be extended by at least three Working Days, subject to the total Issue Period not exceeding 10 Working Days. For details of any revision of the Floor Price or Price Band, Applicants may check the announcements made by the Issuer on the websites of the Stock Exchanges and the BRLM and the advertisement in the newspaper(s) issued in this regard

2.5 MIGRATION TO MAIN BOARD

SME Issuer may migrate to the Main Board of SE from the SME Exchange at a later date subject to the following:

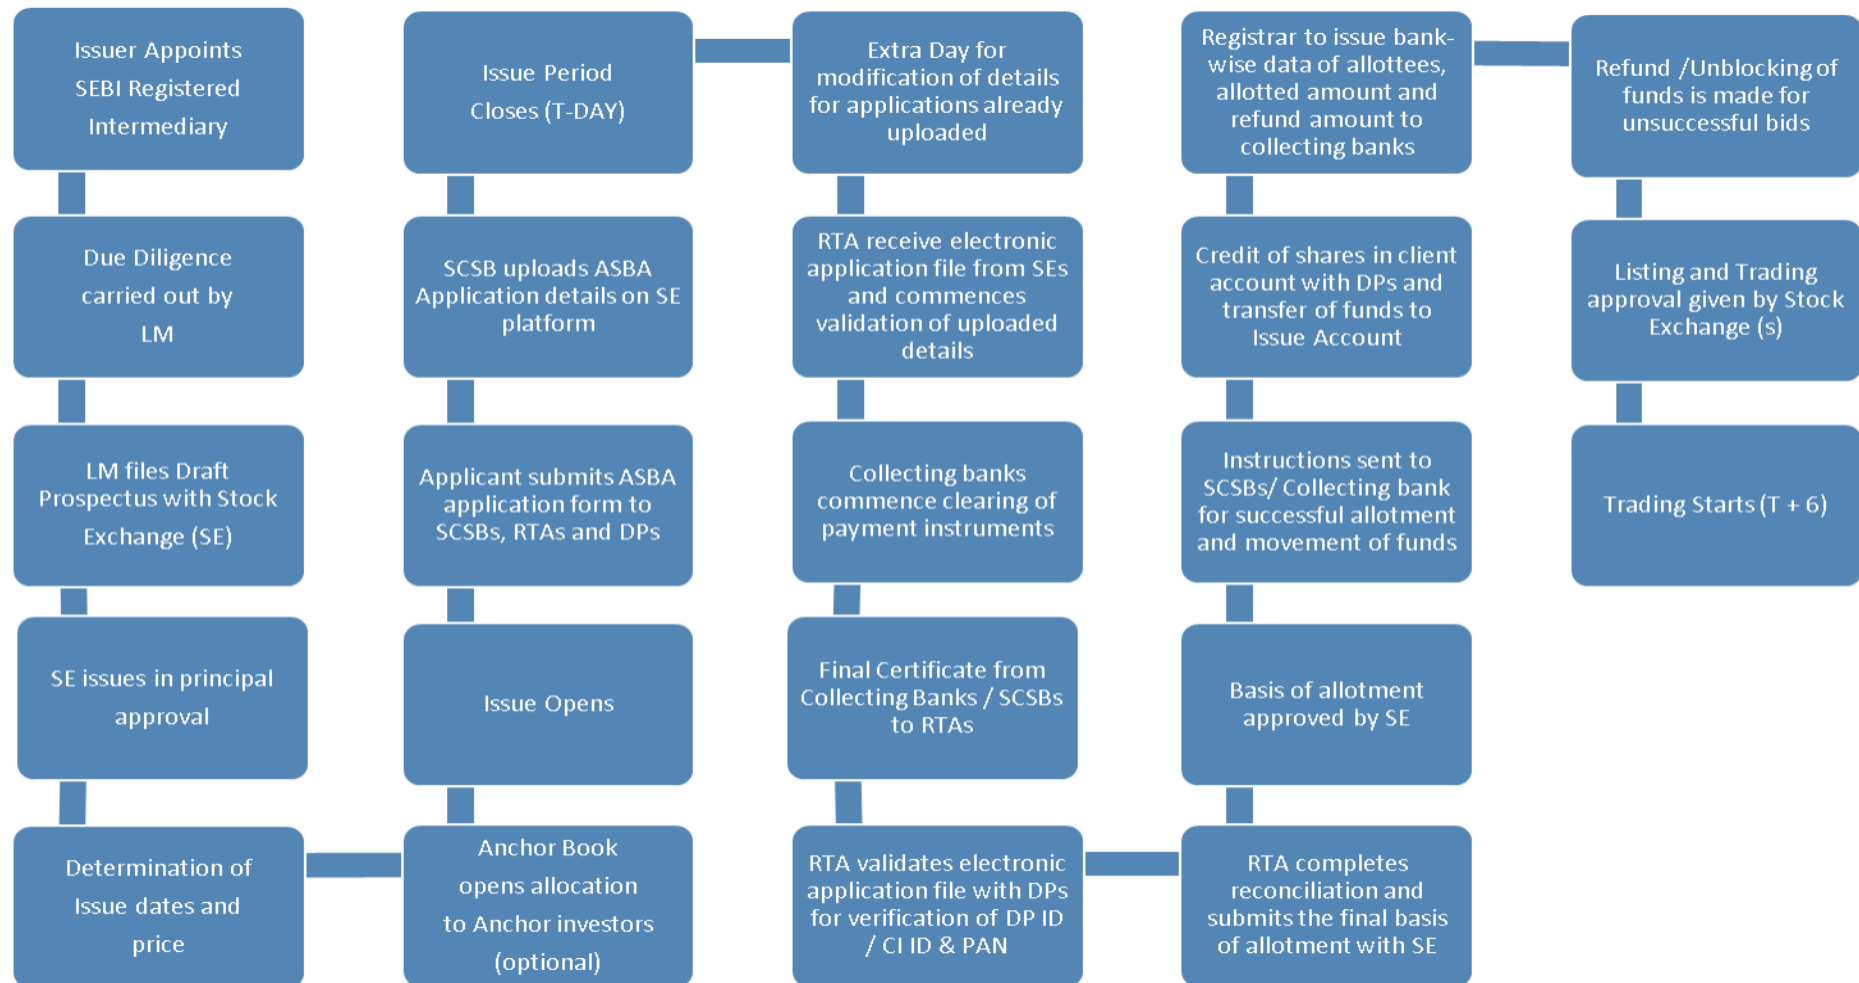

- a) If the Paid-up Capital of the Company is likely to increase above Rs. 25 crores by virtue of any further issue of capital by way of rights, preferential issue, bonus issue etc. (which has been approved by a special resolution through postal ballot wherein the votes cast by the shareholders other than the Promoter in favour of the proposal amount to at least two times the number of votes cast by shareholders other than promoter shareholders against the proposal and for which the company has obtained in-principal approval from the main board), the Company shall apply to SE for listing of its shares on its Main Board subject to the fulfilment of the eligibility criteria for listing of specified securities laid down by the Main Board.

OR

- b) If the Paid-up Capital of the company is more than 10 crores but below Rs. 25 crores, the Company may still apply for migration to the main board if the same has been approved by a special resolution through postal ballot wherein the votes cast by the shareholders other than the Promoter in favour of the proposal amount to at least two times the number of votes cast by shareholders other than promoter shareholders against the proposal.

2.6 FLOWCHART OF TIMELINES

A flow chart of process flow in Fixed Price and Book Built Issues is as follows

4.1.1 FIELD NUMBER 1: NAME AND CONTACT DETAILS OF THE SOLE/ FIRST APPLICANT

Applicants should ensure that the name provided in this field is exactly the same as the name in which the Depository Account is held.

- a) **Mandatory Fields:** Applicants should note that the name and address fields are compulsory and e-mail and/or telephone number/ mobile number fields are optional. Applicants should note that the contact details mentioned in the Application Form may be used to dispatch communications) in case the communication sent to the address available with the Depositories are returned undelivered or are not available. The contact details provided in the Application Form may be used by the Issuer, the members of the Syndicate, the Registered Broker and the Registrar to the Issue only for correspondence(s) related to an Issue and for no other purposes.
- b) **Joint Applications:** In the case of Joint Applications, the Applications should be made in the name of the Applicant whose name appears first in the Depository account. The name so entered should be the same as it appears in the Depository records. The signature of only such first Applicant would be required in the Application Form and such first Applicant would be deemed to have signed on behalf of the joint holders. All payments may be made out in favour of the Applicant whose name appears in the Application Form or the Revision Form and all communications may be addressed to such Applicant and may be dispatched to his or her address as per the Demographic Details received from the Depositories.
- c) **Impersonation:** Attention of the Applicants is specifically drawn to the provisions of sub section (1) of Section 38 of the Companies Act, 2013 which is reproduced below:

Any person who:

- makes or abets making of an application in a fictitious name to a Company for acquiring, or subscribing for, its securities; or
- makes or abets making of multiple applications to a Company in different names or in different combinations of his name or surname for acquiring or subscribing for its securities; or
- otherwise induces directly or indirectly a Company to allot, or register any transfer of securities to him, or to any other person in a fictitious name,

Shall be liable for action under section 447 of the said Act.

- d) **Nomination Facility to Applicant:** Nomination facility is available in accordance with the provisions of Section 72 of the Companies Act, 2013. In case of allotment of the Equity Shares in dematerialized form, there is no need to make a separate nomination as the nomination registered with the Depository may prevail. For changing nominations, the Applicants should inform their respective DP.

4.1.2 FIELD NUMBER 2: PAN NUMBER OF SOLE /FIRST APPLICANT

- a) PAN (of the sole/ first Applicant) provided in the Application Form should be exactly the same as the PAN of the person in whose sole or first name the relevant beneficiary account is held as per the Depositories' records.
- b) PAN is the sole identification number for participants transacting in the securities market irrespective of the amount of transaction except for Applications on behalf of the Central or State Government, Applications by officials appointed by the courts and Applications by Applicants residing in Sikkim ("PAN Exempted Applicants"). Consequently, all Applicants, other than the PAN Exempted Applicants, are required to disclose their PAN in the Application Form, irrespective of the Application Amount. Applications by the Applicants whose PAN is not available as per the Demographic Details available in their Depository records, are liable to be rejected.
- c) The exemption for the PAN Exempted Applicants is subject to (a) the Demographic Details received from the respective Depositories confirming the exemption granted to the beneficiary owner by a suitable description in the PAN field and the beneficiary

account remaining in “active status”; and (b) in the case of residents of Sikkim, the address as per the Demographic Details evidencing the same.

- d) Application Forms which provide the GIR Number instead of PAN may be rejected.
- e) Applications by Applicants whose demat accounts have been “suspended for credit” are liable to be rejected pursuant to the circular issued by SEBI on July 29, 2010, bearing number CIR/MRD/DP/22/2010. Such accounts are classified as “Inactive demat accounts” and Demographic Details are not provided by depositories.

4.1.3 FIELD NUMBER 3: APPLICANTS DEPOSITORY ACCOUNT DETAILS

- a) Applicants should ensure that DP ID and the Client ID are correctly filled in the Application Form. The DP ID and Client ID provided in the Application Form should match with the DP ID and Client ID available in the Depository database, otherwise, the **Application Form is liable to be rejected.**
- b) Applicant should ensure that the beneficiary account provided in the Application Form is active.
- c) Applicant should note that on the basis of DP ID and Client ID as provided in the Application Form, the Applicants may be deemed to have authorized the Depositories to provide to the Registrar to the Issue, any requested Demographic Details of the as available on the records of the depositories. These Demographic Details may be used, among other things, for sending allocation advice and for other correspondence(s) related to the issue.
- d) Applicants are, advised to update any changes to their Demographic Details as available in the records of the Depository Participant to ensure accuracy of records. Any delay resulting from failure to update the Demographic Details would be at the Applicants’ sole risk.

4.1.4 FIELD NUMBER 4: APPLICANT DETAILS

- (a) The Issuer may mention Price in the Draft Prospectus. However, a prospectus registered with RoC contains one price.
- (b) Minimum and Maximum Application Size
 - i. **For Retail Individual Applicants**
 The Application must be for a minimum of 3,000 Equity Shares. As the Application Price payable by the Retail Individual Applicants cannot exceed Rs. 2,00,000, they can make Application for only minimum Application size i.e. for 3,000 Equity Shares.
 - ii. **For Other Applicants (Non- Institutional Applicants and QIBs):**
 The Application must be for a minimum of such number of Equity Shares such that the Application Amount exceeds Rs. 2,00,000 and in multiples of 3,000 Equity Shares thereafter. An Application cannot be submitted for more than the Issue Size. However, the maximum Application by a QIB investor should not exceed the investment limits prescribed for them by applicable laws. Under existing SEBI Regulations, a QIB Applicant cannot withdraw its Application after the Issue Closing Date and is required to pay 100% QIB Margin upon submission of Application. In case of revision in Applications, the Non- Institutional Applicants, who are individuals, have to ensure that the Application Amount is greater than Rs. 2,00,000 for being considered for allocation in the Non- Institutional Portion. Applicants are advised to ensure that any single Application from them does not exceed the investment limits or maximum number of Equity Shares that can be held by them under applicable law or regulation or as specified in the Prospectus.
- (c) **Multiple Applications:** An Applicant should submit only one Application Form. Submission of a second Application Form to either the same or to any other Application Collecting Intermediary and duplicate copies of Application Forms bearing the same application number shall be treated as multiple applications and are liable to be rejected.
- (d) Applicants are requested to note the following procedures may be followed by the

Registrar to the Issue to detect multiple applications:

- i. All applications may be checked for common PAN as per the records of the Depository. For Applicants other than Mutual Funds and FPI sub-accounts, Applications bearing the same PAN may be treated as multiple applications by an Applicant and may be rejected.
 - ii. For applications from Mutual Funds and FPI sub-accounts, submitted under the same PAN, as well as Applications on behalf of the PAN Exempted Applicants, the Application Forms may be checked for common DP ID and Client ID. In any such applications which have the same DP ID and Client ID, these may be treated as multiple applications and may be rejected.
- (e) The following applications may not be treated as multiple Applications:
- i. Applications by Reserved Categories in their respective reservation portion as well as that made by them in the Net Issue portion in public category.
 - ii. Separate applications by Mutual Funds in respect of more than one scheme of the Mutual Fund provided that the Applications clearly indicate the scheme for which the Application has been made.
 - iii. Applications by Mutual Funds, and sub-accounts of FPIs (or FPIs and its sub-accounts) submitted with the same PAN but with different beneficiary account numbers, Client IDs and DP IDs.

4.1.5 FIELD NUMBER 5: CATEGORY OF APPLICANTS

- (a) The categories of Applicants identified as per the SEBI ICDR Regulations, 2009 for the purpose of Applications, allocation and allotment in the Issue are RIIs, NIIs and QIBs.
- (b) An Issuer can make reservation for certain categories of Applicants as permitted under the SEBI ICDR Regulations, 2009. For details of any reservations made in the Issue, Applicants may refer to the Prospectus.
- (c) The SEBI ICDR Regulations, 2009, specify the allocation or allotment that may be made to various categories of Applicants in an Issue depending upon compliance with the eligibility conditions. Details pertaining to allocation are disclosed on reverse side of the Revision Form. For Issue specific details in relation to allocation Applicant may refer to the Draft Prospectus.

4.1.6 FIELD NUMBER 6: INVESTOR STATUS

- (a) Each Applicant should check whether it is eligible to apply under applicable law and ensure that any prospective allotment to it in the Issue is in compliance with the investment restrictions under applicable law.
- (b) Certain categories of Applicants, such as NRIs, FPIs and FVCIs may not be allowed to apply in the Issue or hold Equity Shares exceeding certain limits specified under applicable law. Applicants are requested to refer to the Prospectus for more details.
- (c) Applicants should check whether they are eligible to apply on non-repatriation basis or repatriation basis and should accordingly provide the investor status. Details regarding investor status are different in the Resident Application Form and Non-Resident Application Form.
- (d) Applicants should ensure that their investor status is updated in the Depository records.

4.1.7 FIELD NUMBER 7: PAYMENT DETAILS

- (a) Please note that, providing bank account details in the space provided in the Application Form is mandatory and Applications that do not contain such details are liable to be rejected.

4.1.7.1 Payment instructions for Applicants

- (a) Applicants may submit the Application Form in physical mode to the Application Collecting Intermediaries.

- (b) Applicants should specify the Bank Account number in the Application Form.
- (c) Applicants should ensure that the Application Form is also signed by the ASBA Account holder(s) if the Applicant is not the ASBA Account holder;
- (d) Applicants shall note that for the purpose of blocking funds under ASBA facility clearly demarcated funds shall be available in the account.
- (e) From one Bank Account, a maximum of five Application Forms can be submitted.
- (f) Applicants applying directly through the SCSBs should ensure that the Application Form is submitted to a Designated Branch of a SCSB where the ASBA Account is maintained. In case Applicant applying through Application Collecting Intermediary other than SCSB, after verification and upload, the Application Collecting Intermediary shall send to SCSB for blocking of fund.
- (g) Upon receipt of the Application Form, the Designated Branch of the SCSB may verify if sufficient funds equal to the Application Amount are available in the ASBA Account, as mentioned in the Application Form.
- (h) If sufficient funds are available in the ASBA Account, the SCSB may block an amount equivalent to the Application Amount mentioned in the Application Form and may upload the details on the Stock Exchange Platform.
- (i) If sufficient funds are not available in the ASBA Account, the Designated Branch of the SCSB may not upload such Applications on the Stock Exchange platform and such Applications are liable to be rejected.
- (j) Upon submission of a completed Application Form each ASBA Applicant may be deemed to have agreed to block the entire Application Amount and authorized the Designated Branch of the SCSB to block the Application Amount specified in the Application Form in the ASBA Account maintained with the SCSBs.
- (k) The Application Amount may remain blocked in the aforesaid ASBA Account until finalization of the Basis of allotment and subsequent transfer of the Application Amount against the Allotted Equity Shares, if any, to the Public Issue Account, or until withdrawal or failure of the Issue, or until withdrawal or rejection of the Application, as the case may be.
- (l) SCSBs applying in the Issue must apply through an ASBA Account maintained with any other SCSB; else their Applications are liable to be rejected.

4.1.8 Unblocking of ASBA Account

- (a) Once the Basis of Allotment is approved by the Designated Stock Exchange, the Registrar to the Issue may provide the following details to the controlling branches of each SCSB, along with instructions to unblock the relevant bank accounts and for successful applications transfer the requisite money to the Public Issue Account designated for this purpose, within the specified timelines: (i) the number of Equity Shares to be Allotted against each Application, (ii) the amount to be transferred from the relevant bank account to the Public Issue Account, for each Application, (iii) the date by which funds referred to in (ii) above may be transferred to the Public Issue Account, and (iv) details of rejected/ partial/ non-allotment ASBA Applications, if any, along with reasons for rejection and details of withdrawn or unsuccessful Applications, if any, to enable the SCSBs to unblock the respective bank accounts.
- (b) On the basis of instructions from the Registrar to the Issue, the SCSBs may transfer the requisite amount against each successful ASBA Application to the Public Issue Account and may unblock the excess amount, if any, in the ASBA Account.
- (c) In the event of withdrawal or rejection of the Application Form and for unsuccessful Applications, the Registrar to the Issue may give instructions to the SCSB to unblock the Application Amount in the relevant ASBA Account within 6 Working Days of the Issue Closing Date.

4.1.8.1 Discount (if applicable)

- (a) The Discount is stated in absolute rupee terms.
- (b) RIIs, Employees and Retail Individual Shareholders are only eligible for discount. For Discounts offered in the Issue, applicants may refer to the Prospectus.
- (c) The Applicants entitled to the applicable Discount in the Issue may make payment for an amount i.e. the Application Amount less Discount (if applicable).

4.1.8.2 Additional Payment Instructions for NRIs

The Non-Resident Indians who intend to block funds in their Non-Resident Ordinary (NRO) accounts shall use the form meant for Resident Indians (non-repatriation basis). In the case of applications by NRIs applying on a repatriation basis, payment shall not be accepted out of NRO Account.

4.1.9 FIELD NUMBER 8: SIGNATURES AND OTHER AUTHORISATIONS

- (a) Only the First Applicant is required to sign the Application Form. Applicants should ensure that signatures are in one of the languages specified in the Eighth Schedule to the Constitution of India.
- (b) If the ASBA Account is held by a person or persons other than the Applicant, then the Signature of the ASBA Account holder(s) is also required.
- (c) In relation to the Applications, signature has to be correctly affixed in the authorization/undertaking box in the Application Form, or an authorization has to be provided to the SCSB via the electronic mode, for blocking funds in the ASBA Account equivalent to the application amount mentioned in the Application Form.
- (d) Applicants must note that Application Form without signature of Applicant and /or ASBA Account holder is liable to be rejected.

SECTION 6: ISSUE PROCEDURE IN BOOK BUILT ISSUE

This being Fixed Price Issue, this section is not applicable for this Issue.

SECTION 7: ALLOTMENT PROCEDURE AND BASIS OF ALLOTMENT

7.1 BASIS OF ALLOTMENT

Allotment will be made in consultation with the SME Platform of NSE (The Designated Stock Exchange). In the event of oversubscription, the allotment will be made on a proportionate basis in marketable lots as set forth hereunder:

- The total number of Shares to be allocated to each category as a whole shall be arrived at on a proportionate basis i.e. the total number of Shares applied for in that category multiplied by the inverse of the over subscription ratio (number of Applicants in the category x number of Shares applied for).
- The number of Shares to be allocated to the successful Applicants will be arrived at on a proportionate basis in marketable lots (i.e. Total number of Shares applied for into the inverse of the over subscription ratio).
- For applications where the proportionate allotment works out to less than 3,000 equity shares the allotment will be made as follows:
 - Each successful Applicant shall be allotted 3,000 equity shares; and
 - The successful Applicants out of the total applicants for that category shall be determined by the drawl of lots in such a manner that the total number of Shares allotted in that category is equal to the number of Shares worked out as per (2) above.
- If the proportionate allotment to an Applicant works out to a number that is not a multiple of 3,000 equity shares, the Applicant would be allotted Shares by rounding off to the nearest multiple of 3,000 equity shares subject to a minimum allotment of 3,000 equity shares.
- If the Shares allotted on a proportionate basis to any category is more than the Shares allotted to the Applicants in that category, the balance available Shares or allocation shall be first adjusted against any category, where the allotted Shares are not sufficient for proportionate allotment to the successful Applicants in that category, the balance Shares, if any, remaining after such adjustment will be added to the category comprising Applicants applying for the minimum number of Shares. If as a result of the process of rounding off to the nearest multiple of 3,000 Equity Shares, results in the actual allotment being higher than the shares offered, the final allotment may be higher at the sole discretion of the Board of Directors, up to 110% of the size of the issue specified under the Capital Structure mentioned in this Prospectus.
- The above proportionate allotment of Shares in an Issue that is oversubscribed shall be subject to the reservation for Retail individual Applicants as described below:
 - As per Regulation 43 (4) of SEBI (ICDR), as the retail individual investor category is entitled to more than fifty per cent on proportionate basis, the retail individual investors shall be allocated that higher percentage.

- ii. The balance net issue of shares to the public shall be made available for allotment to
 - individual applicants other than retails individual investors and
 - other investors, including corporate bodies/ institutions irrespective of number of shares applied for.
- iii. The unsubscribed portion of the net issue to any one of the categories specified in a) or b) shall/may be made available for allocation to applicants in the other category, if so required.

'Retail Individual Investor' means an investor who applies for shares of value of not more than Rs. 2,00,000/-. Investors may note that in case of over subscription allotment shall be on proportionate basis and will be finalized in consultation with NSE.

The Executive Director/ Managing Director of NSE – the Designated Stock Exchange in addition to Lead Manager and Registrar to the Public Issue shall be responsible to ensure that the basis of allotment is finalized in a fair and proper manner in accordance with the SEBI (ICDR) Regulations.

8.4 INTEREST IN CASE OF DELAY IN ALLOTMENT OR REFUND

The Issuer may pay interest at the rate of 15% per annum/ or demat credits are not made to Applicants or instructions for unblocking of funds in the ASBA Account are not dispatched within the 4 Working days of the Issue Closing Date.

The Issuer may pay interest at 15% per annum for any delay beyond 6 days from the Issue Closing Date, if Allotment is not made.

RESTRICTION OF FOREIGN OWNERSHIP OF INDIAN SECURITIES

Foreign investment in Indian securities is regulated through the Industrial Policy, 1991 of the Government, the FDI Policy and FEMA. While the Industrial Policy, 1991 prescribes the limits and the conditions subject to which foreign investment can be made in different sectors of the Indian economy, FEMA regulates the precise manner in which such investment may be made. Under the Industrial Policy, unless specifically restricted, foreign investment is freely permitted in all sectors of Indian economy up to any extent and without any prior approvals, but the foreign investor is required to follow certain prescribed procedures for making such investment. The government bodies responsible for granting foreign investment approvals are FIPB and the RBI.

The Government has from time to time made policy pronouncements on FDI through press notes and press releases. The Department of Industrial Policy and Promotion, Ministry of Commerce and Industry, Government of India (“DIPP”), issued consolidated FDI Policy, which with effect from August 28, 2017 consolidates and supersedes all previous press notes, press releases and clarifications on FDI issued by the DIPP that were in force and effect as on August 27, 2017. The Government proposes to update the consolidated circular on FDI Policy once every year and therefore, the Consolidation FDI Policy will be valid until the DIPP issues an updated circular. The Government has also enacted Foreign Exchange Management (Transfer or Issue of Security by a Person Resident Outside India) Regulations, 2017 in suppression of Foreign Exchange Management (Transfer or issue of Security by a Person Resident outside India) Regulations, 2000.

Investment by Foreign Portfolio Investors (FPIs)/ Foreign Institutional Investor (FIIs)

FPIs are permitted to subscribe to Equity Shares of an Indian Company in a public issue without the prior approval of the RBI, so long as the price of the Equity Shares to be issued is not less than the price at which the Equity Shares are issued to residents. SEBI registered FPIs have been permitted to purchase shares of an Indian company through Issue, subject to total FPI investment being within the individual FPI investment limit of below 10% of the paid-up equity capital of the Indian Company and subject to the total cap of all FPIs put together being 24% of the paid-up equity capital of the Indian company. However, this limit of 24% may be increased up to sectoral cap/statutory ceiling, as applicable, by the Indian company concerned by passing a resolution by its Board of Directors followed by passing of a special resolution to that effect by its general body.

As per Foreign Exchange Management (Transfer or Issue of Security by a Person Resident Outside India) Regulations, 2017, any FII or a sub account registered under the Securities Exchange Board of India (Foreign Institutional Investors) Regulations, 1995 and holding a valid certificate of registration from SEBI shall be deemed to be a FPI till the expiry of the block of three years from the enactment of the Securities Exchange Board of India (FPI) Regulations, 2014.

Subscription by Non-Resident Indians (NRI) or Overseas Citizen of India (OCI) on Repatriation Basis

A NRI or OCI may purchase or sell shares of a listed Indian company on repatriation basis, on a recognised stock exchange in India, subject to the conditions that NRIs or OCIs may purchase and sell shares through a branch designated by an authorised dealer for the purpose; and the total holding by any individual NRI or OCI shall not exceed 5% of the total paid-up equity capital on a fully diluted basis or should not exceed 5% of the paid-up value of each series of debentures or preference shares or share warrants issued by an Indian company and the total holdings of all NRIs and OCIs put together shall not exceed 10% of the total paid-up equity capital on a fully diluted basis or shall not exceed 10% of the paid-up value of each series of debentures or preference shares or share warrants. The aggregate ceiling of 10% may be raised to 24% if a special resolution to that effect is passed by the general body of the company.

Investment by NRI or OCI on Non-repatriation basis

As per Schedule 4 of Foreign Exchange Management (Transfer or Issue of Security by a Person Resident Outside India) Regulations, 2017, purchase by a NRI/ OCI, including a company, a trust and a partnership firm incorporated outside India and owned and controlled by NRIs/ OCIs, on non-repatriation basis of shares and convertible debentures or warrants issued by a company without any limit either on the stock exchange or outside it will be deemed to be domestic investment at par with the investment made by residents. This is further subject to remittance channel restrictions. However, NRI/ OCI, including a company, a trust and a partnership firm incorporated outside India and owned and controlled by NRIs/ OCIs, is prohibited from making any investment, under Schedule 4, in capital instruments or units of a Nidhi company or a company engaged in agricultural/ plantation activities or real estate business or construction of farm houses or dealing in transfer of development rights.

Investors are advised to refer to the exact text of the relevant statutory provisions of law before investing and/ or subsequent purchase or sale transaction in the Equity Shares of Our Company.

No person shall make an application in the Issue, unless such person is eligible to acquire Equity Shares of our Company in accordance with applicable laws, rules, regulations, guidelines and approvals.

As per the existing policy of the Government of India, OCBs cannot participate in any Public Issue.

The Equity Shares offered in the Issue have not been and will not be registered under the Securities Act and may not be offered or sold within the United States, except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the Securities Act and applicable U.S. state securities laws. Accordingly, the Equity Shares are being offered and sold (i) within the United States to persons reasonably believed to be “qualified institutional investors” (as defined in Rule 144A under the Securities Act) pursuant to Rule 144A under the Securities Act or other applicable exemption under the Securities Act and (ii) outside the United States in offshore transactions in reliance on Regulation S under the Securities Act and the applicable laws of the jurisdictions where such offers and sales occur.

The above information is given for the benefit of the Applicants. Our Company and the LM are not liable for any amendments or modification or changes in applicable laws or regulations, which may occur after the date of this Prospectus. Applicants are advised to make their independent investigations and ensure that the Applications are not in violation of laws or regulations applicable to them.
